

Statement of (b)(7)(C) given on 9 July 2004:

I, (b)(7)(C), have only witnessed one incident of cursing at a detainee. I was checking the water bull chlorine and a Marine said ass to a detainee. I told the Marine not to do that anymore. He then asked me who said not to curse at them anymore and I told him General Mattis said that. He did not do it anymore. I have not seen any other abuse of any kind just what I've been told. I don't know of any other abuse. As for detainee #0528 I did his pre interrogation screening on 7 July 2004 at 1320 and found no bruising at this time. He also had no complaints at this time. He did not get a post interrogation screening because the Marines did not bring him by medical. I did rounds later that day at 1900 to 2020 and saw all the detainees because the Marines and I gave black socks to everyone so they can keep their water cool. I asked every detainee how they are doing and no one had any complaints. That is all I know.
