"This is an Operation Iraqi Freedom Investigation."

The 96TH Military Police Battalion (MP BN), Camp Cropper, Baghdad, Iraq APO AE 09342 (CCI) reported the death of a detainee.

Investigation disclosed Mr. ABBASS AL ZUBAIDI was found in his cell unresponsive and not breathing, and was pronounced deceased at 0250, 8 Oct 06. An autopsy conducted by the Office of the Armed Forces Medical Examiner revealed Mr. ABBASS AL ZUBAIDI died as a result of hypertensive and arteriosclerotic cardiovascular disease and the manner of death was natural. The results of this investigation were consistent with their findings.

CID Regulation 195-1

Page 1 of 4 pages

BASIS FOR INVESTIGATION:

About 0320, 8 Oct 06, this office was notified by SGT **(b)(6), b(7)(C)** Headquarters and Headquarters Company (HHC), 96TH Military Police Battalion (MP BN), Camp Cropper, Baghdad, Iraq APO AE 09342 (CCI) that Mr. Najim Mohammed ABBASS AL ZUBAIDI, Internment Serial Number (ISN) US **(b)(6), b(7)(C)** had died inside Bravo Block, Special Housing Unit (SHU), Camp Remembrance II Internment Facility, CCI.

About 0435, 8 Oct 06, SA **(b)(6), b(7)(C)** interviewed MAJ **(b)(6), b(7)(C)** Officer in Charge (OIC), Detainee Medical Clinic (DMC), 21ST Combat Support Hospital (CSH), CCI concerning Mr. ABBASS AL ZUBAIDI. MAJ **(b)(6), b(7)(C)** stated she had spoken with Mr. ABBASS AL ZUBAIDI the morning of 7 Oct 06 concerning the reason he was in the SHU and why he was on medication. MAJ **(b)(6), b(7)(C)** stated she informed Mr. ABBASS AL ZUBAIDI that he was in the SHU and on medication because he had active Tuberculosis (TB). MAJ **(b)(6), b(7)(C)** stated he was being treated for TB with Isoniazid, Rifampin, Pyridoxine, Ethambutol, Pyrazinamide, and an Albuterol inhaler. MAJ **(b)(6), b(7)(C)** stated Mr. ABBASS AL ZUBAIDI had no other known medical conditions.

About 0536, 8 Oct 06, SFC **(b)(6), b(7)(C)** Bravo Company (B CO) 181 Engineers (ENG), CCI, took custody of the body to transport to the Inprocessing Holding Area (IHA), CCI.

About 0605, 8 Oct 06, SA **(b)(6), b(7)(C)** coordinated with MAJ **(b)(6), b(7)(C)** and obtained copies of Mr. ABBASS AL ZUBAIDI's medical records. (See Medical Records for details)

About 0630, 8 Oct 06, SA **(b)(6), b(7)(C)** interviewed CPT **(b)(6), b(7)(C)** On Call Emergency Room Doctor, 21ST CSH, CCI who stated he was notified about 0235, 8 Oct 06, that a detainee was unresponsive and not breathing in the SHU. CPT **(b)(6), b(7)(C)** stated he arrived at the scene about 0245, 8 Oct 06, and the detainee was lying on the hallway floor of the SHU just outside his cell. CPT **(b)(6), b(7)(C)** stated that medical personnel were performing life cardio pulmonary resuscitation (CPR) and an intravenous line (IV) was already started on the detainee when he arrived. CPT **(b)(6), b(7)(C)** stated he instructed CPT **(b)(6), b(7)(C)** to intubate the detainee and was informed by CPT **(b)(6), b(7)(C)** that CPR had been performed for approximately 13 minutes prior to his arrival. CPT **(b)(6), b(7)(C)** stated he took over CPR for approximately the last minute or so before pronouncing the detainee dead at 0250, 8 Oct 06 with a preliminary cause of death as cardio pulmonary arrest. CPT **(b)(6), b(7)(C)** stated that life saving measures included CPR, intubation, and administering Epinephrine and Atropine.

About 0705, 8 Oct 06, SA **(b)(6), b(7)(C)** obtained the Personal Data Report (PDR), and Enemy Prisoner of War Screening Report (EPWSR) from the Biometrics Automated Toolset System (BATS), CCI pertaining to Mr. ABBASS AL ZUBAIDI. (See PDR and EPWSR for details)

BASIS FOR INVESTIGATION:

About 1212, 8 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed SPC **(b)(6), (b)(7)(C)** Bravo Company (B CO), 1-148th Infantry (INF), CCI who rendered a written statement detailing his observations and actions the morning Mr. ABBASS AL ZUBAIDI died. (See Sworn Statement for details)

About 1224, 8 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed SPC **(b)(6), (b)(7)(C)** B CO, 1-148th INF, CCI, who rendered a written statement detailing his observations the morning of Mr. ABBASS AL ZUBAIDI'S died. (See Sworn Statement for details)

About 1237, 8 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed SSG **(b)(6), (b)(7)(C)** B CO, 1-148th INF, CCI, who rendered a written statement detailing his observations and actions the morning of Mr. ABBASS AL ZUBAIDI'S death. (See Sworn Statement for details)

About 1249, 8 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed SGT **(b)(6), (b)(7)(C)** B CO, 1-148 INF, CCI, who rendered a written statement detailing how Mr. ABBASS AL ZUBAIDI was positioned before he entered the cell, what actions the guard force had taken and what he observed once medical personnel arrived. (See Sworn Statement for details)

About 1431, 8 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed SGT **(b)(6), (b)(7)(C)** B CO, 1-148th INF, CCI, who rendered a written statement detailing his observations, what actions he had taken when finding Mr. ABBASS AL ZUBAIDI unresponsive and not breathing and what he observed when medical personnel arrived. (See Sworn Statement for details)

About 1845, 8 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed CPL **(b)(6), (b)(7)(C)** 21st Combat Support Hospital (CSH), CCI, who rendered a written statement detailing his observations upon arriving to Bravo Block, Special Housing Unit (SHU), Camp Remembrance II Internment Facility, CCI, as well as what resuscitative actions he had taken upon Mr. ABBASS AL ZUBAIDI. (See Sworn Statement for details)

About 1921, 8 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed SPC **(b)(6), (b)(7)(C)** 21st CSH, CCI, who rendered a written statement detailing his observations upon his arrival to Bravo Block, SHU, Camp Remembrance II Internment Facility, CCI, and what resuscitative efforts he had taken on Mr. ABBASS AL ZUBAIDI. (See Sworn Statement for details)

About 1130, 9 Oct 06, SA **(b)(6), (b)(7)(C)** interviewed SGT **(b)(6), (b)(7)(C)** B CO, 1-148th INF, CCI who rendered a written statement detailing his observations when entering Mr. ABBASS AL ZUBAIDI'S cell, what actions were taken by the guards and what he observed when medical personnel arrived. (See Sworn Statement for details)

BASIS FOR INVESTIGATION:

About 1435, 9 Oct 06, SA **b(6), b(7)(C)** and SA **b(6), b(7)(C)** conducted canvass interviews of the guard force for Bravo Block, SHU, Camp Remembrance II Internment Facility, CCI, for the 1400-0200 shift. (See Canvass Interview Worksheet for details)

About 1909, 9 Oct 06, SA **b(6), b(7)(C)** interviewed SPC **b(6), b(7)(C)** 21st CSH, CCI, who rendered a written statement detailing the actions taken by medical personnel when it was determined Mr. ABBASS AL ZUBAIDI was unresponsive. (See Sworn Statement for details)

About 2031, 9 Oct 06, SA **b(6), b(7)(C)** interviewed CPT **b(6), b(7)(C)** 21st CSH, CCI, who rendered a written statement detailing his notification about Mr. ABBASS AL ZUBAIDI, his observations and the actions taken by medical personnel. (See Sworn Statement for details)

About 2146, 9 Oct 06, SA **b(6), b(7)(C)** interviewed MAJ **b(6), b(7)(C)** who rendered a written statement detailing the notification about Mr. ABBASS AL ZUBAIDI, what she observed upon arrival to the SHU and the actions taken by medical personnel. SA **b(6), b(7)(C)** obtained additional medical records from MAJ **b(6), b(7)(C)** which included medical notes from CPT **b(6), b(7)(C)** (See Sworn Statement and Medical Records for details)

About 2206, 9 Oct 06, SA **b(6), b(7)(C)** interviewed SGT **b(6), b(7)(C)** Bravo Battery (B BAT), 1/142nd Field Artillery (FA), CCI, who rendered a written statement detailing the notification concerning Mr. ABBASS AL ZUBAIDI and the actions taken by medical personnel. (See Sworn Statement for details).

About 1350, 10 Oct 06, the preliminary death certificate pertaining to Mr. ABBASS AL ZUBAIDI was forwarded to this office by the 10th MP BN (CID), CVI. (See Preliminary Death Certificate for details)

About 2045, 18 Oct 06, SA **b(6), b(7)(C)** interviewed SPC **b(6), b(7)(C)** 329TH Medical Company (MED CO), CCI, who stated trauma had been notified and upon arriving to the scene, she observed CPT **b(6), b(7)(C)** already performing CPR as well as numerous other medical personnel already on scene. SPC **b(6), b(7)(C)** stated she waited outside until the body was brought out to be transported.

About 2045, 19 Oct 06, SA **b(6), b(7)(C)** interviewed PFC **b(6), b(7)(C)** 21ST CSH, CCI, who stated she had responded with SPC **b(6), b(7)(C)** to the SHU, Camp Remembrance II Internment Facility, CCI. PFC **b(6), b(7)(C)** stated there were already four doctors working on Mr. ABBASS AL ZUBAIDI and that she stayed outside to avoid getting in the way.

Detainee Mental Health Screen

ISN

DATE

Everyone here is asked these questions. They are used to determine if you need to be seen for treatment and will not affect whether or not you stay here.

Current Concerns

- | | | |
|---|-----|----|
| 1. Are you currently being treated for a psychological problem?
(if the answer is NO, skip question 2) | Yes | No |
| 2. Are you presently taking a prescribed medication for a mental illness or psychological problem? | Yes | No |
| 3. Do you have psychological problems right now that need treatment? | Yes | No |
| 4. Do you presently have thoughts of killing yourself? | Yes | No |

Past Concerns

- | | | |
|--|-----|----|
| 5. Have you ever been treated for a psychological problem in the past?
(If the answer is NO, skip question 6) | Yes | No |
| 6. Have you ever been a patient in a psychological hospital? | Yes | No |
| 7. Have you ever been treated for illegal drug abuse? | Yes | No |
| 8. Have you ever tried to kill yourself? | Yes | No |

Open-Ended (if time permits, vary as appropriate)

9. Do you have any other psychological concerns that you want to mention?

OBSERVATION

- | | | |
|--|-----|----|
| 0 General appearance unusual for setting | Yes | No |
| 0 Behavior unusual for setting | Yes | No |
| 0 Auditory or visual hallucinations reported or apparent | Yes | No |
| 0 Appears anxious | Yes | No |
| 0 Appears depressed | Yes | No |
| 0 Aggressive | Yes | No |
| 0 Behavior inconsistent with reported complaints | Yes | No |
| 0 Physical trauma evident during interview (wound, bruise, etc.) | Yes | No |

DISPOSITION

- ____ If detainee answers no to all of the above questions, no psych consult is needed.
____ If detainee answers yes to questions 1, 2, 3 or 4 contact mental health team ASAP.
____ If detainee answers yes to questions 5, 6, 7 or 8 fill out consult form for psych.
____ If observations are inconsistent with responses

Physical Cond: TUBERCULOSIS

Mental State: ALERT

Education: NONE

REMARKS

Remarks: (1). SCREENER'S COMMENTS

BASED UPON THE STRENGTH OF THE PACKET AND RESPONSES OF DETAINEE, HE IS ASSESSED AS 1C, AND IS RECOMMENDED NFE. DETAINEE HAS KNOWLEDGE OF INFORMATION THAT MEETS NO PIRS. THE DETAINEE IS A 64 YEAR OLD SUNNI, FROM BUHRIZ, IZ. DETAINEE IS FROM THE AL ZUBAYDI TRIBE. RECOMMEND TRANSFER TO THE MAGISTRATE CELL FOR REVIEW.

(2). KNOWLEDGE ABILITY: DETAINEE KNOWS WHERE TO GET EXPLOSIVES AND POSSIBLY A FEW INSURGENTS.

(3). CIRCUMSTANCES OF CAPTURE: ON 22 SEPTEMBER 2006, CF CONDUCTED A TARGET RAID ON HIS HOME WHERE A SUSPECTED CACHE WAS LOCATED.

(4). EVIDENTIARY SUPPORT: THERE ARE TWO SWORN STATEMENTS FROM THE CAPTURING UNIT, ONE SIR, PHOTOGRAPHS OF THE EVIDENCE FOUND WITH DETAINEE.

(5). COOPERATION: THE DETAINEE WAS COOPERATIVE WITH BIOGRAPHICAL INFORMATION. THE DETAINEE WAS UNCOOPERATIVE WITH QUESTIONS PERTAINING TO INSURGENTS. THE DETAINEE STATED HE DOES NOT KNOW WHERE THE GASMASKS, KEVLAR, GAS CANISTERS, ETC. CAME FROM. WHEN SUGGESTED THAT HIS SONS COULD OF BROUGHT THEM, THE DETAINEE SAID IT WAS IMPOSSIBLE, AND HE KNOWS HIS CHILDREN AND HOUSE.

(6). ASSESSMENT: THE DETAINEE DOES NOT KNOW OF MANY INSURGENTS IN BUHRIZ, OR IN DIYALA IN GENERAL. THE DETAINEE STATED HE HAD NEVER RECEIVED AN EDUCATION. THE DETAINEE DID NOT SHOW DECEPTION THROUGHOUT THE INTERVIEW CONCERNING HIS EDUCATION. THE DETAINEE HAD TROUBLE UNDERSTANDING QUESTIONS, EVEN WHEN SIMPLIFIED. THE DETAINEE IS OF VERY LITTLE INTELLIGENCE. THE DETAINEE IS EXTREMELY OLD AND SOMEWHAT SENILE, NOT REMEMBERING WHAT DATES HE JOINED THE MILITARY.

(7). INDICATORS FOR APPROACH: THE DETAINEE HAS 15 CHILDREN AND ONE WIFE (LOVE OF FAMILY).

(8). CLAIM ABUSE: DETAINEE DID NOT CLAIM ABUSE

(9). REVIEWERS COMMENTS:

SWORN STATEMENT

For use of this form, see AR 190-45; the proponent agency is Office of The Deputy Chief of Staff for Personnel.

LOCATION 76 TH MP DET, Camp Cropper, Iraq	DATE 8 Oct 2006	TIME 1212	FILE NUMBER
LAST NAME FIRST NAME MIDDLE NAME b(6), b(7)(C)	SOCIAL SECURITY NUMBER b(6), b(7)(C)		GRADE/STATUS E-4/ARNG
ORGANIZATION OR ADDRESS Bravo Company 1-148 TH Infantry, Camp Cropper, Baghdad, Iraq			

b(6), b(7)(C) I, b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

At 0230 hours on 08 Oct 06, I SPC b(6), b(7)(C) was conducting a cell check of Detainee # b(6), b(7)(C) Cell #74, who was unresponsive. During the previous cell checks at 0203 hours and 0215 hours, Detainee # b(6), b(7)(C) was observed sitting on his bunk reading his Koran. I reported to Bravo Block NCO SGT b(6), b(7)(C) that Detainee # b(6), b(7)(C) Cell #74 was unresponsive to my 0230 hours cell check. SGT b(6), b(7)(C) reported to SSG b(6), b(7)(C) that Bravo Block had a detainee that was unresponsive. SSG b(6), b(7)(C) entered Bravo Block to assist in this incident. SGT b(6), b(7)(C) entered Cell #74 to check on Detainee # b(6), b(7)(C). SGT b(6), b(7)(C) checked Detainee b(6), b(7)(C) pulse and said no pulse was found. SSG b(6), b(7)(C) called medical because Detainee b(6), b(7)(C) was unresponsive. At 0246 hours, 08 Oct 06, medical had arrived on the Bravo Block to check Detainee b(6), b(7)(C). Medical requested trauma team. Trauma team arrived on Bravo Block at 0245 hours. b(6), b(7)(C)

Q: SSG b(6), b(7)(C)

A: b(6), b(7)(C)

Q: Did you provide the above statement?

A: Yes. b(6), b(7)(C)

Q: Where is Bravo Block located?

A: Camp Cropper, Iraq. Special Housing Unit b(6), b(7)(C)

Q: How many checks are conducted per hour?

A: 4 checks per hour. b(6), b(7)(C)

Q: Did you observe the detainee sitting on his bunk?

A: Yes b(6), b(7)(C)

Q: When conducting checks, how do you get the detainees attention?

A: We open the observation port and use a latch hook to tap against the portal. b(6), b(7)(C)

Q: How many times do you try to get the detainees attention before calling for support?

A: I tapped four times, loudly. The detainee was unresponsive so I got the Shift NCO, SGT b(6), b(7)(C) b(6), b(7)(C)

Q: Who do you notify when a detainee does not respond when called?

A: SGT b(6), b(7)(C) who was the NCO of Bravo Block. b(6), b(7)(C)

Q: When you observed the detainee, how was his body positioned?

A: The feet were towards the door and the head towards the outer wall. His left arm was over the top of his head, covering his eyes and his right arm was parallel to the side of his body. b(6), b(7)(C)

Q: Did you go into the detainee's cell?

A: No. b(6), b(7)(C)

Q: How were you able to see the detainee and how he was positioned?

A: By opening the portal. b(6), b(7)(C)

Q: Did the detainee appear to have been struggling or grabbing at any objects?

A: No. He appeared to be asleep. b(6), b(7)(C)

Q: Did the detainee have any objects in his hands when you observed him?

A: No. None at all. b(6), b(7)(C)

Q: Who went into the detainee's cell?

A: SGT b(6), b(7)(C) and SGT b(6), b(7)(C) b(6), b(7)(C)

Q: Did you observe anyone touch the detainee's body?

A: SGT b(6), b(7)(C) checked the pulse on the detainees radial pulse on his wrist. b(6), b(7)(C)

Q: When medical arrived, did any of the guard force assist them in resuscitative efforts or moving the body?

EXHIBIT	INITIALS OF PERSON MAKING STATEMENT b(6), b(7)(C)	PAGE 1 OF 2 PAGES
---------	--	-------------------

ADDITIONAL PAGES MUST CONTAIN THE HEADING "STATEMENT OF ____ TAKEN AT ____ DATED ____ CONTINUED."
THE BOTTOM OF EACH ADDITIONAL PAGE MUST BEAR THE INITIALS OF THE PERSON MAKING THE STATEMENT AND BE
INITIALED AS "PAGE ____ OF ____ PAGES." WHEN ADDITIONAL PAGES ARE UTILIZED, THE BACK OF PAGE 1 WILL BE
LINED OUT, AND THE STATEMENT WILL BE CONCLUDED ON THE REVERSE SIDE OF THE LAST PAGE OF THE STATEMENT.

STATEMENT OF b(6), b(7)(C)

TAKEN AT 76TH MP DET, Camp Cropper, Iraq DATED 8 October

2006 CONTINUED:

STATEMENT (Continued)

A: No. b(6), b(7)(C)

Q: How long had the detainee been housed at the Special Housing Unit, Bravo Block, Camp Redemption II?

A: I'm not sure. b(6), b(7)(C)

Q: Had the detainee been here more than a week?

A: I'm not sure. I think he's been here more than a couple of days. b(6), b(7)(C)

Q: Did you know or had you been advised if the detainee had any prior existing medical conditions besides his tuberculosis?

A: No. b(6), b(7)(C)

Q: Did the detainee complain of any type of chest or head pains prior to you reporting him to be unresponsive?

A: No. He didn't complain of any pains to me. b(6), b(7)(C)

Q: Had the detainee ever reported to you that he had any aches or pains in his chest?

A: No. b(6), b(7)(C)

Q: Had the prior shift notified you or anyone else on the guard force if the detainee was having any medical issues?

A: No. b(6), b(7)(C)

Q: Did you observe any trauma on the detainee's body?

A: No. b(6), b(7)(C)

Q: Is there someone on the floor the entire time?

A: Usually we'll split up the block. One soldier will do half the block and the other will do the other half of the block. Someone is usually in the SHU all the time. b(6), b(7)(C)

Q: Do you wish to add anything else to your statement?

A: No.///End of Statement/// b(6), b(7)(C)

AFFIDAVIT

I, b(6), b(7)(C), HAVE READ OR HAVE HAD READ TO ME THIS STATEMENT WHICH BEGINS ON PAGE 1 AND ENDS ON PAGE 2. I FULLY UNDERSTAND THE CONTENTS OF THE ENTIRE STATEMENT MADE BY ME. THE STATEMENT IS TRUE. I HAVE INITIALED ALL CORRECTIONS AND HAVE INITIALED THE BOTTOM OF EACH PAGE CONTAINING THE STATEMENT. I HAVE MADE THIS STATEMENT FREELY WITHOUT HOPE OF BENEFIT OR REWARD, WITHOUT THREAT OF PUNISHMENT, AND WITHOUT COERCION, UNLAWFUL INFLUENCE, OR UNLAWFUL INDUCEMENT.

LOCATION 76 TH MP DET, Camp Cropper, Iraq	DATE 8 Oct 2006	TIME 12 24	FILE NUMBER b(6), b(7)(C)
LAST NAME FIRST NAME MIDDLE NAME b(6), b(7)(C)	SOCIAL SECURITY NUMBER b(6), b(7)(C)	GRADE/STATUS E-4/ARNG	

ORGANIZATION OR ADDRESS
Bravo Company 1-148TH Infantry, Camp Cropper, Baghdad, Iraq

b(6), b(7)(C), I, b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

At 0230, 8 Oct 06, SPC b(6), b(7)(C) and myself were conducting routine checks when I observed SPC b(6), b(7)(C) having what seemed to be trouble getting a response from a detainee. I continued on and finished my checks as I noticed SG b(6), b(7)(C) and SPC b(6), b(7)(C) were at the same cell receiving no response. SGT b(6), b(7)(C) then came in and also attempted to get a response, as SGT b(6), b(7)(C) called up to SSG b(6), b(7)(C) the unresponsive detainee. SSG b(6), b(7)(C) rushed in and called medical. SGT b(6), b(7)(C) from Alpha Block came over and SGT b(6), b(7)(C) opened the cell as SGT b(6), b(7)(C) went in and checked for a pulse. Shortly after SGT b(6), b(7)(C) checked the detainees pulse, medical arrived on site and I got out of the way for medical to do their thing. I continued with my regular checks and did not notice anything after that.

Q: SA b(6), b(7)(C)

A: SPC b(6), b(7)(C)

Q: Did you provide the above statement?

A: Yes. b(6), b(7)(C)

Q: Where is Bravo Block located?

A: Camp Cropper, Camp Remembrance II, Special Housing Unit. b(6), b(7)(C)

Q: How many checks are conducted per hour?

A: 4. b(6), b(7)(C)

Q: When conducting checks, how do you get the detainees attention?

A: First we knock on the door but sometimes they don't like to acknowledge you so sometimes kicking the door. b(6), b(7)(C)

Q: How many times do you try to get the detainees attention before calling for support?

A: It depends. If they're not responding after yelling a couple of times b(6), b(7)(C)

Q: Who do you notify when a detainee does not respond when called?

A: I would notify higher, SGT b(6), b(7)(C) or the block NCO. b(6), b(7)(C)

Q: Did you observe the detainee prior to anyone entering his cell?

A: No. b(6), b(7)(C)

Q: Did you go inside the detainee's cell?

A: no. b(6), b(7)(C)

Q: Who went into the detainee's cell?

A: SGT b(6), b(7)(C) b(6), b(7)(C)

Q: Did you observe anyone touch the detainee's body?

A: No. b(6), b(7)(C)

Q: When medical arrived, did any of the guard force assist them in resuscitative efforts or moving the body?

A: I didn't notice. b(6), b(7)(C)

Q: When the medical staff positioned the detainee outside his cell, did you observe any type of trauma on the detainee?

A: No. b(6), b(7)(C)

Q: How long had the detainee been housed at the Special Housing Unit, Bravo Block, Camp Redemption II?

A: Not exactly. b(6), b(7)(C)

Q: Did you know or had you been advised if the detainee had any prior existing medical conditions besides his tuberculosis?

A: No. b(6), b(7)(C)

Q: Did the detainee complain of any type of chest or head pains prior to you reporting him to be unresponsive?

A: Not that I was aware of. b(6), b(7)(C)

SWORN STATEMENT

For use of this form, see AR 190-45; the proponent agency is Office of The Deputy Chief of Staff for Personnel.

LOCATION 76 TH MP DET, Camp Cropper, Iraq	DATE 8 Oct 2006	TIME 1231	FILE NUMBER
LAST NAME FIRST NAME MIDDLE NAME b(6), b(7)(C)	SOCIAL SECURITY NUMBER b(6), b(7)(C)	GRADE/STATUS E-6/ARNG	
ORGANIZATION OR ADDRESS Bravo Company 1-148 TH Infantry, Camp Cropper, Baghdad, Iraq			
<p>b(6), b(7)(C), b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:</p> <p>At 0231, 8 Oct 06, while conducting operations as shift leader for the Special Housing Unit on Camp Cropper, I was notified by SGT b(6), b(7)(C) via iCom, that detainee b(6), b(7)(C) in cell #74, was unresponsive during his 0230 cell check. I immediately ran to cell block bravo where I witnessed SGT b(6), b(7)(C), SGT b(6), b(7)(C) and SGT b(6), b(7)(C) trying to attain a response and a pulse. After observing for a few seconds, I ran back to the Command Post to call Detainee Operations and have them dispatch a medical team as the situation looked grim. Once the call was made, I proceeded back to Bravo Block to see if there was any change to the situation, there was none. I report that I witnessed the detainee lying on his back with his feet towards the door, as is the protocol, and in a seemingly restful, uncontrorted manner. The detainee's eyes were shut and his cell seemed to be orderly. At 0236, medical arrived and began taking there required actions. I was instructed by MAJ b(6), b(7)(C) to contact the trauma unit and did so at the Command Post. It was at this time that my fellow guards and I remained at a distance to allow the medical team ample room to work. At 0245, the trauma team arrived and assisted the already present medical team and at 0251 we were notified that the detainee was pronounced dead. My staff and I continued normal operations within the block and assisted the MP's which were on site at 0300 by briefing them on the events that took place. At 0404, CID arrived to investigate and at 0545 the body of detainee b(6), b(7)(C) was transported offsite by SFC b(6), b(7)(C) b(6), b(7)(C).</p> <p>Q: SA b(6), b(7)(C)</p> <p>A: SSG b(6), b(7)(C)</p> <p>Q: Did you provide the above statement?</p> <p>A: Yes, b(6), b(7)(C)</p> <p>Q: Where is Bravo Block located?</p> <p>A: Camp Remembrance II, Special Housing Unit b(6), b(7)(C)</p> <p>Q: How many checks are conducted per hour?</p> <p>A: 4 per hour, every 15 minutes b(6), b(7)(C)</p> <p>Q: When conducting checks, how do you get the detainees attention?</p> <p>A: Usually they use the latch to clank on the door. If not, knock on the cell. Yell if they need to. b(6), b(7)(C)</p> <p>Q: How many times do you try to get the detainees attention before calling for support?</p> <p>A: Maybe about 30 seconds. Usually they respond b(6), b(7)(C)</p> <p>Q: Who do you notify when a detainee does not respond when called?</p> <p>A: Detainee Operations b(6), b(7)(C)</p> <p>Q: Did you observe the detainee prior to anyone entering his cell?</p> <p>A: I didn't. SGT b(6), b(7)(C) SGT b(6), b(7)(C) and SGT b(6), b(7)(C) were at the door. b(6), b(7)(C)</p> <p>Q: Did you go inside the detainee's cell?</p> <p>A: I just went into the doorway. b(6), b(7)(C)</p> <p>Q: Who went into the detainee's cell?</p> <p>A: SGT b(6), b(7)(C) SGT b(6), b(7)(C) and SGT b(6), b(7)(C) b(6), b(7)(C) b(6), b(7)(C)</p> <p>Q: Did you observe the detainee lying on his mattress?</p> <p>A: Yes b(6), b(7)(C)</p> <p>Q: How was the detainee's body positioned?</p> <p>A: Lying on his back, feet closest to the door, seemingly restful position, eyes closed. One hand was resting on his chest and the other was palm up by his head. I'm not sure which hand was where. b(6), b(7)(C)</p> <p>Q: Did you observe anyone touch the detainee's body?</p> <p>A: The only time I did was when they were checking for a pulse and besides medical. b(6), b(7)(C)</p>

STATEMENT (Continued)

Q: Did you touch the detainee's body?

A: No b(6), b(7)(C)

Q: Did you observe any trauma on the detainee's body while in his cell?

A: No b(6), b(7)(C)

Q: Did you notice any bodily fluids or any fluids around the detainee's body while in his cell?

A: No. The only fluid I noticed was when they removed him. There was some on the imprint on his mattress where his buttocks rested. b(6), b(7)(C)

Q: Did you notice if the detainee had tried to grab anything or was clenching his fists?

A: No b(6), b(7)(C)

Q: When medical arrived, did any of the guard force assist them in resuscitative efforts or moving the body?

A: No b(6), b(7)(C)

Q: When the medical staff positioned the detainee outside his cell, did you observe any type of trauma on the detainee?

A: No b(6), b(7)(C)

Q: How long had the detainee been housed at the Special Housing Unit, Bravo Block, Camp Redemption II?

A: I think it was since the third or fourth of Oct 06. I'm not sure. b(6), b(7)(C)

Q: Did you know or had you been advised if the detainee had any prior existing medical conditions besides his tuberculosis?

A: No b(6), b(7)(C)

Q: Did the detainee complain of any type of chest or head pains prior to you reporting him to be unresponsive?

A: Not that I'm aware of. b(6), b(7)(C)

Q: Had the detainee ever reported to you that he had any aches or pains in his chest?

A: No b(6), b(7)(C)

Q: Had the prior shift notified you or anyone else on the guard force if the detainee was having any medical issues?

A: No b(6), b(7)(C)

Q: Do you wish to add anything else to your statement?

A: No.///End of Statement/// b(6), b(7)(C)

SWORN STATEMENT

For use of this form, see AR 190-45; the proponent agency is Office of The Deputy Chief of Staff for Personnel.

LOCATION 76 TH MP DET, Camp Cropper, Iraq	DATE 8 Oct 2006	TIME 1249	FILE NUMBER b(6), b(7)(C)
LAST NAME, FIRST NAME, MIDDLE NAME b(6), b(7)(C)	SOCIAL SECURITY NUMBER b(6), b(7)(C)		GRADE/STATUS E-5/ARNG
ORGANIZATION OR ADDRESS Bravo Company 1-148 TH Infantry, Camp Cropper, Baghdad, Iraq			

I, **b(6), b(7)(C)**, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

At 0230, 8 Oct 06, I, SGT **b(6), b(7)(C)** Bravo Block NCO, was informed by SPC **b(6), b(7)(C)** that detainee **b(6), b(7)(C)** was unresponsive to voice commands during a standard fifteen minute check. I, SGT **b(6), b(7)(C)** then approached detainee **b(6), b(7)(C)** cell #74, and began to knock on the cell door. I then observed detainee **b(6), b(7)(C)** chest and could not discern a rise and fall. I then notified CP via iCom radio that it would be necessary to enter detainee **b(6), b(7)(C)** cell. I, SGT **b(6), b(7)(C)** SGT **b(6), b(7)(C)** and SGT **b(6), b(7)(C)** entered the detainee **b(6), b(7)(C)** cell. SGT **b(6), b(7)(C)** said that he could not find a pulse. I, SGT **b(6), b(7)(C)** and SGT **b(6), b(7)(C)** exited the detainee **b(6), b(7)(C)** cell, leaving detainee **b(6), b(7)(C)** lie as found. At or about 0236, MAJ **b(6), b(7)(C)** CPT **b(6), b(7)(C)** SGT **b(6), b(7)(C)** and SPC **b(6), b(7)(C)** arrived on Bravo Block, moved the detainee **b(6), b(7)(C)** to the floor of the cell and then to the floor outside of cell #74 initiating CPR on the detainee. At 0245, I, SGT **b(6), b(7)(C)** observed CPT **b(6), b(7)(C)** CPT **b(6), b(7)(C)** and trauma arrive on Bravo Block. At 0251, detainee **b(6), b(7)(C)** was pronounced dead by CPT **b(6), b(7)(C)**.

Q: SAb **b(6), b(7)(C)**

A: SPC **b(6), b(7)(C)**

Q: Did you provide the above statement?

A: Yes.

Q: Where is Bravo Block located?

A: Camp Remembrance II, Special Housing Unit **b(6), b(7)(C)**

Q: How many checks are conducted per hour?

A: 4 checks every quarter hour. **b(6), b(7)(C)**

Q: When conducting checks, how do you get the detainees attention?

A: Depends. If they are sleeping we rap on the door with a latch or kick the bottom of the cell door to wake them up. **b(6), b(7)(C)**

Q: How many times do you try to get the detainees attention before calling for support?

A: If I can't get a rise from them then I will call the CP as we may have to enter the cell to find out what's going on. **b(6), b(7)(C)**

Q: Who do you notify when a detainee does not respond when called?

A: SSG **b(6), b(7)(C)** the shift leader. **b(6), b(7)(C)**

Q: Did you observe the detainee prior to anyone entering his cell?

A: Yes. I couldn't see the rise or fall of his chest, that's when I contacted the CP. **b(6), b(7)(C)**

Q: Did you go inside the detainee's cell?

A: Yes **b(6), b(7)(C)**

Q: Who else went into the detainee's cell?

A: SGT **b(6), b(7)(C)** and SGT **b(6), b(7)(C)** **b(6), b(7)(C)**

Q: How was the detainee's body positioned?

A: He was on his back, his right hand was in a semi fist on his chest and his left hand bent by his head. **b(6), b(7)(C)**

Q: Did you observe anyone touch the detainee's body?

A: SGT **b(6), b(7)(C)** took a pulse. **b(6), b(7)(C)**

Q: Did you touch the detainee's body?

A: No. **b(6), b(7)(C)**

Q: Did you observe any trauma on the detainee's body while in his cell?

A: No **b(6), b(7)(C)**

Q: Did you notice any bodily fluids or any fluids around the detainee's body while in his cell?

A: No. **b(6), b(7)(C)**

STATEMENT (Continued)

Q: Did you notice if the detainee had tried to grab anything or was clenching his fists?

A: No, he looked relaxed. **b(6), b(7)(C)**

Q: When medical arrived, did any of the guard force assist them in resuscitative efforts or moving the body?

A: I think SGT **b(6), b(7)(C)** was holding an IV bag **b(6), b(7)(C)**

Q: When the medical staff positioned the detainee outside his cell, did you observe any type of trauma on the detainee?

A: No. **b(6), b(7)(C)**

Q: How long had the detainee been housed at the Special Housing Unit, Bravo Block, Camp Redemption II?

A: I couldn't answer that. You would have to check the DMS **b(6), b(7)(C)**

Q: Did you know or had you been advised if the detainee had any prior existing medical conditions besides his tuberculosis?

A: No. **b(6), b(7)(C)**

Q: Did the detainee complain of any type of chest or head pains prior to you reporting him to be unresponsive?

A: No. **b(6), b(7)(C)**

Q: Had the detainee ever reported to you that he had any aches or pains in his chest?

A: No. **b(6), b(7)(C)**

Q: Had the prior shift notified you or anyone else on the guard force if the detainee was having any medical issues?

A: Besides the TB no. **b(6), b(7)(C)**

Q: Do you wish to add anything else to your statement?

A: No.///End of Statement/// **b(6), b(7)(C)**

AFFIDAVIT

b(6), b(7)(C) I, b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:
 On Sunday, 8 Oct 06, approximately 0233, while performing my duties as NCOIC at the Detainee Medical Center, we received a call from the Tactical Operations Center that a detainee at the SHU was not breathing and unresponsive. SPC b(6), b(7)(C) and SGT b(6), b(7)(C) along with CPT b(6), b(7)(C) and MAJ b(6), b(7)(C) went to the SHU. They responded to the call and phoned me and stated that the detainee was not breathing with no heart beat. I then left with CPT b(6), b(7)(C) and we left with the crash cart to the SHU. When I arrived to the scene, SPC b(6), b(7)(C) was performing CPR and CPT b(6), b(7)(C) was preparing to insert an ET tube for proper airway for the detainee. I then assisted by checking for a pulse. b(6), b(7)(C)
 Q: SA b(6), b(7)(C)
 A: CPL b(6), b(7)(C)
 Q: Did you provide the above statement?
 A: Yes b(6), b(7)(C)
 Q: Was the detainee in his cell upon your arrival?
 A: No. b(6), b(7)(C)
 Q: Where was he?
 A: He was on the floor in the corridor of the SHU. b(6), b(7)(C)
 Q: Had any of the guards indicated if they had begun to take any resuscitative action?
 A: I don't know. b(6), b(7)(C)
 Q: Did you observe any trauma on the detainee?
 A: I didn't observe any marks. b(6), b(7)(C)
 Q: Do you know if any drugs were used?
 A: Epinephrine and Atropine and Sodium Bicarbonate b(6), b(7)(C)
 Q: Do you recall how much of each was used was used?
 A: I don't know as I was checking his pulse and assessing other things b(6), b(7)(C)
 Q: What is an ET?
 A: Endotracheal tube. b(6), b(7)(C)
 Q: Had the detainee ever had a pulse when you arrived and assessed him to the point of discontinuing resuscitative efforts?
 A: He did not have a pulse from the beginning to the end b(6), b(7)(C)
 Q: Did you perform any other actions besides looking for a pulse?
 A: No. b(6), b(7)(C)
 Q: Do you recall how long CPR and rescue breathing had been used on the detainee?
 A: Maybe 10-12 minutes. b(6), b(7)(C)
 Q: Did the tuberculosis have any role in the death of the detainee?
 A: Based on my opinion I do not think so. b(6), b(7)(C)
 Q: Did the medication the detainee was taking for his tuberculosis have any effect in the death of this detainee?
 A: No. b(6), b(7)(C)
 Q: Do you remember if you ever had this detainee complain about any symptoms of chest pain prior to this incident?
 A: No. b(6), b(7)(C)
 Q: Do you wish to add anything else to your statement?
 A: No.///End of Statement/// b(6), b(7)(C)

SWORN STATEMENT

For use of this form, see AR 190-45; the proponent agency is ODCSOPS

LOCATION 76TH MP DET (CID), CAMP CROPPER, IRAQ	DATE 10-08-2006	TIME 1921	FILE NUMBER
LAST NAME FIRST NAME MIDDLE NAME b(6), b(7)(C)	SOCIAL SECURITY NUMBER b(6), b(7)(C)	GRADE/STATUS E-4/RA	
ORGANIZATION OR ADDRESS 21ST Combat Support Hospital, Camp Cropper, Iraq			

b(6), b(7)(C) WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

Approx. 0230, 8 Oct 06, a phone call was received at the DMC from level 5 that a detainee was found unresponsive and not breathing. Immediately MAJ b(6), b(7)(C) CPT b(6), b(7)(C) SGT b(6), b(7)(C) and SPC b(6), b(7)(C) grabbed the necessary equipment and headed for the scene. Approx. 5 minutes later I received a phone call from MAJ b(6), b(7)(C) the patient was without breath and pulse. I proceeded to ask if trauma needed to be called she instructed that they were already on the way. I then proceeded to ask if she needed meds. She replied yes Epi and Atropine. I then passed the phone off to CPL b(6), b(7)(C) who just entered the room and retrieve the requested items. After retrieving the meds CPL b(6), b(7)(C) had already finished the phone call and instructed me to take the initial doses of meds to the scene while he and CPT b(6), b(7)(C) brought the crash cart to the scene. I ran to the scene, meds in hand, and upon arrival SPC b(6), b(7)(C) was performing CPR while CPT b(6), b(7)(C) and MAJ b(6), b(7)(C) performed ventilations and were assessing the patient. MAJ b(6), b(7)(C) proceeded to instruct me and SGT b(6), b(7)(C) to administer the Epi and Atropine. He first administered the Epi, then I proceeded to administer the Atropine. CPT b(6), b(7)(C) and CPL b(6), b(7)(C) arrived on scene with crash cart along with trauma and CPT b(6), b(7)(C) immediately applied the AED. CPR was halted to check for a shockable rhythm. No shock was advised. CPT b(6), b(7)(C) continued CPR and CPT b(6), b(7)(C) proceeded to intubate the patient's airway. While I and MAJ b(6), b(7)(C) assessed the patient's pulse I was further instructed by CPT b(6), b(7)(C) four different times to push 4 more milligrams of Epi. CPR was halted one last time to check for pulse, no pulse was found. CPT b(6), b(7)(C) and CPT b(6), b(7)(C) discussed what further could be done no options were found and patient was declared dead at 0251 hrs.

Q: SA b(6), b(7)(C)

A: SPC b(6), b(7)(C)

Q: Did you provide the above statement?

A: Yes. b(6), b(7)(C)

Q: Was the detainee in his cell upon your arrival?

A: No. b(6), b(7)(C)

Q: Where was he?

A: He was on the floor in the corridor of the SHU b(6), b(7)(C)

Q: Had any of the guards indicated if they had begun to take any resuscitative action?

A: No. When I arrived the doctors and EMTs were already there b(6), b(7)(C)

Q: Did you observe any trauma on the detainee?

A: No. b(6), b(7)(C)

Q: Do you know if any drugs were used?

A: Epinephrine and Atropine and Sodium Bicarbonate b(6), b(7)(C)

Q: Do you recall how much of each was used?

A: 5mg of Epinephrine and 1mg of Atropine. I did not see the Sodium Bicarbonate administered b(6), b(7)(C)

Q: What is an AED

A: Automatic Electronic Defibrillator. b(6), b(7)(C)

Q: What does it do?

A: It analyzes and provides electronic shocks to the heart b(6), b(7)(C)

Q: What does it mean when the AED signals that someone is not shockable?

A: Either there is a pulse that is not able to be shocked or there is no pulse. It is only able to shock on certain rhythms to avoid injuring a person. If someone has an irregular heartbeat and they are shocked it could make it worse. b(6), b(7)(C)

Q: Had the detainee ever had a pulse when you arrived and assessed him to the point of discontinuing resuscitative efforts?

A: He did not have a pulse b(6), b(7)(C)

Q: Did you perform any other actions besides push meds and monitor the pulse?

A: No. b(6), b(7)(C)

Q: Do you recall how long CPR and rescue breathing had been used on the detainee?

A: Maybe 10-12 minutes b(6), b(7)(C)

Q: Did the tuberculosis have any role in the death of the detainee?

A: Based on my opinion I do not think so. b(6), b(7)(C)

Q: Did the medication the detainee was taking for his tuberculosis have any effect in the death of this detainee?

SWORN STATEMENT

For use of this form, see AR 190-45, the proponent agency is Office of The Deputy Chief of Staff for Personnel.

LOCATION 76 TH MP DET, Camp Cropper, Iraq	DATE 9 Oct 2006	TIME 1130	FILE NUMBER
LAST NAME, FIRST NAME, MIDDLE NAME b(6), b(7)(C)	SOCIAL SECURITY NUMBER b(6), b(7)(C)	GRADE/STATUS E-5/ARNG	
ORGANIZATION OR ADDRESS Bravo Company 1-148 TH Infantry, Camp Cropper, Baghdad, Iraq			

b(6), b(7)(C) I, b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:
 Approximately 0230, 8 Oct 06, while in the control point area of the Special Housing Unit, I was apprised of a situation involving an unresponsive detainee. I went into Bravo Block and was informed that cell #74 was unresponsive. I peered into the cell through the door to see b(6), b(7)(C) lying on his bunk not moving. SGT b(6), b(7)(C) and SGT b(6), b(7)(C) with myself then prepared to and entered cell #74 to check on the detainee. No response or pulse was detected of detainee so medical was notified. Once medical was on block, I removed myself from the detainee area so the medical personnel had room to work. I then returned to the control point area to help with the volume of people and reports that needed to be reported. b(6), b(7)(C)
 Q: SA b(6), b(7)(C)
 A: SGT b(6), b(7)(C) b(6), b(7)(C)
 Q: Did you provide the above statement?
 A: Yes b(6), b(7)(C)
 Q: Where is Bravo Block located?
 A: Iraq, Camp Cropper, SHU b(6), b(7)(C)
 Q: How many checks are conducted per hour?
 A: 4 b(6), b(7)(C)
 Q: When conducting checks, how do you get the detainees attention?
 A: Either by tapping on the cell door while looking through the cell door or verbally. b(6), b(7)(C)
 Q: How many times do you try to get the detainees attention before calling for support?
 A: There is usually a response after the first attempt. b(6), b(7)(C)
 Q: Who do you notify when a detainee does not respond when called?
 A: The block NCO then shift leader b(6), b(7)(C)
 Q: Who was the block NCO?
 A: SGT b(6), b(7)(C) b(6), b(7)(C)
 Q: Did you observe the detainee prior to anyone entering his cell?
 A: Yes b(6), b(7)(C)
 Q: Did you go inside the detainee's cell?
 A: Yes b(6), b(7)(C)
 Q: Who went into the detainee's cell?
 A: SGT b(6), b(7)(C) SGT b(6), b(7)(C) and myself b(6), b(7)(C)
 Q: Did you observe the detainee lying on his mattress?
 A: Yes b(6), b(7)(C)
 Q: How was the detainee's body positioned?
 A: Feet towards the cell door on his back b(6), b(7)(C)
 Q: How were his arms positioned?
 A: I believe his right arm was cocked up towards his chest and the other arm was lying off to the side. b(6), b(7)(C)
 Q: Did you observe anyone touch the detainee's body?
 A: SGT b(6), b(7)(C) had tried to get a pulse b(6), b(7)(C)
 Q: Did you touch the detainee's body?
 A: No b(6), b(7)(C)
 Q: Did you observe any trauma on the detainee's body while in his cell?
 A: No b(6), b(7)(C)
 Q: Did you notice any bodily fluids or any fluids around the detainee's body while in his cell?

ORGANIZATION OR ADDRESS21ST Combat Support Hospital, Camp Cropper, IraqI, b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

On Sunday, 8 Oct 06, approximately 0235, we received a call at the DMC from the SHU stating there was a detainee that was unresponsive with no pulse and was not breathing. Myself, SGT b(6), b(7)(C) CPT b(6), b(7)(C) and MAJ b(6), b(7)(C) responded. Upon arrival on the scene, I entered the cell to find an elderly detainee lying on his bed. I checked for responsiveness with no response to verbal or painful stimuli. I checked for a pulse and respirations of which I found neither. At that time, we moved him to the floor where I began chest compressions and CPT b(6), b(7)(C) began respirations with a bag valve mask. SGT b(6), b(7)(C) started IV with normal saline, 18 gauge catheter was used in left AC at which time we moved the detainee to the hallway for better light and more room to work. CPT b(6), b(7)(C) arrived on the scene with Epinephrine, Atropine and an intubation kit at which time CPT b(6), b(7)(C) successfully intubated the detainee. CPT b(6), b(7)(C) ordered EPI and ATROPINE IV push. AED was placed on detainee. After analyzing, there was no shock advised. CPR continued and at 0251, 8 Oct 06, CPR was stopped and the detainee was pronounced dead. All interventions were left in place b(6), b(7)(C)

Q: SA b(6), b(7)(C)A: SPC b(6), b(7)(C)

Q: Did you provide the above statement?

A: Yes, b(6), b(7)(C)

Q: Was the detainee in his cell upon your arrival?

A: Yes, b(6), b(7)(C)

Q: Did you observe any trauma on the detainee while he was in the cell?

A: No, b(6), b(7)(C)

Q: Did you observe any bodily fluid on or around the detainee while he was in the cell?

A: Yes, b(6), b(7)(C)

Q: Had any of the guards indicated if they had begun to take any resuscitative action?

A: They didn't indicate if they did b(6), b(7)(C)

Q: Did you observe any trauma on the detainee when he was placed into the corridor of the SHU?

A: No, b(6), b(7)(C)

Q: Do you recall how much of each drug was used?

A: No, I just know that it was used b(6), b(7)(C)

Q: What do you mean by after analyzing, there was no shocked advised?

A: The AED analyzes for a heart rhythm that is shockable and after it was analyzed, there was no shock advised b(6), b(7)(C)

Q: Had the detainee ever had a pulse when you arrived and he was assessed and to the point of discontinuing resuscitative efforts?

A: He had a very weak pulse at one time b(6), b(7)(C)

Q: Do you recall how long CPR and rescue breathing had been used on the detainee?

A: For about 15 minutes b(6), b(7)(C)

Q: Did the tuberculosis have any role in the death of the detainee?

A: I really could not say b(6), b(7)(C)

Q: Did the medication the detainee was taking have any effect in the death of this detainee?

A: I don't think so b(6), b(7)(C)

Q: Do you remember if you ever had this detainee complain about any symptoms of chest pain prior to this incident?

A: I have never seen the detainee before b(6), b(7)(C)

Q: Do you wish to add anything else to your statement?

LAST NAME, FIRST NAME, MIDDLE NAME ^{b(6), b(7)(C)}	SOCIAL SECURITY NUMBER ^{b(6), b(7)(C)}	GRADE/STATUS O3/RA	
ORGANIZATION OR ADDRESS 21 ST Combat Support Hospital, Camp Cropper, Iraq			
<p>I, ^{b(6), b(7)(C)}, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:</p> <p>On Sunday, 8 Oct 06, approximately 0230, I was visiting the Detainee Medical Clinic in the course of my duties when the clinic personnel were informed that a detainee in the SHU, ISN ^{b(6), b(7)(C)} was found by the guards not breathing and without a pulse. I, with MAJ ^{b(6), b(7)(C)} SGT ^{b(6), b(7)(C)} and SPC ^{b(6), b(7)(C)} went to the SHU and arrived about 0234. In the cell, the detainee was assessed and noted to be apneic (not breathing) and without a carotid pulse. All personnel donned protective equipment (masks and gloves) by this time. The detainee was not responsive on efforts to raise him and was moved to the floor of his cell to facilitate control of his airway and breathing and in case CPR needed to be performed. His airway did not improve with a jaw thrust maneuver. It was also noted on observation of his bed that he had been incontinent of urine. Artificial respiration was provided by myself with a bag-valve mask. No pulse was present and at the direction of MAJ ^{b(6), b(7)(C)} CPR was initiated at about 0237. After 1 minute of CPR, no spontaneous breathing or pulse was noted so bag-valve mask and CPR were continued. The Emergency Room personnel were contacted for additional equipment, support and transport if needed. Due to very limited space and light availability in the room, the decision was made by the team to move the detainee into the corridor. During this time frame a number of events occurred: intravenous access was obtained; CPL ^{b(6), b(7)(C)} brought a crash cart with additional equipment; at about 0245 CPT ^{b(6), b(7)(C)} and PFC ^{b(6), b(7)(C)} arrived from the 21ST CSH ER; the patient was intubated and an endotracheal tube; the position of the tube was verified by auscultation (listening to stethoscope) and an end-tidal ^{b(6), b(7)(C)} CO² monitor at about 0247; an automatic defibrillator was placed but no shock was advised to perform, most likely indicative no heart electrical activity; no pulse or spontaneous breathing were noted at this point; the pupils were fixed and dilated at about 6mm in diameter. In addition, during this time, 2-3 doses of atropine and epinephrine were administered with no improvement in cardiac activity, and pupillary function. Dr. ^{b(6), b(7)(C)} with a consensus, pronounced the detainee dead at approximately 0251, 8 Oct 06. Therefore the SHU was the place of death and no transport to the ER was indicated. A TB mask was placed on the patients face but otherwise he and the medical equipment were left at the scene ^{b(6), b(7)(C)}</p> <p>Q: SA ^{b(6), b(7)(C)}</p> <p>A: CPT ^{b(6), b(7)(C)}</p> <p>Q: Did you provide the above statement?</p> <p>A: Yes ^{b(6), b(7)(C)}</p> <p>Q: Was the detainee in his cell upon your arrival?</p> <p>A: Yes ^{b(6), b(7)(C)}</p> <p>Q: How was he positioned?</p> <p>A: Lying on his bed with his feet towards the door. I believe his left arm was on his chest ^{b(6), b(7)(C)}</p> <p>Q: Did it appear as though the detainee tried to grab anything or his fists were clenched when you entered the room?</p> <p>A: Not that I could tell ^{b(6), b(7)(C)}</p> <p>Q: Had any of the guards indicated if they had begun to take any resuscitative action?</p> <p>A: No ^{b(6), b(7)(C)}</p> <p>Q: Did you observe any trauma on the detainee while in his cell?</p> <p>A: No ^{b(6), b(7)(C)}</p> <p>Q: Did you observe any bodily fluids on or around the detainee's body while in his cell?</p> <p>A: There appeared to be urine under his pelvis but I did not see any blood ^{b(6), b(7)(C)}</p> <p>Q: After placing the detainee in the corridor, did you observe any trauma on the detainee?</p> <p>A: Not that I recall ^{b(6), b(7)(C)}</p> <p>Q: What is the purpose for using Atropine and Epinephrine?</p> <p>A: They are medications used to stimulate cardiac activity ^{b(6), b(7)(C)}</p> <p>Q: Do you recall how much of each was used was used?</p>

STATEMENT OF b(6), b(7)(C) TAKEN AT 76TH MP DET, Camp Cropper, Iraq DATED 9 October 2006
CONTINUED

A: I'm not sure exactly but listening approximately 2 or 3 doses which is typical.

Q: What is the purpose of the automatic defibrillator? b(6), b(7)(C)

A: It's designed to assess if someone has cardiac activity and if there's an irregular heartbeat that can be converted to a regular heartbeat with an electrical charge. b(6), b(7)(C)

Q: Was it ever used?

A: It was used to assess for the rhythm but the AED is used to assess whether a pattern of heartbeat was shockable. It signaled not shockable which either indicated no heartbeat at all or that there was a pulseless heartbeat. b(6), b(7)(C)

Q: Pulseless heartbeat?

A: It means there is cardiac heartbeat but does not move blood. b(6), b(7)(C)

Q: Had the detainee ever had a pulse when your medical team arrived and assessed him to the point of discontinuing resuscitative efforts?

A: There was no pulse upon arrival but about 5 to 7 minutes, it was believed a weak thready carotid pulse was found, about 100 beats a minute, but it was so weak we weren't sure we had one so continued CPR. b(6), b(7)(C)

Q: Do you recall how long CPR and rescue breathing had been used on the detainee?

A: We started about 0236 up until 0251. b(6), b(7)(C)

Q: Did the tuberculosis have any role in the death of the detainee?

A: I don't believe so. It's more of a drawn out process. This was more of a massive cardiac event due to the suddenness of it. There will be no way to know until the autopsy. b(6), b(7)(C)

Q: Did the medication the detainee was taking have any effect in the death of this detainee?

A: I believe it's unlikely. He had only been taking it about four days I know of. If you are going to have a reaction it will happen the first day. b(6), b(7)(C)

Q: Was there any negative reaction the detainee would have had with the use of Atropine and Epinephrine since he was taking medication for tuberculosis?

A: I don't think so. b(6), b(7)(C)

Q: Do you wish to add anything else to your statement?

A: No.///End of Statement/// b(6), b(7)(C)

8. ORGANIZATION OR ADDRESS Task Force 21 Medical APO, AE 09342			

9. MAJ b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

On 08 Oct 2006 at 0233 the DMC (Detainee Medical Center) received a call from the CP at the SHU about a detainee who appeared to be unresponsive and not breathing. The MP's stated that at the 0200 and 0215 checks the detainee appeared well and was reading the Koran. He had no complaints at the time. At the 0230 check the detainee appeared unresponsive and so the CP called the DMC.

~~NOT USED~~
CPT b(6), b(7)(C) SPC b(6), b(7)(C) SGT b(6), b(7)(C) and myself (Maj b(6), b(7)(C)) responded to the SHU immediately. The detainee was in cell #74. On arrival to the cell the detainee was found lying on his back on his mattress and was unresponsive. The detainee had a pool of red fluid between his legs. The detainee appeared dusky and was not breathing. The detainee was placed on the floor in order to perform further medical care. Once placed on the floor the detainee's airway was assessed. He was found to not be breathing and rescue breathing was initiated with a bag valve mask. The detainee did not have a pulse so CPR was initiated. SPC b(6), b(7)(C) began chest compressions. SGT b(6), b(7)(C) placed an IV and started normal saline.

~~NOT USED~~
I spoke with CPT b(6), b(7)(C) in the EMT and stated that we had a detainee who was in cardiopulmonary arrest. He dispatched the trauma team and personally ran down to the SHU with ACLS (Advanced Cardiac Life Support) medications. After speaking with the EMT, I called the DMC and spoke with CPT b(6), b(7)(C) and requested that he bring ACLS medications and resuscitation equipment to the SHU immediately. CPT b(6), b(7)(C) then came to the SHU with the crash cart. I returned to the cell and CPT b(6), b(7)(C) and the team were continuing CPR. SPC b(6), b(7)(C) arrived at the SHU with ACLS medication from the DMC at around 0244 and the first dose of Epinephrine was given through the IV. CPT b(6), b(7)(C) arrived at 0245. At this time the detainee was intubated by CPT b(6), b(7)(C). CPT b(6), b(7)(C) placed the AED on the detainee. The detainee was successfully intubated. The AED stated that the patient did not have a cardiac rhythm which required electric shock. CPR was continued and the patient received a total of 4mg Epinephrine and 2mg Atropine. At 0250 the patient continued to have no pulse and was pronounced dead by CPT b(6), b(7)(C).

Q: SA b(6), b(7)(C)

A: MAJ b(6), b(7)(C)

Q: DID YOU OBSERVE ANY SIGNS OF TRAUMA ON THE DETAINEE?

A: NO b(6), b(7)(C)

Q: HAD THE DETAINEE EVER HAD A PULSE FROM THE FIRST ASSESSMENT TO THE POINT RESUSCITATIVE EFFORTS WERE DISCONTINUED?

A: NO b(6), b(7)(C)

Q: WHAT'S THE PURPOSE FOR USING ATROPINE AND EPINEPHRINE?

A: Standard of care for a patient who is not breathing and has no pulse. b(6), b(7)(C)

Q: WHAT IS AN AED AND WHY IS IT USED?

A: An AED is a device which is placed on a patient's chest and analyzes their heart rhythm. Certain heart rhythms require electric shock. If the AED analyzes one of these rhythms then it will give electric shocks. b(6), b(7)(C)

STATEMENT OF **b(6), b(7)(C)** TAKEN AT **b(6), b(7)(C)** DATED **b(6), b(7)(C)** CCJ 9 Oct 01

9. STATEMENT (Continued)

Q: DID THE TUBERCULOSIS HAVE ANY ROLE IN THE DEATH OF THE DETAINEE?

A: I don't feel that the tuberculosis played a role in the detainee's death, however full determination of the cause of death cannot be determined without an autopsy. **b(6), b(7)(C)**

Q: WOULD THE MEDICATION THE DETAINEE WAS TAKING FOR TUBERCULOSIS HAVE A CAUSE IN HIS DEATH?

A: To my knowledge the medications used to treat tuberculosis ~~should not~~ did not result in the detainee's death. An autopsy will determine the cause of death. **b(6), b(7)(C)**

Q: HAD THE DETAINEE EVER COMPLAINED ABOUT CHEST PAINS OR ACHES PRIOR TO THIS INCIDENT?

A: The detainee was seen by a medical officer every 24 hours while in the SHU. He at no time complained of chest pain. He had no complaints, and denied any history of high blood pressure, heart problems or previous stroke. **b(6), b(7)(C)**

Q: DO YOU WISH TO ADD ANYTHING ELSE TO YOUR STATEMENT?

A: NO. /// END OF STATEMENT // **b(6), b(7)(C)**

ORGANIZATION OR ADDRESSBravo Battery, 1/142ND Field Artillery, Camp Cropper, Iraq

I, b(6), b(7)(C), WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

On Sunday, 8 Oct 06, received a call from the SHU stating "A detainee was not responding or breathing." SPC b(6), b(7)(C) MAJ b(6), b(7)(C) CPT b(6), b(7)(C) and I, SGT b(6), b(7)(C) responded to the SHU. When I arrived, the patient, 303231, had already been moved to the floor by CPT b(6), b(7)(C) and SPC b(6), b(7)(C). CPT b(6), b(7)(C) were establishing an airway. SPC b(6), b(7)(C) was assessing neurological status, assisting with the BVM/airway and checking for a pulse at the carotid. I told the SHU MP'S to grab a CLS bag. I then began to check for a BP. MAJ b(6), b(7)(C) was supervising and assessing the patient. MAJ b(6), b(7)(C) then told SPC b(6), b(7)(C) to "start CPR." SPC b(6), b(7)(C) began chest compressions and CPT b(6), b(7)(C) continued to bag the patient via BVM. I was unsuccessful at the BP by both auscultation and palpation. I verified SPC b(6), b(7)(C) chest compressions with the radial pulse. MAJ b(6), b(7)(C) then ordered the IV. I started the IV with 1000 mL NS 18 catheter 20 gauge tubing left A/C. First attempt at a wide open rate we then moved the patient to the hall. SPC b(6), b(7)(C) arrived with the epinephrine and atropine. MAJ b(6), b(7)(C) ordered Epinephrine 1:10000 via IVP and I administered it. MAJ b(6), b(7)(C) then ordered Atropine 1mg IVP and it was administered by SPC b(6), b(7)(C). CPT b(6), b(7)(C) CPT b(6), b(7)(C) CPL b(6), b(7)(C) and trauma arrived with the crash cart and an AED. PFC b(6), b(7)(C) with them as well. THE AED was applied by CPT b(6), b(7)(C). CPR was stopped, and the rhythm was analyzed as unshockable. CPR was continued by SPC b(6), b(7)(C) while CPT b(6), b(7)(C) intubated. Epinephrine 1:10000 1mg IVP ordered by CPT b(6), b(7)(C) and administered by SPC b(6), b(7)(C). After intubation was verified by auscultation of the epigastrium and lung sounds C&Ex4. CPT b(6), b(7)(C) took over chest compressions. SPC b(6), b(7)(C) bagged the patient with BVM at the rate of 12 BPM. CPT b(6), b(7)(C) retrieved a CO² detector and verified the tube placement by a positive finding. Atropine 1mg IVP ordered by CPT b(6), b(7)(C) and administered by SPC b(6), b(7)(C). Epinephrine 1:10000 1mg ordered by CPT b(6), b(7)(C) and administered by SPC b(6), b(7)(C). An undetermined amount of time elapsed between drug dosages and CPR continued throughout. At 0251 CPT b(6), b(7)(C) pronounced ISN b(6), b(7)(C) dead at the scene.

Q: SA b(6), b(7)(C)

A: SGT b(6), b(7)(C)

Q: Did you provide the above statement?

A: Yes.

Q: Was the detainee in his cell upon your arrival?

A: He was in the cell when I arrived but he had already been placed on the floor when I arrived.

Q: Had any of the guards indicated if they had begun to take any resuscitative action?

A: Not to me.

Q: Did you observe any trauma on the detainee?

A: No.

Q: What is the purpose for using Epinephrine and Atropine?

A: Used to jumpstart the heart.

Q: Do you recall how much of each was used was used?

A: I believe it was two Atropine and five Epinephrine.

Q: What is BVM?

A: Bag Valve Mask.

Q: What is BP?

A: Blood Pressure.

Q: What is IVP?

A: IV push, to push the drugs through the IV.

Q: What is an AED?

STATEMENT OF **b(6), b(7)(C)** TAKEN AT 76TH MP DET, Camp Cropper, Iraq DATED 9 October 2006
 CONTINUED:
 STATEMENT (Continued)

A: Automated External Defibrillator. **b(6), b(7)(C)**

Q: Was it ever used?

A: It wasn't used to shock. It interprets the rhythm to determine if someone can be shocked. **b(6), b(7)(C)**

Q: Had the detainee ever had a pulse when you arrived and assessed him to the point of discontinuing resuscitative efforts?

A: I remember someone saying they felt a weak pulse but I never felt one. **b(6), b(7)(C)**

Q: Do you recall how long CPR and rescue breathing had been used on the detainee?

A: Approximately 15 minutes. **b(6), b(7)(C)**

Q: Did the tuberculosis have any role in the death of the detainee?

A: I don't know. **b(6), b(7)(C)**

Q: Did the medication the detainee was taking have any effect in the death of this detainee?

A: I don't believe so. **b(6), b(7)(C)**

Q: Do you remember if you ever had this detainee complain about any symptoms of chest pain prior to this incident?

A: No. I had never seen the detainee before. **b(6), b(7)(C)**

Q: Do you wish to add anything else to this statement?

A: No.///End of Statement/// **b(6), b(7)(C)**

AFFIDAVIT

I, **b(6), b(7)(C)**, HAVE READ OR HAVE HAD READ TO ME THIS STATEMENT WHICH BEGINS ON PAGE 1 AND ENDS ON PAGE **b(6), b(7)(C)**. I FULLY UNDERSTAND THE CONTENTS OF THE ENTIRE STATEMENT MADE BY ME. THE STATEMENT IS TRUE. I HAVE INITIALED ALL CORRECTIONS AND HAVE INITIALED THE BOTTOM OF EACH PAGE CONTAINING THE STATEMENT. Page 1 of 6 pages

DETAILS:

N= North, S=South, E= East, W=West

B=Base, T=Top, C=Corner

(All measurements are approximate all furniture is upright)

DEATH SCENE EXAMINATION: About 0407, 8 Oct 06, SA **b(6), b(7)(C)** and SA **b(6), b(7)(C)** conducted a death scene examination of the corridor and Cell #TB74 of Bravo Block, Special Housing Unit (SHU), Camp Remembrance II Internment Facility, Camp Cropper, Iraq APO AE 09342 (CCI).

Characteristics of Scene: (Bravo Block Corridor) Bravo Block was located on the East (E) side of the SHU and was a white, gray and yellow in color metal, concrete and glass type construction building utilized as housing for detainees who are segregated due to medical, disciplinary or intelligence issues. The corridor of Bravo Block was approximately 160' in length from N to S by 8' wide from the E wall to the W wall. The ceiling had steel beams running perpendicular of each cell with individual air ducts leading into each cell from the top of the cell. The lights in the corridor were on at the time of the examination of the scene and provided sufficient lighting for the area. There were no windows visible that allowed light into the corridor from outside. The floor appeared level and met the walls on the W and E side. There were two black in color office chairs one by each wall S of the victim. Located on the floor of the corridor of Bravo Block near the E/E of Cell #TB74 was the victim who was covered with a blanket upon arrival. The blanket was removed to obtain measurements and pictures. The victim was lying on his back in an N to S direction with his feet towards N. The victim's arms were lying parallel his body with his palms facing in towards his body and his legs were straight with the toes of his feet pointed out. Attached to the victim's left arm was an intravenous line held in place by several strips of medical tape. There appeared to be the onset of livor mortis on the left side of the victim's body but no visible signs of trauma. The victim's head was turned facing the W wall of the corridor and had a medical mask covering his nose and mouth. The victim appeared to be an elderly male approximately 64 years old, 140 pounds, 5'11" and graying short hair. The victim's eyes were partially open. The victim was wearing the standard issue yellow jumpsuit button up shirt, pants and white t-shirt but did not have any footwear on. The victim's yellow button up shirt was opened and his white t-shirt appeared to be pulled over his chest exposing his midsection and torso. The sleeves of the yellow button up shirt were rolled up exposing the victim's forearms. The pant legs were rolled up as well exposing his calves. The victim was damp around his pelvic region.

Condition of Scene: (Bravo Block Corridor) The interior of the corridor had numerous medical items around the body but appeared clean and well maintained throughout the rest of the corridor. The floor of the corridor was dry and there were no unusual odors noted.

Page 2 of 6 pages

DETAILS:

Characteristics of Scene: (Cell #TB74) The floor appeared level, met all four walls, appeared painted and was yellow in color, metal type construction as were the walls which extend from floor to ceiling. The door to Cell #TB74, which was open at the time of the examination of the scene, appeared to fit the frame of the Entrance/Exit (E/E) and was yellow and black in color metal type construction. The door was approximately 6'11" tall by 2'6" wide and opened outward. On the outside of the door were markings "TB 74" which indicated it was a cell inhabited by a detainee with tuberculosis. There were two openings, one above the other, located in the approximate center of the door and a third opening at the base of the door. Each opening was secured by a chain and locking device and were closed at the time of the examination of the scene. The door was held in place by two hinges on the outside of the cell and could be secured from the outside by a rotating hasp that connected to a ring which a lock could then be placed into. Inside Cell #TB74 is a silver in color metal type construction wash basin located in the SE corner of the room and appeared to be dry. Approximately 5" north of the wash basin against the E wall is a silver in color metal type construction toilet that was placed into the floor of the cell. The toilet appeared to be clean and dry. The toilet appeared to be designed to conform to cultural standards as it had a single opening and two elevated foot holds as the toilet was convex in shape and was embedded into the floor. Against the entire length of the N wall was the bed frame which was yellow in color metal type construction. The bed frame was elevated approximately 3' off the floor from the bottom edge of the frame to the floor. On top of the bed frame was a gray in color canvass type mattress which was against the NE corner of the wall. The mattress did not cover the entire bed frame. On the E end of the mattress, against the E wall, were two blankets stacked one on top of the other and it did not appear as though they had been used. Located against the N wall near the approximate center of the mattress was an inhaler. An orange in color liquid, suspected to be urine, was also on the mattress near the approximate center. Near the W wall where the mattress did not cover the bed frame were a standard issue Koran, a water bottle containing a clear fluid suspected to be water and a body fluids barrier kit that did not appear as though it had been used. On the floor of the cell near the S wall near the approximate center of the room were a sundry of medical items that had been used during the resuscitation of the victim. Under the bed frame was a Combat Life Saver (CLS) bag that was opened and appeared used as well. There was very minimal lighting in Cell #TB74.

Condition of Scene: (Cell #TB74) The interior of Cell #TB74 appeared cluttered as medical supplies had been strewn about during resuscitative efforts. There was an irregular shaped orange in color liquid substance on the mattress the victim slept on suspected to be urine. Both the toilet and wash basin were dry and appeared clean. Other than the medical supplies, the cell appeared clean and well maintained. There were no unusual odors noted.

Environmental Conditions: At the time of the death scene examination the temperature in the corridor and Cell #TB74 of Bravo Block, SHU, Camp Remembrance II Internment Facility, CCI was

DETAILS:

approximately 77 degrees Fahrenheit. It was still dark outside as the sun had not risen but the areas outside and inside were well lit.

Factors Pertinent to Entry/Exit: Access to the corridor could be gained through E/E's on both the N and S ends of the corridor. Access to Cell #TB74 could only be gained through the E/E located on the W wall of the cell. No access could be gained from the window in Cell #TB74 as it was barred over and did not appear to open.

Scene Documentation: Two death scene sketches were prepared by SA [b(6), b(7)(C)]. Photographs of the death scene were exposed using a Nikon CoolPix 5900, digital camera by SA [b(6), b(7)(C)] (See Death Scene Sketches, Photographic Packet and Compact Disc for details)

Search for Latent Impressions: A search for latent impressions was not conducted.

Collection of Crime Scene Evidence: About 0610, 8 Oct 06, SA [b(6), b(7)(C)] collected as evidence one inhaler from the mattress of Cell #TB74. The evidence was collected on an Evidence/Property Custody Document (EPCD); Voucher Number (VN) 0832-06. (See EPCD for details)

Required measurements of the scene: See attached sketches for details.

DETAILS

About 2100, 9 Apr 07, this office received the Final Autopsy Report, Death Certificate and Toxicology Report pertaining to Mr. ABBASS AL ZUBAIDI from Armed Forces Institute of Pathology (AFIP) which identified the cause of death was hypertensive and arteriosclerotic cardiovascular disease and the manner of death was natural. (See Final Autopsy Report, Death Certificate and Toxicology Report)

About 1330, 28 May 07, this office received the digital photographs from AFIP. The digital photographs were reviewed and photograph packet pertaining to the autopsy of Mr. ABBASS AL ZUBAIDI was prepared. (See Photographic Packet) ///LAST ENTRY///

FINAL AUTOPSY EXAMINATION REPORT

Name: (BTB) ABBASS AL-ZUBAIDI,
 Najim Mohammed

Autopsy No.: (b)(6)

ISN: (b)(6)

AFIP No.: (b)(6)

Date of Birth: (BTB) (b)(6) 1942

Rank: Iraqi Civilian Detainee

Date of Death: (b)(6) 2006

Place of Death: Camp Cropper, Iraq

Date/Time of Autopsy: 15 OCT 2006 @ 1000

Place of Autopsy: BIAP Mortuary,

Date of Report: 19 JAN 2007

Baghdad, Iraq

Circumstances of Death: This 64-year-old Iraqi male was a detainee at Camp Cropper, Iraq and undergoing treatment for tuberculosis. He had no other known medical problems. He was found unresponsive, and although ACLS protocol resuscitation was initiated, he expired.

Authorization for Autopsy: Office of the Armed Forces Medical Examiner, IAW 10 USC 1471.

Identification: Presumptive identification is established by a wrist identification band. A DNA sample is taken for profile purposes if an exemplar becomes available for positive identification.

CAUSE OF DEATH: **HYPERTENSIVE AND ARTERIOSCLEROTIC
 CARDIOVASCULAR DISEASE**

MANNER OF DEATH: **NATURAL**

FOR OFFICIAL USE ONLY

LAW ENFORCEMENT SENSITIVE

FOR OFFICIAL USE ONLY and may be exempt from mandatory disclosure under FOIA. DoD 5400.7R, "DoD Freedom of Information Act Program", DoD Directive 5230.9, "Clearance of DoD Information for Public Release", and DoD Instruction 5230.29, "Security and Policy Review of DoD Information for Public Release" apply.

Page 2 of 8

FINAL AUTOPSY DIAGNOSES

I. Cardiovascular Disease

- A. Coronary artery disease
 - 1. Luminal narrowing (75%) of the left main coronary artery
 - 2. Luminal narrowing (90%) of the re-canalized left anterior descending coronary artery with calcification
 - 3. Luminal narrowing (90%) of the left circumflex coronary artery with calcification
 - 4. Luminal narrowing (>90%) of the right coronary artery with calcification, evidence of plaque rupture and fresh thrombus formation
 - 5. Remote left posterior wall and septal infarction
- B. Cardiomegaly (heart weight 510-grams)
- C. Aortic atherosclerosis with ulceration and calcification
- D. Focal, diffuse glomerulosclerosis and arteriolosclerosis of the kidneys

II. Other Findings

- A. Right renal calculi: Four irregular, green-brown calculi are recovered from the renal pelvis, and range in size from 0.3 to 0.5-centimeters
- B. Prostatic hypertrophy: The prostate is enlarged in size, 5.0 x 3.0 x 3.0-centimeters (no discrete nodules are identified), with associated muscular hypertrophy of the bladder
- C. Bullae of the right and left upper lobes of the lungs
- D. Pulmonary congestion
- E. Mild to moderate pulmonary emphysema
- F. Multiple lung and hilar lymph node sections are negative for mycobacterial infection (see Attachment 1 for complete details)

III. Evidence of Medical Therapy

- A. A properly located endotracheal tube
- B. An intravenous line inserted in the right antecubital fossa
- C. A surgical-type mask covering the nose and mouth
- D. Rib fractures: anterior right 6th rib and anterior left 2nd through 6th ribs

IV. Post-Mortem Changes

- A. Livor is posterior and fixed except in areas exposed to pressure
- B. Rigor has passed (absent) in all extremities
- C. The body is cold to touch

V. Identifying Body Marks

- A 0.7 x 0.5-centimeter brown papule is on the left groin

VI. No evidence of physical abuse

VII. Toxicology

- A. The blood and urine are tested for ethanol and none is found.

- B. The urine is screened for medications and drugs of abuse; Ethambutol (an antimycobacterial medication) is detected in the urine but is not quantitated in the blood.

EXTERNAL EXAMINATION

The body is that of a well-developed, well-nourished appearing, 70 ½-inch and 150-pound (estimated) male whose appearance is consistent with the reported age of 64-years. Lividity is posterior and fixed. Rigor is absent (passed), and the temperature is cold to touch.

The scalp is covered with gray hair in a normal distribution; facial hair consists of a moustache. The irides are hazel, the corneae are cloudy and the pupils are round and equal in diameter. The external auditory canals are patent and free of foreign material. The ears are unremarkable. The nares are patent and the lips are atraumatic. The nose and maxillae are palpably stable. The teeth appear natural and in fair condition.

The neck is straight, and the trachea is midline and mobile. The chest is symmetric. The abdomen is flat. The genitalia are those of a normal adult male. The testes are descended and free of masses. Pubic hair is present in a normal distribution. The buttocks and anus are unremarkable. There is a 0.7 x 0.5-centimeter soft brown papule in the left inguinal fold.

The upper and lower extremities are symmetric and without clubbing or edema. The fingernails are trimmed and intact.

CLOTHING AND PERSONAL EFFECTS

The following clothing items and personal effects are present on the body at the time of autopsy:

- Yellow top
- Yellow pants
- White boxer shorts

MEDICAL INTERVENTION

- A properly located endotracheal tube
- An intravenous line inserted in the right antecubital fossa
- A surgical-type mask covering the nose and mouth
- Rib fractures: anterior right 6th rib and anterior left 2nd through 6th ribs

RADIOGRAPHS

A complete set of postmortem radiographs is obtained and demonstrates the following:

- No fractures of the skull, axial skeleton, or long bones
- No metallic foreign bodies other than medical therapy

EVIDENCE OF INJURY

There is no evidence of recent, significant injury.

INTERNAL EXAMINATION

HEAD AND CENTRAL NERVOUS SYSTEM:

The galeal and subgaleal soft tissues of the scalp are free of injury. The calvarium is intact, as is the dura mater beneath it. Clear cerebrospinal fluid surrounds the 1,240-gram brain, which has unremarkable gyri and sulci. Coronal sections demonstrate sharp demarcation between white and gray matter, without hemorrhage or contusive injury. The ventricles are of normal size. The basal ganglia, brainstem, and cerebellum are free of injury or other abnormalities. There is mild atherosclerosis of the arteries at the base of the brain. There are no skull fractures. The atlanto-occipital joint is stable.

NECK:

By layer-wise dissection, the anterior strap muscles of the neck are homogenous and red-brown, without hemorrhage. The thyroid cartilage and hyoid bone are intact. The larynx is lined by intact white mucosa. The thyroid gland is symmetric and red-brown, without cystic or nodular change. The tongue is free of bite marks, hemorrhage, or other injuries.

BODY CAVITIES:

The sternum and vertebral bodies are visibly and palpably intact. Injuries to the ribs are described above (see "Medical Intervention," above). No excess fluid is in the pleural, pericardial, or peritoneal cavities. The organs occupy their usual anatomic positions.

RESPIRATORY SYSTEM:

The right and left lungs weigh 840 and 725-grams, respectively. The external surfaces are smooth and deep red-purple. Bullae are grossly identifiable in the apices of both lungs. The pulmonary parenchyma is diffusely congested and edematous. No mass lesions or areas of consolidation are present.

CARDIOVASCULAR SYSTEM:

The 510-gram heart is contained in an intact pericardial sac. The epicardial surface is smooth, with moderate fat investment. The coronary arteries are present in a normal distribution, with a right-dominant pattern. Cross sections of the vessels show moderate to marked luminal narrowing of the left main coronary artery and severe luminal narrowing of the left anterior descending and left circumflex coronary arteries. The

Page 5 of 8

lumen of the right coronary artery appears to be of a pinpoint diameter. All of the coronary arteries are focally calcified. The myocardium is homogenous, red-brown, and firm except in the posterior left ventricle and posterior septum where there is a dense white scar. The valve leaflets are thin and mobile. The walls of the left and right ventricles are 1.2 and 0.3-centimeters thick, respectively. The endocardium is smooth and glistening. The aorta gives rise to three intact and patent arch vessels and has multiple atherosclerotic plaques and ulceration with calcification along the entire length. The renal and mesenteric vessels are unremarkable.

LIVER & BILIARY SYSTEM:

The 1,440-gram liver has an intact, smooth capsule and a sharp anterior border. The parenchyma is tan-brown and congested, with the usual lobular architecture. No mass lesions or other abnormalities are seen. The gallbladder contains 2-milliliters of green-black bile and no stones. The mucosal surface is green and velvety. The extrahepatic biliary tree is patent.

SPLEEN:

The 130-gram spleen has a smooth, intact, red-purple capsule. The parenchyma is maroon and congested, with distinct lymphoid follicles.

PANCREAS:

The pancreas is autolytic and saponified, with the usual lobular architecture. No mass lesions or other abnormalities are seen.

ADRENALS:

The right and left adrenal glands are autolytic and symmetric, with bright yellow cortices and gray medullae. No masses or areas of hemorrhage are identified.

GENITOURINARY SYSTEM:

The right and left kidneys weigh 200 and 160-grams, respectively. The external surfaces are intact and smooth. The cut surfaces are red-tan and congested, with uniformly thick cortices and sharp cortico-medullary junctions. The pelvis of the right kidney contains four irregular brown stones which range in size from 0.3 to 0.5-centimeters; the left kidney pelvis is unremarkable. Both ureters are normal in course and caliber. Gray-pink bladder mucosa overlies an intact, hypertrophic bladder wall with trabeculae. The bladder contains approximately 30-milliliters of cloudy yellow urine. The prostate is enlarged, with cysts containing viscous brown fluid and yellow-tan parenchyma. The seminal vesicles are unremarkable. The testes are free of mass lesions, contusions, or other abnormalities.

GASTROINTESTINAL TRACT:

The esophagus is intact and lined by smooth, gray-white mucosa. The stomach contains approximately 200-milliliters of brown-green fluid with food particles. The gastric wall is intact. The duodenum, loops of small bowel and colon are unremarkable. The appendix is present.

EXHIBIT
000197

FINAL AUTOPSY REPORT: (b)(6)
(BTB) ABBASS AL-ZUBAIDI, Najim M.

Page 6 of 8

MUSCULOSKELETAL SYSTEM:

There is no non-traumatic bone or joint abnormalities. Skeletal muscle development is normal. Superficial incisions of the posterior torso and extremities are negative for soft tissue trauma.

MICROSCOPIC EXAMINATION

Selected portions of organs are retained in formalin, with preparation of selected histological slides.

RESPIRATORY SYSTEM

Lung (Slides 1-5): Multiple sections are examined which demonstrate mild interstitial fibrosis and macrophages with anthracotic pigment. Mild to moderate emphysematous changes and vascular congestion are noted. Special stains fail to demonstrate mycobacteria (see Attachment 1 for complete details).

Hilar lymph node (Slide 6): Anthracotic pigment is present in macrophages; otherwise an unremarkable lymph node. Special stains fail to demonstrate mycobacteria (see Attachment 1 for complete details).

GENITOURINARY SYSTEM

Seminal Vesicle (Slide 7): Cystic dilatation and inspissation of secretions

Kidneys (Slides 8 and 9): Focal, diffuse glomerulosclerosis and arteriosclerosis. Mild, focal chronic inflammation and focal calcification is present.

CARDIOVASCULAR SYSTEM

Left ventricular myocardium and scar (Slide 10): Hypertrophic myocytes with enlarged nuclei, interstitial fibrosis and dense endocardial-based scar.

Left main coronary artery (Slide 11): Luminal narrowing (75%) by intimal hypertrophy, cholesterol clefts and chronic inflammation.

Left anterior descending coronary artery (Slide 12): Luminal narrowing (90%) by intimal hypertrophy, cholesterol clefts and chronic inflammation. Recanalization of the artery and focal calcification are also present.

Left circumflex coronary artery (Slide 13): Luminal narrowing (90%) by intimal hypertrophy, cholesterol clefts and chronic inflammation.

Right coronary artery (Slide 14): Luminal narrowing (>90%) by intimal hypertrophy, cholesterol clefts and chronic inflammation. Plaque rupture with hemorrhage into the media and fresh thrombus formation are noted.

ADDITIONAL PROCEDURES/REMARKS

(BTB) ABBASS AL-ZUBAIDI, Najim M.

- Specimens retained for toxicologic testing and/or DNA identification are: heart blood, vitreous fluid, gastric contents, urine, bile, spleen, liver, lung, kidney, brain, adipose tissue, and psoas muscle
- Full body radiographs are obtained and demonstrate the absence of skeletal trauma and the absence of metallic foreign bodies
- Selected portions of organs are retained in formalin, with preparation of histological slides
- The dissected organs are forwarded with the body
- Personal effects are released to the mortuary affairs representatives

OPINION

This 64-year-old Iraqi civilian detainee, Najim Mohammed Abbass, died of hypertensive and arteriosclerotic cardiovascular disease. The observed cardiomegaly, microscopic evidence of cardiac hypertrophy and the microscopic changes in the kidneys are typical of this condition. There is evidence of a remote myocardial infarction, as well as a fresh thrombus in the right coronary artery. It was reported that he was being treated for tuberculosis, but no microscopic evidence of this disease was observed. Toxicological testing for ethanol was negative. Ethambutol (an antimycobacterial medication) was detected in the urine but not quantitated in the blood. There is no evidence of physical abuse. The rib fractures are most likely an artifact of cardiopulmonary resuscitation. The manner of death is natural.
