SO Note Written by (b)(6) @ 07 Oct 2006 1401 AST

**History of present illness**

The Patient is a 20 year old male.

\* Encounter Background Information: Detainee evaluated at bedside at request of (b)(6) after incident yesterday in which he defecated on floor. Available medical record reviewed. Pt is an approx 20 yo Male from Al-Anbar province who denied previous psych hx or any significant psychiatric symptoms at present other than insomnia secondary to pain. Some sadness/depressed mood appropriate to situation. Sleeping approx 2-3 hours/night. He is approx 1 wk s/p GSW back; at Bucca x3 days. He denied purposefully defecating on the floor, stating that when PT attempted to get him out of bed he became dizzy and when he "came to" he became aware of the BM. Account is inconsistent with staff reports of incident. Set expectation with detainee that such behavior was inappropriate and that if it happened again it would be difficult to believe it was accidental. He acknowledged understanding. No significant safety concerns noted.

**Physical findings**

**General appearance:**

\* Patient was alert. \* Patient was oriented to time, place, and person. \* Patient appeared to be in no acute distress.

**Neurological:**

Mental Status Findings: \* Behavior demonstrated no abnormalities at time of evaluation

\* Speech was normal. \* Mood was calm. \* Affect was normal. \* Thought processes were not impaired. \* No thought disorder was noted. \* Thought content revealed no impairment. \* No suicidal ideation. \* No homicidal ideations.

A/P Written by (b)(6) @ 07 Oct 2006 1358 AST

**1. INSOMNIA RELATED KNOWN AXIS III FACTOR**

Comments: 1. Chart review suggests pt currently on ambien. If ambien ineffective or more long term sleep assistance needed, may wish to consider alternative such as trazodone if medically appropriate.

2. No mental health follow-up desired or indicated at present.

Procedure(s): -Psychiatric Evaluation Comprehensive Examination

**2. Demonstrated Behavior Impulsivity**

4 October 2006

MEMORANDUM FOR RECORD

SUBJECT: Transfer Medical Summary

Detainee #: (b)(6)

Accepting Physician:

Date Admitted: 30 SEP 2006

Diagnoses:

1. GSW to back

Procedures:

1. Negative exploratory laparotomy from transferring hospital prior to admission
2. Debridement of back/buttock wound with placement of a wound vac on (b)(6) 2006
3. Re-debridement of the back/buttock wound with placement of a wound vac on (b)(6) 2006

Hospital Summary:

The patient is an approximately 20 year old Iraqi detainee transferred to the 21<sup>st</sup> CSH on (b)(6) 2006 s/p a GSW to the back. The entrance wound was in the right upper back with the exit in the left buttock. The patient had received a negative exploratory laparotomy at the transferring institution prior to being admitted at the 21<sup>st</sup> CSH. He received multiple debridements of his back/buttock wounds at the 21<sup>st</sup> CSH. At the time of transfer he is tolerating a regular diet and has no infectious issues. He has additional findings of traumatic fractures of the L5 spinous process and a significant left iliac wing fracture, all caused by the same missile. This leaves the patient with some continuing need for physical therapy for ambulation in addition to the continued wound debridements and eventual wound closure.

Recommendations:

1. Continued wound debridements as necessary with eventual wound closure.
2. Physical therapy for ambulation.

Medications:

1. Ancef 1 gm IV Q 8H
2. Oxycontin 10 mg po bid

Diet:

Regular

~~FOUO~~

~~FOUO~~

0095 06 010579 79225

Activity:

As tolerated. He requires physical therapy for ambulation.

Nursing instructions:

As per routine. The patient is not on spinal precautions.

Evacuation Priority: Urgent

Thank you for your assistance with this patient. Please call our PAD at (b)(6) if there are questions.

AGENT'S INVESTIGATION REPORT

0095-06-CID579-79225

CID Regulation 195-1

PAGE 1 OF 1 PAGES

About 0900, 17 Jan 07, this office received the Final Autopsy Examination Report, report number ME 06-0915, Certificate of Death, and the toxicology report, report number 067232, 30 October 06, 17 Nov 06, from the Armed Forces Institute of Pathology (AFIP), Rockville, MD pertaining to Detainee HAZZAA AL DOULAIMEE. The Final Autopsy report and the Certificate of Death indicated the cause of death to be gunshot wound to the back complicated by pulmonary embolism and the manner of death to be Homicide. (See Final Autopsy Report, Certificate of Death, and Toxicology Report for details)

About 0900, 28 Jan 07, this office received the Report of Investigation which was conducted by the unit into the incident with the assistance of the Naval Criminal Investigative Service (NCIS). The investigation findings did not reveal any criminal culpability in this incident. (See Report of Investigation for details)

About 1400, 28 Jan 07, SA (b)(6), (b)(7)(C) his office, coordinated with the supported staff judge advocate for this incident, CPT (b)(6), (b)(7)(C) Operational Law, Office of the Staff Judge Advocate (SJA), Camp Adder, APO AE 09331. CPT (b)(6), (b)(7)(C) pinned the shooting of Detainee HAZZAA AL DOULAIMEE, Capture Tag number 600-00-1542, was within the Rules of Engagement parameters and no criminality involved in the incident. (See Memorandum, 26 Jan 07, for details)

**FINAL AUTOPSY EXAMINATION REPORT**

Name: (BTB) HAZZAA AL DOULAIMEE, Ezaldin Awanad	Autopsy No.: (b)(6)
SSAN: (b)(6)	AFIP No.: (b)(6)
Date of Birth: (BTB) (b)(6) 1982	Rank: Iraqi Civilian Detainee
Date of Death: (b)(6) 2006	Place of Death: Camp Bucca, Iraq
Date/Time of Autopsy: 17 OCT 2006 @ 1700	Place of Autopsy: BIAP Mortuary, Baghdad, Iraq
Date of Report: 17 NOV 2006	

**Circumstances of Death:** This 24-year-old Iraqi Civilian Detainee sustained a gunshot wound from U.S. Army soldiers during a firefight on 30 SEP 2006. He was resuscitated, received surgery and was stabilized prior to his transfer to Camp Bucca. He was ambulating with assistance and making progress when he was found unresponsive in his room, and could not be resuscitated.

**Authorization for Autopsy:** Office of the Armed Forces Medical Examiner, IAW 10 USC 1471.

**Identification:** Presumptive identification is established by a wrist identification band. A DNA sample is taken for profile purposes if an exemplar becomes available for positive identification.

**CAUSE OF DEATH:** GUNSHOT WOUND OF THE BACK  
COMPLICATED BY PULMONARY EMBOLISM

**MANNER OF DEATH:** HOMICIDE

~~FINAL AUTOPSY DIAGNOSES~~  
~~LAW ENFORCEMENT SENSITIVE~~

- I. **Gunshot Wound of the Back** 0095 06 C1L579 79225
- A. Entrance Wound
    - 1. Location: On the lower right back, 25-inches below the top of the head and 4-inches right of the posterior midline of the back in the anatomic position
    - 2. Dimensions: An ovoid entrance wound measuring  $\frac{1}{4}$  x  $\frac{3}{16}$ -inch with eccentric marginal abrasion up to  $\frac{1}{4}$ -inch on the lateral border
  - B. Wound Path: Skin and subcutaneous tissue of the lower right back, muscles of the lower right back, the spinous process of the 4<sup>th</sup> lumbar vertebra (fractured), muscles of the lower left back, subcutaneous tissue and skin of the upper left buttock
  - C. Exit Wound
    - 1. Location: On the upper left buttock, 29-inches below the top of the head, 38  $\frac{1}{2}$ -inches above the heel and 7-inches left of the posterior midline of the back in the anatomic position
    - 2. Dimensions: An ovoid defect measuring 3  $\frac{1}{4}$  x 2  $\frac{1}{2}$ -inches, consistent with a debrided exit wound; packing material is present surrounding the exit wound
  - D. Recovered: No bullet or bullet fragments are recovered; multiple radio-opaque metallic fragments of no evidentiary value are observed radiographically in the region of the left buttock
  - E. Direction: Slightly back to front, right to left and slightly downward
  - F. Associated Injuries
    - 1. A non-obstructive thromboembolus with valve markings and tributary casts is located at the bifurcation of the right and left pulmonary arteries ("saddle embolus"); multiple small obstructive thromboemboli are noted in the smaller branches of the right and left pulmonary arteries
    - 2. Deep venous thromboses in the deep veins of the right and left legs
    - 3. Bleeding into the wound tract
- II. **No significant natural diseases or pre-existing conditions are identified, within the limitations of this examination.**
- III. **Evidence of Medical Therapy**
- A. A closed, 9-inch surgical incision is on the abdominal midline
  - B. A medical dressing and packing are present on the lower right back
  - C. A vacuum drain and a 3-inch closed surgical incision with packing is on the lower left back
  - D. Needle stick marks are on the right subclavian region
- IV. **Post-Mortem Changes**
- A. Rigor is passing and equal in all extremities
  - B. Livor is posterior and fixed except in areas exposed to pressure
  - C. Marbling is present in areas of livor

~~FOUO~~

FINAL AUTOPSY REPORT: (b)(6)  
 (BTB) HAZZAA AL DOULAIMEE, Ezaldin Awanad

Page 3 of 8

~~FOUO~~

D. Corneal clouding, bilaterally

**V. Identifying Body Marks**

- A. Tattoo on the web space between the first and second digit of the left hand (heart, black, 3/8 x 1/4-inch)  
 B. Multiple irregular scars on the right back in a 3 1/2 x 1/4-inch area and ranging in size from punctate to 1/2 x 1/4-inch

~~LAW ENFORCEMENT SENSITIVE~~

**VI. There is no evidence of physical abuse**

- A. Layer-wise anterior neck dissection is negative for trauma  
 B. Incision and dissection of the posterior neck demonstrates no deep paracervical muscular injury and no cervical spine fractures  
 C. No petechiae are present on the conjunctivae or oral mucosa  
 D. External examination is negative for trauma  
 E. Radiographic skeletal survey is negative for trauma

**VII. Toxicology**

- A. The blood and urine are tested for ethanol and none is found.  
 B. The urine is screened for medications and drugs of abuse and the following medications are detected:
1. Oxymorphone (a narcotic analgesic) is detected in the urine, but is not present in the blood.
  2. Oxycodone (a narcotic analgesic) is detected in the urine, but is not present in the blood.

EXTERNAL EXAMINATION

The body is that of a well-developed, well-nourished appearing, 67-inch, 150-pounds (estimated) male whose appearance is consistent with the reported age of 24-years. Lividity is posterior and fixed with marbling in areas of lividity. Rigor is passing and equal in all extremities, and the temperature of the body is cold to touch.

The scalp is covered with black hair in a normal distribution; facial hair consists of a full beard and moustache. The irides are brown, the corneae cloudy, the conjunctivae pink without petechiae and the pupils are round and equal in diameter. The external auditory canals are patent and free of foreign material. The ears are unremarkable. The nares are patent and the lips are atraumatic. The nose and maxillae are palpably stable. The teeth appear natural.

The neck is straight, and the trachea is midline and mobile. The chest is symmetric. The abdomen is remarkable for a closed, 9-inch midline surgical incision. Injury to the posterior torso is described below (see "Evidence of Injury.") The genitalia are those of a normal adult male. The testes are descended and free of masses. Pubic hair is present in a normal distribution. The buttocks and anus are unremarkable.

~~FOUO~~~~FOR OFFICIAL USE ONLY~~ ~~LAW ENFORCEMENT SENSITIVE~~ 63

The upper and lower extremities are symmetric and

~~LAW ENFORCEMENT SENSITIVE~~

CLOTHING AND PERSONAL EFFECTS

The body is received unclothed and without personal effects.

MEDICAL INTERVENTION

- A closed, 9-inch surgical incision is on the abdominal midline
- A medical dressing and packing are present on the lower right back
- A vacuum drain and a 3-inch closed surgical incision with packing is on the lower left back
- Needle stick marks are on the right subclavian region

RADIOGRAPHS

A complete set of postmortem radiographs is obtained and demonstrates the following:

- No long bone fractures
- No rib or skull fractures
- No fractures of the bones of the hands or feet
- Fracture of the spinous process of the 4<sup>th</sup> lumbar vertebra
- Multiple small radio-opaque metallic fragments are observed in the region of the left buttock

EVIDENCE OF INJURY

The ordering of the following injuries is for descriptive purposes only, and is not intended to imply order of infliction or relative severity. All wound pathways are given relative to standard anatomic position.

Gunshot Wound of the Back

A gunshot entrance wound is on the lower right back, 25-inches below the top of the head and 4-inches right of the posterior midline of the back in the anatomic position. The ovoid entrance wound measures ¼ x 3/16-inch with eccentric marginal abrasion up to ¼-inch on the lateral border. The wound path perforates the skin and subcutaneous tissue of the lower right back, muscles of the lower right back, the spinous process of the 4<sup>th</sup> lumbar vertebra (fractured), muscles of the lower left back, subcutaneous tissue and skin of the upper left buttock. The bullet exited via an ovoid defect measuring 3 ¼ x 2 ½-inches (consistent with a debrided exit wound; packing material is present surrounding the exit wound) and located on the upper left buttock, 29-inches below the top of the head, 38 ½-inches above the heel and 7-inches left of the posterior midline of the back in the anatomic position. No bullet or bullet fragments are recovered; multiple radio-opaque metallic fragments of no evidentiary value are observed radiographically in the

~~FOUO~~

FOR OFFICIAL USE ONLY

~~LAW ENFORCEMENT SENSITIVE~~

region of the left buttock. The wound path is directed slightly back to front, right to left and slightly downward.

0095 06 CID579 79225

Associated with the wound path is bleeding into the wound tract; a non-obstructive thromboembolus with valve markings and tributary casts is located at the bifurcation of the right and left pulmonary arteries ("saddle embolus") with multiple small obstructive thromboemboli noted in the smaller branches of the right and left pulmonary arteries, and deep venous thromboses in the deep veins of the right and left legs.

INTERNAL EXAMINATION

HEAD AND CENTRAL NERVOUS SYSTEM:

The galeal and subgaleal soft tissues of the scalp are free of injury. The calvarium is intact, as is the dura mater beneath it. Clear cerebrospinal fluid surrounds the 1,340-gram brain, which has unremarkable gyri and sulci. Coronal sections demonstrate sharp demarcation between white and gray matter, without hemorrhage or contusive injury. The ventricles are of normal size. The basal ganglia, brainstem, cerebellum, and arterial systems are free of injury or other abnormalities. There are no skull fractures. The atlanto-occipital joint is stable.

NECK:

Layer-wise dissection of the anterior strap muscles of the neck reveals homogenous and red-brown tissue without hemorrhage. The thyroid cartilage and hyoid bone are intact. The larynx is lined by intact white mucosa. The thyroid gland is symmetric and red-brown, without cystic or nodular change. The tongue is free of bite marks, hemorrhage, or other injuries.

Incision and dissection of the posterior neck demonstrates no deep paracervical muscular injury and no cervical spine fractures.

BODY CAVITIES:

The ribs and sternum are visibly and palpably intact. No excess fluid is in the pleural, pericardial, or peritoneal cavities. The organs occupy their usual anatomic positions.

RESPIRATORY SYSTEM:

The right and left lungs weigh 540 and 400-grams, respectively. The external surfaces are smooth and deep red-purple. The pulmonary parenchyma is diffusely congested and edematous. No mass lesions or areas of consolidation are present. Multiple small occlusive thromboemboli are noted in the smaller branches of the right and left pulmonary arteries.

CARDIOVASCULAR SYSTEM:

The 350-gram heart is contained in an intact pericardial sac. The epicardial surface is smooth, with minimal fat investment. The coronary arteries are present in a normal distribution, with a right-dominant pattern. Cross sections of the vessels show no luminal narrowing. The myocardium is homogenous, red-brown, and firm. The valve leaflets are

~~FOUO~~

FINAL AUTOPSY REPORT: (b)(6)

0095 06 CID 579 79225 Page 6 of 8

(BTB) HAZZAA AL DOULAIMEE, Ezaldin Awanad

~~LAW ENFORCEMENT SENSITIVE~~

thin and mobile. The walls of the left and right ventricles are 1.2 and 0.5-centimeters thick, respectively. The endocardium is smooth and glistening. Upon opening the pulmonary artery while *in situ*, a non-occlusive thromboembolus with valve markings and tributary casts is located at the bifurcation of the right and left pulmonary arteries ("saddle embolus"). The aorta gives rise to three intact and patent arch vessels. The renal and mesenteric vessels are unremarkable.

LIVER & BILIARY SYSTEM:

The 1,870-gram liver has an intact, smooth capsule and a sharp anterior border. The parenchyma is tan-brown and congested, with the usual lobular architecture. No mass lesions or other abnormalities are seen. The gallbladder contains a minute amount of green-black bile and no stones. The mucosal surface is green and velvety. The extrahepatic biliary tree is patent.

SPLEEN:

The 290-gram spleen has a smooth, intact, red-purple capsule. The parenchyma is maroon and congested, with distinct Malpighian corpuscles.

PANCREAS:

The pancreas is firm and yellow-tan, with the usual lobular architecture. No mass lesions or other abnormalities are seen.

ADRENALS:

The right and left adrenal glands are symmetric, with bright yellow cortices and gray medullae. No masses or areas of hemorrhage are identified.

GENITOURINARY SYSTEM:

The right and left kidneys weigh 150 and 180-grams, respectively. The external surfaces are intact and smooth. The cut surfaces are red-tan and congested, with uniformly thick cortices and sharp cortico-medullary junctions. The pelves are unremarkable and the ureters are normal in course and caliber. Gray-pink bladder mucosa overlies an intact bladder wall. The bladder contains approximately 75-milliliters of yellow urine. The prostate is normal in size, with lobular, yellow-tan parenchyma. The seminal vesicles are unremarkable. The testes are free of mass lesions, contusions, or other abnormalities.

GASTROINTESTINAL TRACT:

The esophagus is intact and lined by smooth, gray-white mucosa. The stomach contains approximately 25-milliliters of tan fluid. The gastric wall is intact. The duodenum, loops of small bowel and colon are unremarkable. The appendix is present.

MUSCULOSKELETAL SYSTEM:

There is no non-traumatic bone or joint abnormalities. Skeletal muscle development is normal.

MICROSCOPIC EXAMINATION

Selected portions of organs are retained in formalin, without preparation of histological slides.

0095 06 CID579 79223

ADDITIONAL PROCEDURES/REMARKS

- Documentary photographs are taken by AFMES staff photographers
- Specimens retained for toxicologic testing and/or DNA identification are: heart blood, vitreous fluid, gastric contents, urine, bile, spleen, liver, lung, kidney, brain, adipose tissue, and psoas muscle
- Full body radiographs are obtained and demonstrate the skeletal trauma described above and the presence of multiple small metallic foreign bodies surrounding the exit wound
- Projectiles are not recovered
- Selected portions of organs are retained in formalin, without preparation of histological slides
- The dissected organs are forwarded with the body

OPINION

0095 06 CID579 79-25

This 24-year-old Iraqi civilian detainee, Ezaldin Awanad Hazzaa Al Doulaimee, died of a gunshot of the back he sustained while in a firefight with U.S. Army personnel. He was stabilized and transported to a medical facility where he was ambulating with assistance when he was found unresponsive in his hospital bed. Aggressive resuscitation was to no avail. The gunshot entrance wound was located on the right lower back, and passed through the skin and soft tissue of the lower right back, the spinous process of the 4<sup>th</sup> lumbar vertebra and the soft tissue of the left lower back before exiting the upper left buttock. There was no evidence of close range fire, nor were any of the projectile fragments that were observed radiographically recovered. A significant complication of this gunshot wound was multiple occlusive and non-occlusive thromboemboli in the pulmonary arteries. Toxicological testing was negative for ethanol, and positive for the narcotic analgesics Oxycodone and Oxymorphone in the urine but not in the blood. The manner of death is homicide.

AFIP DIAGNOSIS REPORT OF TOXICOLOGICAL EXAMINATION

Condition of Specimens: GOOD

Date of Incident: (b)(6) /2006

Date Received: (b) /2006

**VOLATILES:** The **BLOOD AND URINE** were examined for the presence of ethanol at a cutoff of 20 mg/dL. No ethanol was detected.

**DRUGS:** The **URINE** was screened for amphetamine, antidepressants, antihistamines, barbiturates, benzodiazepines, cannabinoids, chloroquine, cocaine, dextromethorphan, lidocaine, narcotic analgesics, opiates, phencyclidine, phenothiazines, sympathomimetic amines and verapamil by gas chromatography; color test or immunoassay. The following drugs were detected:

Positive Opiate: Oxymorphone was detected in the urine by immunoassay and confirmed by gas chromatography/mass spectrometry. No oxymorphone was detected in the blood at a limit of quantitation of 0.05 mg/L using by gas chromatography/mass spectrometry.

Positive Opiate: Oxycodone was detected in the urine by immunoassay and confirmed by gas chromatography/mass spectrometry. No oxycodone was detected in the blood at a limit of quantitation of 0.05 mg/L using by gas chromatography/mass spectrometry.

**EXECUTIVE SUMMARY**

1. For Background, a United States Army (USA) combat logistics patrol (CLP) was traveling East to West on main supply route (MSR) MOBILE from Al Asad to Camp Korean Village (CKV) when a report of small arms fire (SAF) was received via military tactical system (MTS). The CLP was the forward sweep team (FST) for the main body. The FST was shadowing the convoy south of MSR MOBILE. As the FST was conducting its sweep, it discovered a white civilian pickup truck in a suspicious position

**FOUO**

**LAW ENFORCEMENT SENSITIVE 71**

**FOUO**

observing MSR MOBILE in an active named area of interest (NAI W3). When the truck saw the FST it sped north towards MSR MOBILE. Normal escalation of force (EOF) procedures were used to stop the vehicle with no results. The pickup truck drove across the desert to MSR MOBILE and headed west. The CLP set a blocking position in an attempt to stop the truck. The pickup truck avoided the blocking position, turned South, and headed into the desert where three gun trucks (M1114) attempted to intercept. The truck stopped when it blew out the right front tire. As the vehicle stopped, two enemy combatants (EC) exited the right side of the truck and hid behind some bushes and rocks. One EC exited the left side of the truck, where he placed his weapon on the ground and made surrendering movements. The one gun truck moved into covering positions near the vehicle and immediately came under small arms fire (SAF) from the two passengers in a fighting position. SSG Scott NISLEY, the truck commander (TC), of 223 exited his vehicle to detainee the EC who had laid down his weapon when he was struck by SAF. The EC that originally laid down his weapon then took up a fighting position and started to return fire on the three gun trucks. SPC Kampha SOURIVONG, the gunner of vehicle 232 was struck by SAF. All gun trucks returned fire and an additional gun truck (M1117) arrived on scene. Troops in contact (TIC) was declared and MEDEVAC was called. The engagement lasted approximately 10 minutes. It appears that at least one ACF was run over by the armored security vehicle (ASV, M1117). Both service members (SM) hit with SAF were killed in action (KIA). Battle damage assessment (BDA) was established as one EC KIA and two EC wounded in action (WIA). MEDEVAC from CKV transported both the friendly KIAs and one EC WIA to Al Asad. An additional MEDEVAC from CKV transported the second EC WIA to Al Asad. The on-scene commander assessed the scene and determined the EC KIA had a pineapple grenade with the pin pulled located next to the body. The civilian vehicle also had suspicious wires hanging from the underside. The land owning unit approved the on-scene commander to destroy the explosives and clear the area. The commander reported the scene cleared, moved the CLP back to MSR MOBILE and linked up with an additional CLP for assistance in moving all the vehicles to CKV.

## NARRATIVE

2. This investigation pertains to suspected violations of the Ministry Of Justice Iraqi Penal Code.
3. On 03OCT06, Reporting Agent (RA) received via e-mail a request for assistance. This request was in regards to investigating the deaths of two USA soldiers KIA, Exhibit (1) pertains. The request was submitted by the Commanding Officer (CO), Lieutenant Colonel (LTC) (b)(7)(c) Headquarters 1<sup>st</sup> Battalion 133D Infantry, Al Asad Air Base, Iraq.
4. On 04OCT06, Participating Agent (PA) (b)(7)(c) received digital photographs of damaged Humvee number C223, Exhibit (2) pertains. These photographs were received via e-mail from 1LT (b)(7)(c) USA, Al-Asad, Iraq. The photographs depict damage caused by SAF during confrontation with EC on 30SEP06. Photographs of damaged Humvee C240 and Humvee C232 were not available due to the fact they were taken to a repair facility prior to being returned to the owning unit.

LAW ENFORCEMENT SENSITIVE

5. On 04OCT06, RA received a copy of SSGT Scott E. NISLEY's Certificate of Death (COD), DD form 2064 dated 30SEP06, Exhibit (3) pertains. RA received the COD via e-mail from 1LT (b)(7)(c) USA. The COD identifies SSG NISLEY's cause of death as "multiple penetrating wounds to the left shoulder, left leg, and right leg." The attending medical officer was LCDR (b)(7)(c) United States Navy (USN), Al- Asad, Iraq.

6. On 04OCT06, RA received a copy of SPC Kampha B. SOURIVONG's COD dated 30SEP06, Exhibit (4) pertains. RA received the COD via e-mail from 1LT (b)(7)(c) (b)(7)(c) USA. The COD identifies SPC SOURIVONG's cause of death as a "penetrating head wound." The listed attending medical officer was LCDR (b)(7)(c) USN, Al- Asad, Iraq.

7. On 05OCT06, PA (b)(7)(c) received photographs depicting the crime scene after the scene had been rendered secure and a list of items found at the scene via email, Exhibit (5) pertains. This documentation was provided by 1LT (b)(7)(c) USA. The photographs depict the EC's, evidence recovered at the scene and the suspect vehicle. A consolidated list of the evidence found at the crime scene was included with this documentation.

8. On 07OCT06, PA (b)(7)(c) conducted a criminal history check on Capture Tag 600-00-1542, Exhibit (6) pertains. The criminal history check returned two entries. Complete copies of the criminal history checks can be found in the Biometrics Automated Toolset (BATS) database under dossiers {B528F79B-AB9E-4971-8E23-E666E4354597} and {28A26EA9-77B8-4D05-AB0B-A538CA473A82}. An ISN of 166663 was returned for this detainee.

9. On 07OCT06, PA (b)(7)(c) conducted a criminal history check on Capture Tag 600-00-1543, Exhibit (7) pertains. The criminal history check returned one entry. A complete copy of the criminal history check can be found in the BATS database under dossier {DE6C007C-AD6E-4C2A-83EF-2A137AC1243F}. An ISN of 303281 was returned for this detainee.

10. On 07OCT06, PA (b)(7)(c) received three photographs of overhead imagery in the vicinity of Grid Coordinates 37S GS 17141 50643 via email, Exhibit (8) pertains. This documentation was provided by 1LT (b)(7)(c) USA. Two maps and one photographic image represent the above mentioned Grid Coordinates.

11. On 09OCT06, RA received a copy of detainee capture tag 600-00-1542 / ISN 166663's medical record from The Casualty Hospital (CASH) Camp Cropper, Iraq (CCI), Exhibit (9) pertains. RA received this report from MAJ (b)(7)(c) USA, Officer in Charge (OIC), S1 CASH CCI.

12. On 09OCT06, RA received a copy of detainee capture tag 600-005437 ISN 303281's medical record from CASH CCI, Exhibit (10) pertains. RA received this report from MAJ (b)(7)(c) USA, Officer in Charge (OIC), S1 CASH CCI.

LAW ENFORCEMENT STRUCTURE 82225

13. On 13OCT06, RA interviewed SGT (b)(7)(c), regarding his knowledge of the incident that occurred on 30SEP06. SGT (b)(7)(c) related the SAF that killed SSG NISLEY came from the area that detainee 303281 was shooting from, Exhibit (11) pertains.

14. On 13OCT06, PA (b)(7)(c) interviewed SGT (b)(7)(c) Exhibit (12) pertains. SGT (b)(7)(c) provided a detailed account of the events of 30SEP06. SGT (b)(7)(c) also provided details about an attempted Improvised Explosive Device attack on 02OCT06.

15. On 13OCT06, PA (b)(7)(c) interviewed SSG (b)(7)(c), Exhibit (13) pertains. SSG (b)(7)(c) provided a detailed account of the events of 30SEP06.

16. On 13OCT06, PA (b)(7)(c) created a presentation depicting the vehicle and personnel movement of the incident. Sequence of events were based on agents' interview with witnesses and reviewing the call history of the incident dated 30SEP06, Exhibit (14) pertains.

17. On 13OCT06, PA (b)(7)(c) interviewed 1LT (b)(7)(c) regarding his acquisition of the evidence recovered from the incident that occurred 30SEP06, Exhibit (15) pertains. RA received a copy of the Evidence Custody Document (DA 4137) dated 01OCT06, Exhibit (16) pertains.

18. On 13OCT06, PA (b)(7)(c) received a copy of Department Of The Army medical transfer order for detainee 166663 from SFC (b)(7)(c) USA, Tactical Operations Center (TOC), Exhibit (17) pertains. The transfer order lists 303202, 303196, 302766, and 166663 being transferred from 21<sup>st</sup> CASH to BUCCA.

19. On 14OCT06, RA received a copy of the COD for detainee 166663 from Camp Bucca, Iraq. Exhibit (18) pertains. RA received the COD from USN LT (b)(7)(c) JIDC JAG, via email. The COD lists the cause of the death as "cardiac arrest" and the date of death as 12OCT06 at 02:11. LT (b)(7)(c) USN, TIF Hospital, Camp Bucca, Iraq, was the attending medical officer.

20. On 16OCT06, RA received via email a copy of the Preliminary Autopsy Report (PAR) for SSG NISELY from Armed Forces Institute of Pathology, Office of the Armed Forces Medial Examiner, Exhibit (19) pertains. The PAR identifies the cause of death for SSG NISLEY as multiple gunshot wounds; the most severe being the gunshot wound of the left arm and traveling through the upper torso. The attending medical officer was CAPT (b)(7)(c) USN, Medical Corps (MC).

21. On 16OCT06, RA received via email a copy of the PAR for SPC SOURIVONG from Armed Forces Institute of Pathology, Office of the Armed Forces Medial Examiner,

LAW ENFORCEMENT STRUCTURE 74

Exhibit (20) pertains. The PAR identifies the cause of death for SPC SOURIVONG as a fatal gunshot wound to the head. This was the only gunshot wound noted on the PAR. The attending medical officer was MAJ (b)(7)(c) USA, MC.

22. On 17OCT06, RA interviewed LCDR (b)(7)(c), USN, MC, regarding the PAR's of SSG NISELY and SPC SOURIVONG. LCDR (b)(7)(c) is an Associate Medical Examiner assigned to the Armed Forces Institute of Pathology, Office of the Armed Forces Medial Examiner, located in Rockville, MD. LCDR (b)(7)(c) reviewed the PAR for SPC SOURIVONG and autopsy photographs. LCDR (b)(7)(c) stated the gunshot wound suffered by SPC SOURIVONG was a fatal wound. LCDR (b)(7)(c) reviewed the PAR for SSG NISELY and autopsy photographs. LCDR (b)(7)(c) stated SSG NISELY suffered multiple gunshot wounds but the most severe being the wound entering the left arm and traveling through the upper torso.

23. On 18OCT06, RA transferred evidence item 3 (1-AK-47 serial #V 73356), item 4 (1-AK-47 serial # 2045279), item 11 (2- AK-47 clips with 32 X 7.62 rounds), and item 12 (2- AK-47 clips with 5 X 7.62 rounds) from Evidence /Property Custody Document to LCDR (b)(7)(c). These items were transferred to LCDR (b)(7)(c) to be transported to Rockville, MD, and have forensic testing conducted on the aforementioned items.

LAW ENFORCEMENT SENSITIVE

0095 06 CID 579 79225

1. For Background, a United States Army (USA) combat logistics patrol (CLP) was traveling East to West on main supply route (MSR) MOBILE from Al Asad to Camp Korean Village (CKV) when a report of small arms fire (SAF) was received via military tactical system (MTS). The CLP was the forward sweep team (FST) for the main body. The FST was shadowing the convoy south of MSR MOBILE. As the FST was conducting its sweep, it discovered a white civilian pickup truck in a suspicious position observing MSR MOBILE in an active named area of interest (NAI W3). When the truck saw the FST it sped north towards MSR MOBILE. Normal escalation of force (EOF) procedures were used to stop the vehicle with no results. The pickup truck drove across the desert to MSR MOBILE and headed west. The CLP set a blocking position in an attempt to stop the truck. The pickup truck avoided the blocking position, turned South, and headed into the desert where three gun trucks (M1114) attempted to intercept. The truck stopped when it blew out the right front tire. As the vehicle stopped, two enemy combatants (EC) exited the right side of the truck and hid behind some bushes and rocks. One EC exited the left side of the truck, where he placed his weapon on the ground and made surrendering movements. The one gun truck moved into covering positions near the vehicle and immediately came under small arms fire (SAF) from the two passengers in a fighting position. SSG Scott NISLEY, the truck commander (TC), of 223 exited his vehicle to detainee the EC who had laid down his weapon when he was struck by SAF. The EC that originally laid down his weapon then took up a fighting position and started to return fire on the three gun trucks. SPC Kampha SOURIVONG, the gunner of vehicle 232 was struck by SAF. All gun trucks returned fire and an additional gun truck (M1117) arrived on scene. Troops in contact (TIC) was declared and MEDEVAC was called. The engagement lasted approximately 10 minutes. It appears that at least one ACF was run over by the armored security vehicle (ASV, M1117). Both service members (SM) hit with SAF were killed in action (KIA). Battle damage assessment (BDA) was established as one EC KIA and two EC wounded in action (WIA). MEDEVAC from CKV transported both the friendly KIAs and one EC WIA to Al Asad. An additional MEDEVAC from CKV transported the second EC WIA to Al Asad. The on-scene commander assessed the scene and determined the EC KIA had a pineapple grenade with the pin pulled located next to the body. The civilian vehicle also had suspicious wires hanging from the underside. The land owning unit approved the on-scene commander to destroy the explosives and clear the area. The commander reported the scene cleared, moved the CLP back to MSR MOBILE and linked up with an additional CLP for assistance in moving all the vehicles to CKV.

0095 06 CID579 79225

On September 30, 2006 at or around 14:00 local, CPT (b)(7)(c) called on the radio to report a white Toyota truck did not stop when instructed to do so, and that it was heading south of MSR MOBILE. Vehicle C-232, occupied by SGT (b)(7)(c) (TC), SPC (b)(7)(c) (driver) and SPC SOURIVONG (gunner), were the first to spot the pickup. C-232 proceeded southeast until it caught sight of our vehicle, C-223, which was occupied by SSG NISELY (TC), SPC (b)(7)(c) (driver) and myself. As the pickup turned and headed south, C-232 was given the order to disable the vehicle. Our vehicle and C-232 continued following the pickup southbound for approximately 10 or 11 kilometers until the pickup came to a stop.

At this time SGT (b)(7)(c) communicated via radio that the driver, later identified as captag #600-00-1542/ ISN 166663, of the pickup had exited the vehicle and proceeded on foot. I spotted the driver who was running away from the vehicle wearing a tan colored top and blue pants. I instructed SPC (b)(7)(c) to move our vehicle to the south east, in order to cut him off. Upon doing so, the individual placed his hands on top of his head to surrender. As SSG NISELY asked me if I had the driver covered, and then he exited our vehicle. SSGT NISELY was behind the opened passenger door covering the driver when shots were fired at SGT (b)(7)(c) vehicle C-232 which was to our right side. At this point, the driver dropped to the ground for cover. Our location was at grid 37S GS 17141 50644 at this time.

SSG NISELY pivoted to the right towards SGT (b)(7)(c) vehicle location to assess the situation. I turned the main weapon of my vehicle towards the right where I heard the shots coming from. I then saw SGT (b)(7)(c) vehicle C-232 began backing away from the pickup. At this point I heard an additional four shots and SSG NISELY yell, "god". I then saw SSG NISELY fall to the ground. I immediately engaged the area from where I saw the two sets of muzzle flashes. SSG NISELY was down and not moving at this time. I then began receiving additional shots from this same area. I fired approximately 75 rounds of 7.62 towards them. SPC (b)(7)(c) got my attention by grabbing my foot. I began to look down and noticed the driver of the vehicle (ISN: 166663) was in a crouched fighting position and began firing towards my position. I then turned the main weapon towards the driver (ISN 166663) and fired approximately 5-6 rounds of 7.62, hitting him, and knocking him to the ground. As I turned my turret back towards the area of the two muzzle flashes again, I heard two shots hit the side plate of my turret. I fired 19 more rounds of 7.62 towards the area of the two muzzle flashes until my first belt of 100 rounds was gone. I then loaded my second belt (100 rounds) of 7.62, fired approximately 25 more rounds, until my weapon double fed. As I went to clear the weapon, two additional shots hit the

FOUO

EXHIBIT (9-29)

LAW ENFORCEMENT CENTER

FOUO

shield in front of the weapon. I then switched to my M-4 and shot 30 rounds of 5.56 in the direction of the two muzzle flashes.

LAW ENFORCEMENT SENSITIVE

As I dropped down inside the vehicle to get another magazine for the M-4, I commanded SPC (b)(7)(c) to move our vehicle between SSG NISLEY and the area where the two muzzles flashed. After SPC (b)(7)(c) re-positioned our vehicle, I shot about 15 more rounds on single shot. I dropped back down inside the vehicle, looked out of the side window at SSG NISLEY's position, and realized he was KIA.

At this time I radioed that SSG NISELY was KIA. Then SGT (b)(7)(c) came over the radio and stated he might have a possible friendly KIA also. I then instructed SPC (b)(7)(c) to move our vehicle between SGT (b)(7)(c) C-232 and the area of where the two muzzle flashes were coming from. This placed my vehicle between the white pick up and SGT (b)(7)(c) vehicle. After completing our repositioning, vehicle C-240, occupied by SSG (b)(7)(c) (TC), SGT (b)(7)(c) (driver) and SPC (b)(7)(c) (gunner) arrived, and basically took over my original position near SSG NISLEY's body to cover the wounded driver. SSG (b)(7)(c) began to receive fire from the area of the two muzzle flashes. SSG (b)(7)(c) vehicle returned fire allowing me the opportunity to correct the double feed on my main weapon and reload.

I contacted SSG (b)(7)(c) via radio and advised him that my weapon was now operational and we were ready to maneuver to do a "volley crossfire" with him. SSG (b)(7)(c) then advised my driver (SPC (b)(7)(c)) to move into position but then canceled the movement order. This is when vehicle C-312, occupied by SGT (b)(7)(c) (TC), SPC (b)(7)(c) (driver) and SPC (b)(7)(c) (gunner), arrived and ran over one of the passengers, appearing to kill him instantly. At this point there was no further enemy fire from SSG (b)(7)(c) cleared both WIA combatants and the KIA combatant of their weapons. The weapons recovered by the combatants included three (3) AK-47's; one (1) drum fed, and two combatants had (2) 45-round magazines taped together end-to-end.

LAW ENFORCEMENT SENSITIVE

On September 30, 2006, at or around 14:00 hours, my vehicle (C-232), consisting of SPC (b)(7)(c) (driver), SPC SOURIVONG (gunner) and myself (truck commander) was traveling west about three and one half kilometers (3.5K) south of Main Supply Road (MSR) MOBILE in a tactical formation. Our task was to locate persons that may be involved with Improvised Explosive Device (IED) attacks on our route. At or around 37S GS 15 easting, I was contact by CPT (b)(7)(c) (convoy commander located in vehicle C-06) and informed there was a white pickup truck fleeing his position. CPT (b)(7)(c) advised me to drive my vehicle towards MSR MOBILE in order to stop the fleeing truck. At that time, I had SPC (b)(7)(c) turn north and head towards MOBILE. We instantly spotted the white pickup about one or two kilometers north of our position. The pickup was heading east in the desert at a high rate of speed. At this moment, I assessed that the pickup truck spotted one of our other vehicles, most likely C223, and took a sharp turn heading south. My vehicle was approximately 200 to 300 meters southwest of the pickup at this time.

I instructed SPC SOURIVONG to start with escalation of force. SPC SOURIVONG fired one red pen flare that went approximately 75 meters in front of the pickup; however, the pickup did not yield or slow down at all. I informed CPT (b)(7)(c) that a pen flare was fired and that the pickup was still in full motion, increasing the distance between their vehicle and ours. CPT (b)(7)(c) instructed me to proceed with warning shots. At this time, our vehicle was approximately 75 to 100 meters west of the pickup. I instructed SPC SOURIVONG to fire the warning shots. SPC SOURIVONG fired about a 10 round burst from our 240B. The rounds impacted in the desert approximately 100 meters to the front of the pickup; however, the pickup continued at a fast rate of speed. I again contacted CPT (b)(7)(c) and informed him the pickup was not slowing following the warning shots. I then requested permission to escalate to disabling shots and was given clearance to do so. I instructed SPC SOURIVONG to attempt to disable the pickup. SPC SOURIVONG fired approximately 20 rounds at the pickup; however, the pickup had already traveled about 200-250 meters in front of our vehicle, making it difficult to fire well aimed shots.

We continued to pursue the pickup another two to three kilometers. The pickup ultimately blew a front tire and came to a stop at or around grid 37S GS 17141 50644. Our vehicle was the first to roll up on the pickup after it stopped. As we approached the pickup, three males exited the vehicle. One male, dressed in a white robe, exited from the driver's side door (later identified as Cap tag #600-00-1542/ ISN 166663). The other two males exited from the passenger's side; one wearing a light olive green top (later identified as Cap tag #600-00-1543/ ISN 303281) and the second in an all tan outfit. All of the individuals that fled the

FOUO

EXHIBIT (7-31)

LAW ENFORCEMENT SENSITIVE

vehicle were now on foot, and running from the pickup. I communicated this information over the radio. We were still approaching the white pickup at this time.

The two individuals that exited from the passenger's side dropped to the ground and took cover behind some bushes approximately 25 meters west of the pickup, and approximately 125 meters in front of our vehicle. The individual dressed in white (driver) continued to run south. I instructed SPC SOURIVONG to fire warning shots with the 240B in an attempt to get the individuals to surrender. I told SPC SOURIVONG over the headset, "Make sure you do not shoot them. Do not shoot them." SPC SOURIVONG turned the turret towards the two individuals that exited the passenger side of the pickup. SPC SOURIVONG fired approximately five warning shots. The rounds impacted the ground approximately 75 meters west of the passenger's position. At this time, my truck came to a stop approximately 50 meters in front of the position of the two passengers from the white pickup truck.

My attention was diverted from the two individuals that exited the passenger side of the vehicle because I looked at the individual who exited the driver's side of the vehicle. The individual that exited the driver's side of the pickup held up his hands as if to surrender. As I looked at him, I realized that our vehicle was being fired upon as my windshield shattered and I heard some rounds impact the hood. These rounds came from the two individuals that exited the passenger's side of the white pickup truck. When I looked back in their direction, I could see numerous muzzle flashes coming from the individual farthest to my right. This man was wearing the light olive green top.

I instructed SPC SOURIVONG to return fire and he fired approximately 5 rounds before taking a shot to the head. When I realized that SPC SOURIVONG had been hit, I instructed SPC (b)(7)(c) to back our truck up in order to regroup. We would then be able to provide care for SPC SOURIVONG and man the 240B. SPC (b)(7)(c) backed the vehicle up approximately 100 meters and turned it so that the driver's side of our vehicle was facing the men who were firing on us (passengers of the pickup truck). As we were backing up, I saw another Humvee close to our vehicle. After positioning our vehicle, I dismounted and opened the rear passenger's door. As I exited our vehicle, my communications became unplugged. I checked the status of SPC SOURIVONG. I yelled to SPC (b)(7)(c) to stay in the vehicle and try to attempt to man the 240B. I placed gauze on SPC SOURIVONG's head and wrapped his head with a bandage. Afterwards, I returned to the passenger's door and retrieved an M-4. I also reconnected my communications. I radioed that I had a man down and that he was killed in action. I then moved to the hood of my truck and returned fire. I fired a couple of rounds in the vicinity of the location where the two men were hiding. I saw muzzle flashes and heard impacts of their return fire. As they returned fire, I positioned myself behind the passenger door of my vehicle. When there was a pause in the return fire, I would return to the hood and fire a couple of rounds. This cycle happened

FOUO

LAW ENFORCEMENT SENSITIVE 102

FOUO  
several times. I fired a total of approximately 10 – 15 rounds from the M-4 I was using. I did not have to change the magazine during the course of my fire.

LAW ENFORCEMENT  
I was then contacted on the radio by SSG (b)(7)(c) (vehicle C-240 truck commander), who advised that he wanted to maneuver my vehicle, as well as C-223, into a more tactical formation. I advised him that my gunner was down, and I was not able to return fire using the 240B. SSG (b)(7)(c) then moved his vehicle, followed by C-223, into contact. I stopped firing my M-4 in order not to hit C-240 and C-223 while they maneuvered. The man in the tan outfit was still firing his weapon.

0095 06 C10579 79225  
I contacted CPT (b)(7)(c) on the radio and began informing him of the engagement situation, as well as gave him the information needed for a medical evacuation. I heard SSG (b)(7)(c) direct C-312 to the location of the two individuals. The engagement ended when C-312 ran over the man wearing the tan outfit.

On October 02, 2006, two days after the incident described above, my unit was on the return trip on MSR MOBILE. The main body of the convoy spotted what appeared to be an IED. The device had exposed copper wire, an inner tube used to cover possible explosives, etc. This device was located approximately 2 kilometers from the point where contact was made with the white pickup truck on September 30, 2006. The convoy was halted and the rear security detail was called. I was in one of the vehicles providing rear security. We provided a safe route of travel for the main convoy and cordoned the area containing the IED. The explosive ordnance disposal (EOD) team was called and arrived approximately 1.5 hours later. The EOD technicians disabled the device and brought the components to members of my team for further examination. I noticed a motorcycle battery and black electrical tape were used in the construction of the IED. These items are similar to the ones found in the white pickup truck on September 30, 2006. I took several photos of the components used in making the IED. Enclosures (A) – (D) pertain.

LAW ENFORCEMENT

On September 30, 2006 at approximately 13:50 hours, my vehicle (C-240) which consisted of SGT (b)(7)(c) (driver), SPC (b)(7)(c) (gunner) and myself, were traveling westbound approximately one (1) kilometer south of MSR MOBILE. During this time, CPT (b)(7)(c) (convoy commander located in vehicle C-06) called over the radio and advised that a white Toyota pickup was located south of MOBILE heading north in an attempt to get on the MSR. Upon seeing C-06, it immediately turned and headed south, back towards the desert at a high rate of speed. CPT (b)(7)(c) vehicle had previously used escalation of force (EOF) in an attempt to get the pickup to stop; however it did not heed to the warnings, which consisted of visual signs, warning flares and warning shots.

Vehicle C-223, occupied by SSG NISELY (TC), SPC (b)(7)(c) (driver) and SGT (b)(7)(c) (gunner), were approximately one kilometer south and one kilometer west of my position. Vehicle C-232, occupied by SGT (b)(7)(c) (TC), SPC (b)(7)(c) (driver) and SPC SOURIVONG (gunner), were approximately two kilometers south and two kilometers west of my position. The Toyota pickup continued to head south in the desert, then headed east where the pickup saw one of our vehicles, and then turned heading south again. At this time C-223, C-232 and our vehicle began to pursue the pickup.

I over heard on the radio that SGT (b)(7)(c) (C-232) had fired additional warning shots at the pickup, however the pickup still did not stop. We then continued to pursue the pickup in a south-southwest direction. At this time a radio call advised that the pickup had blown a tire and had come to a stop. SGT (b)(7)(c) advised that occupants of the pickup had exited the vehicle and were now running on foot. SGT (b)(7)(c) additionally advised that his vehicle was taking fire from the individuals, and that he needed a medic, due to the fact that a friendly was down. SGT (b)(7)(c) then advised via radio that SSG NISELY was KIA. I only thought that SSG NISELY was KIA at that time.

My vehicle then arrived on the scene at vicinity 37S GS 17141 50644. As we approached we saw a white Toyota pickup stopped, facing towards the south. At the Toyota pickup's immediate left was C-223, which was approximately 150 meters away. At the rear of the Toyota pickup, approximately 150-200 meters was C-232. We positioned our vehicle (C-240) to the left of the Toyota pickup, approximately 150-200 meters away, arriving there via a slight semi-circular path. I was able to see SSG NISELY lying motionless directly to the left, approximately 100-150 meters, of the Toyota pickup.

We spotted two of the combatants (later identified as the passengers that exited the vehicle) lying in a prone position behind the small sand dune, approximately 10-15 meters to the immediate front and slightly to the right of their Toyota pickup. As we were facing the combatants, we had a good visual on them and their position.

EXHIBIT (9-31)

LAW ENFORCEMENT

We then began taking fire from the passengers, one of whom I later identified as captag #600-00-1543/ ISN 303281. The driver's side windshield of our vehicle was also hit. I instructed my gunner, SPC (b)(7)(c), to return fire and he did so using the .50 caliber. As the combatants continued to fire on our position, SPC (b)(7)(c) had to get down inside of the vehicle because of numerous well aimed shots. Throughout this ordeal I repeatedly radioed for assistance.

0095 06 010574 79225

While we were still taking fire vehicle C-312, occupied by SGT (b)(7)(c), SPC (b)(7)(c) and SPC (b)(7)(c), arrived on the scene. Because of the well aimed fire that we were receiving and the fact that our .50 caliber machinegun was malfunctioning our only course of action left to neutralize the incoming fire was to use one of our vehicles as cover and to move forward and physically run over the threat. I contacted SGT (b)(7)(c) over the radio and instructed him to use his vehicle and run over the individual that was still firing on our position since the other passenger had already been neutralized by gun fire. SGT (b)(7)(c) did as instructed and was able to neutralize the threat.

My vehicle then proceeded to the location of the two passengers by the sand dunes. One of the combatants, who had been shot and wounded, had an AK-47 and two (2) loaded magazines taped end to end next to his body. The combatant (determined at this time as KIA) that had been run over by C-312 had an AK-47 in his hand with a drum magazine next to his body. He also had a pineapple hand grenade lying next to his right leg as well as a 9 volt battery between his legs.

Out of an abundance of caution I moved the AK-47s, from the downed combatants at my location, while leaving the grenade alone. C-312 moved the weapon (AK-47) that was next to the driver of the Toyota pickup, later identified as captag #600-00-1542/ ISN 166663. I instructed SGT (b)(7)(c) to provide first aid to the combatant. Initially aid was not administered to the other combatant because he appeared to be dead. Later I reassessed his condition and determined that he was alive. At that time aid was administered to him by SGT (b)(7)(c) (C211). SGT (b)(7)(c) (medic) then arrived and took charge of treating both combatants. Each of the WIA combatants were transported out via MEDEVAC helicopter. Once the situation was safe I was able to determine that our vehicle was hit by small arms fire numerous times.

The following items were found in the white Toyota pickup truck: shovel; pick-ax; (2) motorcycle batteries; electrical wire; 5 pound hammer; wire cutters; a volt/ohm meter; a clear roll of tape; back plate of cell phone; an automotive lamp bulb with wiring; roll of black electrical tape and a white back support brace.

I was shown a photo spread with two pictures on it and I gave the appropriate information. Enclosure (A) pertains.

INVESTIGATIVE ACTION

LAW ENFORCEMENT ACTION

TYPE: VEHICLE MOVEMENTS

REPORTING AGENT: (b)(7)(C)

DATE: 13 OCT 06

0095 06 CID 579 79 225

1. For Background, a United States Army (USA) combat logistics patrol (CLP) was traveling East to West on main supply route (MSR) MOBILE from Al Asad to Camp Korean Village (CKV) when a report of small arms fire (SAF) was received via military tactical system (MTS). The CLP was the forward sweep team (FST) for the main body. The FST was shadowing the convoy south of MSR MOBILE. As the FST was conducting its sweep, it discovered a white civilian pickup truck in a suspicious position observing MSR MOBILE in an active named area of interest (NAI W3). When the truck saw the FST it sped north towards MSR MOBILE. Normal escalation of force (EOF) procedures were used to stop the vehicle with no results. The pickup truck drove across the desert to MSR MOBILE and headed west. The CLP set a blocking position in an attempt to stop the truck. The pickup truck avoided the blocking position, turned South, and headed into the desert where three gun trucks (M1114) attempted to intercept. The truck stopped when it blew out the right front tire. As the vehicle stopped, two enemy combatants (EC) exited the right side of the truck and hid behind some bushes and rocks. One EC exited the left side of the truck, where he placed his weapon on the ground and made surrendering movements. The one gun truck moved into covering positions near the vehicle and immediately came under small arms fire (SAF) from the two passengers in a fighting position. SSG Scott NISLEY, the truck commander (TC), of 223 exited his vehicle to detainee the EC who had laid down his weapon when he was struck by SAF. The EC that originally laid down his weapon then took up a fighting position and started to return fire on the three gun trucks. SPC Kampha SOURIVONG, the gunner of vehicle 232 was struck by SAF. All gun trucks returned fire and an additional gun truck (M1117) arrived on scene. Troops in contact (TIC) was declared and MEDEVAC was called. The engagement lasted approximately 10 minutes. It appears that at least one ACF was run over by the armored security vehicle (ASV, M1117). Both service members (SM) hit with SAF were killed in action (KIA). Battle damage assessment (BDA) was established as one EC KIA and two EC wounded in action (WIA). MEDEVAC from CKV transported both the friendly KIAs and one EC WIA to Al Asad. An additional MEDEVAC from CKV transported the second EC WIA to Al Asad. The on-scene commander assessed the scene and determined the EC KIA had a pineapple grenade with the pin pulled located next to the body. The civilian vehicle also had suspicious wires hanging from the underside. The land owning unit approved the on-scene commander to destroy the explosives and clear the area. The commander reported the scene cleared, moved the CLP back to MSR MOBILE and linked up with an additional CLP for assistance in moving all the vehicles to CKV.

FOUO

0095 06 016579 79225

On September 30, 2006, evidence collected at the crime scene was taken from the incident site, 37S GS 17141 50644, and transported to Camp Korean Village (CKV) by CPT (b)(7)(c) truck commander (TC) of C-06, and overall convoy commander of the Commando Convoy. Upon arrival to CKV, the evidence was then turned over MAJ (b)(7)(c). Inventory of the evidence was conducted and annotated on a piece of paper, secured with the evidence in a grey metal foot locker and secured by two keyed locks. Two items of evidence, a pick axe and shovel, were secured separately from the items in the foot locker, and taped together with green duct tape. All items were however transported together.

On October 1, 2006, the evidence was transported by 1-133 (INF) Weapons Company, from CKV to Al Asad, Airbase, Iraq. I took possession of the evidence, inventoried the items, and transcribed the list of evidence onto the Evidence Custody Document (DA Form 4137) to be entered as the official list of items recovered. The evidence was then secured in my office for safe keeping.

On October 3, 2006, I was officially assigned by LTC (b)(7)(c) as liaison to the Criminal Investigation Unit at Camp Cropper, who provides investigative support between the capturing US military unit and the Central Criminal Court of Iraq (CCCI). At this point, I was provided, and made contact with Special Agent (b)(7)(c), NCIS, who serves as Supervisory Special Agent in Charge of the Investigative Unit.

Between October 3, 2006 and October 7, 2006 SA (b)(7)(c) was provided the following items via electronic mail for support in the investigative process: Digital photographic images of damaged vehicle C223; Certificates of Death for SSGT NISELY and SPC SOURIVONG; Digital photographic images of the effected crime scene and Imagery of the vicinity 37S GS 17141 50644. Additionally, we discussed the physical transfer of evidence into his possession on or around October 13, 2006. An electronic copy of the Evidence Custody Document was forwarded to SA (b)(7)(c) on October 5, 2006, in advance of the transport of the physical evidence.

On October 13, 2006, SGT (b)(7)(c), SSGT (b)(7)(c), SGT (b)(7)(c) and myself traveled via military aircraft from Al Asad to Baghdad International Airport with the evidence locker, pick axe and shovel as planned. SA (b)(7)(c) provided transport via ground to his office, where all evidence was turned over into his possession at approximately 06:15-local.

On the evening of October 14, 2006, a physical review of the evidence was conducted by myself and SA (b)(7)(c) and the chain of custody document form was signed by both parties.

**INVESTIGATIVE ACTION**

LA N ENFOR TMENT CENTRE

**TYPE: RECEIPT OF DOCUMENTATION - MEDICAL TRANSFER REQUEST,  
DETAINEE 166663 (Capture Tag 600-00-1542)**

**REPORTING AGENT: [REDACTED]**

0095 06 CID 579 79225

**DATE: 13 OCT 06**

1. For Background, a United States Army (USA) combat logistics patrol (CLP) was traveling East to West on main supply route (MSR) MOBILE from Al Asad to Camp Korean Village (CKV) when a report of small arms fire (SAF) was received via military tactical system (MTS). The CLP was the forward sweep team (FST) for the main body. The FST was shadowing the convoy south of MSR MOBILE. As the FST was conducting its sweep, it discovered a white civilian pickup truck in a suspicious position observing MSR MOBILE in an active named area of interest (NAI W3). When the truck saw the FST it sped north towards MSR MOBILE. Normal escalation of force (EOF) procedures were used to stop the vehicle with no results. The pickup truck drove across the desert to MSR MOBILE and headed west. The CLP set a blocking position in an attempt to stop the truck. The pickup truck avoided the blocking position, turned South, and headed into the desert where three gun trucks (M1114) attempted to intercept. The truck stopped when it blew out the right front tire. As the vehicle stopped, two enemy combatants (EC) exited the right side of the truck and hid behind some bushes and rocks. One EC exited the left side of the truck, where he placed his weapon on the ground and made surrendering movements. The one gun truck moved into covering positions near the vehicle and immediately came under small arms fire (SAF) from the two passengers in a fighting position. SSG Scott NISLEY, the truck commander (TC), of 223 exited his vehicle to detainee the EC who had laid down his weapon when he was struck by SAF. The EC that originally laid down his weapon then took up a fighting position and started to return fire on the three gun trucks. SPC Kampha SOURIVONG, the gunner of vehicle 232 was struck by SAF. All gun trucks returned fire and an additional gun truck (M1117) arrived on scene. Troops in contact (TIC) was declared and MEDEVAC was called. The engagement lasted approximately 10 minutes. It appears that at least one ACF was run over by the armored security vehicle (ASV, M1117). Both service members (SM) hit with SAF were killed in action (KIA). Battle damage assessment (BDA) was established as one EC KIA and two EC wounded in action (WIA). MEDEVAC from CKV transported both the friendly KIAs and one EC WIA to Al Asad. An additional MEDEVAC from CKV transported the second EC WIA to Al Asad. The on-scene commander assessed the scene and determined the EC KIA had a pineapple grenade with the pin pulled located next to the body. The civilian vehicle also had suspicious wires hanging from the underside. The land owning unit approved the on-scene commander to destroy the explosives and clear the area. The commander reported the scene cleared, moved the CLP back to MSR MOBILE and linked up with an additional CLP for assistance in moving all the vehicles to CKV.

MEMORANDUM FOR SEE DISTRIBUTION

0095 06 CID 579 79 725

SUBJECT: TASK# 96-C13824 (BUCCA MEDEVAC)

SITUATION: NO CHANGE

MISSION: The 96<sup>TH</sup> MP BN will transfer the following detainee to BUCCA for long-term care via MEDEVAC on 051130COCT06 ISO 21<sup>ST</sup> CSH:

303202, 303196 302766 166663

EXECUTION:

652 MP CO: Provide SPC (b)(6)(b)(7)(C) and SPC (b)(6)(b)(7)(C) to escort the above detainee from 21<sup>ST</sup> CSH to BUCCA. Ensure the two MP's are to be at the 21<sup>ST</sup> CSH NLT 051130COCT06, have necessary gear for 72 hour stay, Military I.D. (s) and Original orders. The SP time from the hospital is 051230COCT06

RISK ASSESMENT: MEDIUM

SERVICE SUPPORT: IAW Battalion SOP.

POC for this memorandum is the undersigned at DSN 243-4320.

2. On 17OCT06, Reporting Agent (RA) interviewed LCDR (b)(7)(c) [REDACTED] United States Navy (USN), Medical Corps (MC), regarding the Preliminary Autopsy Reports (PAR) of SSG NISELY and SPC SOURIVONG. LCDR (b)(7)(c) is an Associate Medical Examiner assigned to the Armed Forces Institute of Pathology, Office of the Armed Forces Medial Examiner, located in Rockville, MD.

0095 06 CID579 79 225

3. RA and LCDR (b)(7)(c) discussed the witness' statements and vehicle movement diagrams, concluding the following regarding SPC SOURIVONG: 1) SPC SOURIVONG was the gunner for vehicle unit C232. 2) SGT (b)(7)(c) ordered SPC SOURIVONG to fire warning shots in accordance with EOF procedures after the three EC's exited the disabled vehicle. 3) The driver of the vehicle placed his hands on top of his head, giving the appearance he was surrendering, while the EC KIA and the EC WIA (Detainee 303281) took cover behind a small sand dune with bushes. 4) SPC SOURIVONG was shot from a location in front of his M1114 gun truck. 5) This is the location detainee 303281 admits to firing his AK-47. 6) Detainee admitted to firing his AK-47 towards the gun truck SPC SOURIVONG was manning. 7) SGT (b)(7)(c) stated he witnessed the EC wearing the green top (Detainee 303281) shoot several rounds at his M1114 gun truck. 8) After these shots were fired by the EC wearing the green top (Detainee 303281), SPC SOURIVONG stopped shooting from the gunner's position and fell into the gun truck. According to SGT (b)(7)(c) the EC wearing the green top (Detainee 303281) was the only EC firing at his gun truck at this point. (RA and LCDR (b)(7)(c) concluded after review of all evidence and statements, it can be concluded with reasonable certainty that the EC wearing the green top [Detainee 303281] was the individual that fatally shot SPC SOURIVONG). 9) SGT (b)(7)(c) ordered his gun truck out of the area to render aid to SPC SOURIVONG and to assess the situation. 10) The wound suffered by SPC SOURIVONG was fatal. 11) SGT (b)(7)(c) returns fire with his M4 towards the location the EC KIA and EC WIA (Detainee 303281) are firing from. 12) SGT (b)(7)(c) states the enemy fire is now only coming from the area of the EC KIA (RA concluded after review of all evidence and type of wound, it is believed with reasonable certainty SGT (b)(7)(c) had wounded the EC wearing the green top [Detainee 303281] at this point). 13) SGT (b)(7)(c) vehicle arrived to provide support.

4. (b)(7)(c) and LCDR (b)(7)(c) discussed the witness statements and vehicle movement diagrams and concluded the following regarding SSG NISLEY: 1) SSG NISELY was the truck commander for vehicle unit C223. 2) SSG NISELY exited his gun truck to secure the driver of the vehicle (Detainee 166663) that appeared to surrender. 3) SSG NISELY exited the vehicle and shots were heard from a location to the right of his gun truck. 4) This is the same area (sand dune and bushes) the EC KIA and EC WIA (Detainee 303281) where located behind. 5) According to SGT (b)(7)(c) SSG NISELY pivoted to his right and attempted to engage the EC's located on the right. 6) SGT (b)(7)(c) stated he heard four (4) gunshots from the right side of their gun truck. 7) SGT (b)(7)(c) stated SSG NISELY blurted out "God" and fell to the ground (RA and LCDR (b)(7)(c) concluded the only scenario of events that line up with the fatal wound suffered by SSG NISELY is the following: SSG NISELY pivoted to his right and attempted to engage the area where the enemy fire was coming from. SSG NISELY's left arm was raised in a

FOUO EXHIBIT 9-62

position consist with an individual holding an M4 at the ready position. The entrance wound of the bullet is located on the left upper arm and the bullet travels through the left humerus, left 4<sup>th</sup> rib, the left lung, the thoracic vertebra (T7), and resting in the soft tissue mid back. The driver (Detainee 166663) was unable to fire because he was covered by SGT (b)(7)(c) 240B. Even if the driver (Detainee 166663) was able to get off rounds from his AK-47, SSG NISELY was protected from rounds from the driver's AK-47 because SSG NISELY was behind the open armored gun truck door. The only conclusion that can be made until ballistic examination is conducted on the EC's weapons and the bullet recovered from SSG NISELY is either the EC KIA or EC WIA (detainee 303281) were firing in that direction and had the opportunity to kill SSG NISELY.) 8) SGT (b)(7)(c) turned the turret towards the muzzle flashes and began to fire approximately 75 rounds of his 240B weapon. 9) At this point, the driver of the vehicle (Detainee 166663) dropped to the ground and came back up with an unseen AK-47 and began to fire at SGT (b)(7)(c) gun truck. 10) SGT (b)(7)(c) immediately engaged the driver (Detainee 166663), severely wounding him, taking him out of the engagement. 11) SGT (b)(7)(c) reloaded his 240B and then attempted to re-engage the EC's off to the right of his gun truck, firing approximately 25 rounds before his 240B jammed. 12) SGT (b)(7)(c) attempted to clear the 240B for several seconds, until SGT (b)(7)(c) received several well placed shots into his turret. 13) SGT (b)(7)(c) then dropped down into the gun truck, came back up with his M4 and began to fire (single action mode) in the direction of the muzzle flashes, emptying the magazine of his weapon. SGT (b)(7)(c) again dropped down into the gun truck, re-loaded another magazine and then re-engaged the same area, firing another 15 rounds. 14) SGT (b)(7)(c) then moved his vehicle to check SSG NISELY (This is approximately 2:30 to 3:00 minutes after SSG NISELY was shot). SGT (b)(7)(c) looked at SSG NISELY and determined with SSG NISELY's face pale white and his lips blue SSG NISELY was KIA. 15) SGT (b)(7)(c) heard over the radio a call for assistance from SGT (b)(7)(c). 16) SGT (b)(7)(c) moves his gun truck to SGT (b)(7)(c) location.

5. Once SSG (b)(7)(c) arrives on scene and takes command of the situation the following is known: 1) SSG (b)(7)(c) M114 gun truck (C240) takes a position to cover SSG NISELY's body from EC driver (Detainee 166663). 2) SSG (b)(7)(c) gun truck begins to take fire from the location where the EC KIA is located. 3) SSG (b)(7)(c) orders SGT (b)(7)(c) to take a position with his gun truck (in an attempt to form a combat "L" formation) to gain a cross fire position on the EC KIA. 4) According to SSG (b)(7)(c) an ASV arrives on scene and SSG (b)(7)(c) orders the driver to run over the EC KIA that is continuing to fire. 5) The ASV misses the EC KIA the first time however is able to neutralize the EC KIA on the second attempt by running him over. 6) The EC KIA is killed instantly on scene. 7) At this time EC small arms fire ceases from each of the observed locations. 8) SSG (b)(7)(c) clears all EC's weapons and finds the EC KIA has a grenade near his right leg and another grenade in his hand, with the pin pulled.

RA COMMENT: This appears to be a coordinated attack, with a controlled dismount from the suspect vehicle, in order to set up an ambush maneuver with controlled cross fire. The quick responses of SGT (b)(7)(c), SGT (b)(7)(c), and SSG (b)(7)(c) to act in the face of hostile fire and continue the fight saved other US Soldiers.

INVESTIGATIVE ACTION

LAW ENFORCEMENT SENSITIVE

TYPE: INVESTIGATIVE ACTION - RECEIPT OF DOCUMENTATION  
EVIDENCE CUSTODY DOCUMENT - DETAINEE DNA TESTING

REPORTING AGENT: (b)(7)(C)

DATE: 18 OCT 06

0095 00 010017 1122

1. For Background, a United States Army (USA) combat logistics patrol (CLP) was traveling East to West on main supply route (MSR) MOBILE from Al Asad to Camp Korean Village (CKV) when a report of small arms fire (SAF) was received via military tactical system (MTS). The CLP was the forward sweep team (FST) for the main body. The FST was shadowing the convoy south of MSR MOBILE. As the FST was conducting its sweep, it discovered a white civilian pickup truck in a suspicious position observing MSR MOBILE in an active named area of interest (NAI W3). When the truck saw the FST it sped north towards MSR MOBILE. Normal escalation of force (EOF) procedures were used to stop the vehicle with no results. The pickup truck drove across the desert to MSR MOBILE and headed west. The CLP set a blocking position in an attempt to stop the truck. The pickup truck avoided the blocking position, turned South, and headed into the desert where three gun trucks (M1114) attempted to intercept. The truck stopped when it blew out the right front tire. As the vehicle stopped, two enemy combatants (EC) exited the right side of the truck and hid behind some bushes and rocks. One EC exited the left side of the truck, where he placed his weapon on the ground and made surrendering movements. The one gun truck moved into covering positions near the vehicle and immediately came under small arms fire (SAF) from the two passengers in a fighting position. SSG Scott NISLEY, the truck commander (TC), of 223 exited his vehicle to detainee the EC who had laid down his weapon when he was struck by SAF. The EC that originally laid down his weapon then took up a fighting position and started to return fire on the three gun trucks. SPC Kampha SOURIVONG, the gunner of vehicle 232 was struck by SAF. All gun trucks returned fire and an additional gun truck (M1117) arrived on scene. Troops in contact (TIC) was declared and MEDEVAC was called. The engagement lasted approximately 10 minutes. It appears that at least one ACF was run over by the armored security vehicle (ASV, M1117). Both service members (SM) hit with SAF were killed in action (KIA). Battle damage assessment (BDA) was established as one EC KIA and two EC wounded in action (WIA). MEDEVAC from CKV transported both the friendly KIAs and one EC WIA to Al Asad. An additional MEDEVAC from CKV transported the second EC WIA to Al Asad. The on-scene commander assessed the scene and determined the EC KIA had a pineapple grenade with the pin pulled located next to the body. The civilian vehicle also had suspicious wires hanging from the underside. The land owning unit approved the on-scene commander to destroy the explosives and clear the area. The commander reported the scene cleared, moved the CLP back to MSR MOBILE and linked up with an additional CLP for assistance in moving all the vehicles to CKV.

2. On 18OCT06, Reporting Agent (RA) transferred evidence item 3 (1-AK-47 serial #V 73356), item 4 (1-AK-47 serial # 2045279), item 11 (2- AK-47 clips with 32 X 7.62 rounds), and item 12 (2- AK-47 clips with 5 X 7.62 rounds) from Evidence /Property Custody Document to LCDR (b)(7)(C). These items were transferred to LCDR (b)(7)(C) to be transported to Rockville, MD, and have forensic testing conducted on the aforementioned items.

9. I, \_\_\_\_\_, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

أتصل النقيب (b)(7)(c) بالرديو يوم 30 سبتمبر 2006 فى حوالى الساعة 1400 محليا وأعلن أن هناك سياة تويوتا "بك اب" بيضاء لم تقف بعد أن طلب منها الوقوف وأنها متجهة جنوب الطريق (موبيل). كانت السيارة س- 232 التى بها العريف (b)(7)(c) (قائد) و الجندى (b)(7)(c) (سائق) والجندى (b)(7)(c) (رامى) , أول سيارة ترى السيارة التويوتا. تقدمت السيارة س 232 فى اتجاه الجنوب الشرقى حتى أصبحت فى مدى رؤية سيارتنا س-223, التى كان بها رئيس العرفاء (b)(7)(c) (قائد), الجندى (b)(7)(c) (سائق) و أنا. وعندما استدارت السيارة التويوتا وأتجهت جنوبا, أعطت السيارة س-232 الأمر أن تعجز السيارة التويوتا. استمرت السيارتان س-223 و س-232 فى متابعة السيارة التويوتا فى الاتجاه الجنوبى ما يقرب من 10 أو 11 كم وحتى توقفت السيارة.

فى هذه الاثناء أتصل العريف (b)(7)(c) بالرديو وقال أن سائق التويوتا خرج من السيارة وتقدم مرتجلا. وعندما شاهدت السائق, اعطيت الجندى (b)(7)(c) تعليمات بأن يحرك سيارتنا الى الشرق, لكى اقطع عليه الطريق. وعندما فعل هذا, وضع الشخص يديه فوق رأسه كما لو كان استسلم. و عند خروج رئيس العرفاء (b)(7)(c) من السيارة, اطلقت طلقات نارية على السيارة س - 232 و نزل الشخص الى الارض. وكان موقعنا بالتقريب 37S GS 17141 50644

الشخصان الذان خرجا من الجانب المخصص للركاب من السيارة وفقا الان أمام السيارة وبداء فى اطلاق النيران, ألتفت رئيس العرفاء (b)(7)(c) فى اتجاههما لتقييم الموقف. و أدت أنا السلاح الرئيسى للسيارة س-223 فى اتجاه الشخصان أيضا. وعندما ابتداءت س - 232 فى التراجع عن الراكبان و السيارة التويوتا, سمعت أجما لى أربعة طلقات. وقال رئيس العرفاء (b)(7)(c) بصوت مرتفع الله ثم سقط على الارض. و بعدها بدانت ألتقى طلقات من الشخصان. أطلقت نحوهما حوالى 75 طلقة عيار 7.62. وجثم أحدهم متخذا وضعا قتاليا وبداء يطلق النار نحوى, فحولت اتجاه السلاح الرئيسى نحوه وأطلقت حوالى 5-6 طلقات عيار 7.62 فأصيبته وأسقطته أرضا. و عندما ادت البرج فى اتجاه الشخصان مرة أخرى سمعت طلقتان تصدتما فى جانب البرج. أطلقت 19 طلقة أخرى عيار 7.62 حتى أنتهت الزخيرة من الحزام الاول ذو 100 طلقة. ومن ثم عمرت السلاح بحزام زخيرة ثانى (100 طلقة) عيار 7.62 وأطلقت حوالى 25 طلقة أخرى وتداخلت طلقتان(حشر). حاولت إخلاء السلاح ولكنى سمعت طلقتان تصدتما بالدرع امام السلاح, فاستعملت سلاحى الآخر م-4 وأطلقت 30 طلقة فى اتجاه الشخصان.

عند نزولى الى داخل السيارة لأخذ خزنة زخيرة أخرى م-4 قلت للجندى (b)(7)(c) أن يحرك سيارتنا س - 223 ويضعها بين رئيس العرفاء (b)(7)(c) و العدوان المقاتلان. و بعد أن عدل الجندى (b)(7)(c) وضع سيارتنا أطلقت حوالى 15 طلقة مرة واحدة. نزلت مرة أخرى الى داخل السيارة و نظرت من الشباك الجانبى على وضع رئيس العرفاء (b)(7)(c) وتيقنت أنه ذهب(مات).

فى هذا الوقت أبلغت بالرديو أن رئيس العرفاء (b)(7)(c) قد قتل أثناء العملية وطلبت من الجندى (b)(7)(c) أن يحرك السيارة الى بين س- 232 و العدوان المقاتلان. وصلت السيارة س- 240 بعد ان غيرنا موقع سيارتنا و كان بها رئيس العرفاء (b)(7)(c) (قائد) والعريف (b)(7)(c) (سائق) و الجندى (b)(7)(c) (رامى). أتخذت السيارة س- 240 موقع الساعة 10 و استقبلت نيران من العدو. هذا أعطانى فرصة لأصلاح السلاح الرئيسى و اعادة تعميمه.

اتصلت برئيس العرفاء (b)(7)(c) عن طريق الرديو و أعلمته أن سلاحى الان يعمل وأنا مستعدون للمناورة معه. الرقيب أول (b)(7)(c) أعطى تعليمات لسائقى (الجندى (b)(7)(c) للتحرك داخل الموقع. و بعد انتهائنا من الحركة وصلت السيارة س- 312 وكان بها العريف (b)(7)(c) (قائد), الجندى (b)(7)(c) (سائق) و الجندى (b)(7)(c) (رامى). تصدم السيارة احدى المقاتلين الاعداء ويبدو أنه قتل فى الحال. رئيس العرفاء (b)(7)(c) ينزع السلاح من كلا الجرحى الأعداء و أيضا من العدو القليل. احتوت الأسلحة التى أستعملها العدو على ثلاثة (3) أك- 47, أحدهم ذو خزنة أسطوانية والأخران لكل منهم خزنتان سعة كل منها 45 طلقة وكل خزنتان ملتصقتان معا ظهر لظهر.

9. I, \_\_\_\_\_, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

أستمرت تبعا "البك اب" كيلومترين أو ثلاثة. و في النهاية انفجر الأطار الأمامي ووقفت ا لسيارة عند أوبالقرب من الموقع 1714150644 س ج س 37. كانت سيارتنا أول من لحقت "البك اب" بعد أن وقفت. عند أقترابنا من "البك اب" خرج ثلاثة ذكور منها. أحدهم كان يرتدى ثوب أبيض خرج من باب السائق عرف فيما بعد بالرقم الدولي (166663). الذكران الآخران خرجا من باب الركاب، أحدهما يرتدى جكت ذات لون أخضر زيتوني خفيف (عرف فيما بعد بالرقم الدولي 303281) و الآخر يرتدى بدلة ذات لون بيج. كل الأشخاص الذين خرجوا من السيارة كانوا الآن على أقدامهم يركضون مبتعدين عن "البك اب". أعلنت هذه المعلومة عبر الرديو. و كنا مازلنا نقترب من "البك اب" الأبيض.

أنبطحا الشخصان ،الذان خرجا من باب الركاب، أرضا و أختبنا خلف بعض الأعشاب على بعد حوالي 25 متر غرب "البك اب" و على بعد ما يقرب من 125 متر أمام سيارتنا. الشخص الذي كان يرتدى ثوب أبيض (السائق) أستمر في الركض جنوبا. أعطيت الأمر للجندى (b)(7)(C) أن يطلق طلاقات تحذيره مستعملا (ب240) كمحاولة لدفعهم للاستسلام. وقلت للجندى سوريفونج من خلال السماعات " تأكد ان لا تصيهم. لا ترميهم". أدار الجندى (b)(7)(C) البرج في اتجاه الشخصان الذان خرجا من "البك اب" من جانب الركاب. رمى الجندى (b)(7)(C) 5 طلاقات تحذيرية. أصدمت الخمسة طلاقات التحذيره بموقع يبعد 75 متر غرب موقع الركاب. في هذا الوقت وقفت سيارتي على بعد 50 متر تقريبا امام موقع الراكبان من "البك اب" الأبيض.

تحول انتباهي عن الشخصان الذان خرجا من جانب الركاب من السيارة لانني نظرت الى الشخص الذي خرج من السيارة من جانب السائق. الشخص الذي خرج من "البك اب" من جانب السائق رفع يده كأنه يستسلم. و بينما أنا أنظر الية تبينت ان سيارتنا يرمى عليها حيث وجدت زجاج النافذة الاماميه متناثروسمعت صوت طلاقات تصدم بمقدمة السيارة. هذه الطلاقات أتت من الشخصان الذان خرجا من "البك اب" البيضاء من جاب الركاب. وعندما عودت النظر في اتجاههما رأيت عدة ومضات من بندقية الشخص الذي كان في أقصى اليمين، الذي كان يرتدى الجكت ذات اللون الاخضر الزيتوني.

أعطيت التعليمات للجندى (b)(7)(C) ان يرد النيران ولقد أطلق 5 طلاقات تقريبا قبل ان يتلقى طلقة في الرأس. عندما تحققت ان الجندى سوريفونج قد أصيب، أعطيت التعليمات للجندى (b)(7)(C) بأن يتراجع بالسيارة لإعادة التجميع. حتى نستطيع ان نعتنى بالجندى (b)(7)(C) وأن نعين شخص آخر ل ب 240. رجع الجندى (b)(7)(C) بالسيارة حوالي 100 متر ثم استدار ليواجه جانب السائق من سيارتنا الرجلان الذين كانا يرميانا (راكبا "البك اب"). رأيت سيارة عسكرية أخرى قريبة أثناء تراجعنا. وبعد ايقاف سيارتنا في الموقع المختار نزلت من السيارة وفتحت باب الركاب الخلفي. عند خروجي من سيارتنا فصل جهاز الا تصالات. فحصت وضع الجندى (b)(7)(C) وقلت بصوت مرتفع للجندى (b)(7)(C) أن يبقى في السيارة وأن يستعمل ب 240. وضعت ضمادة على راس الجندى (b)(7)(C) وربطتها بضمادة أخرى. وبعد هذا رجعت الى باب الركاب وأخذت م 4. واعدت اصال جهاز الاتصالات. أعلنت بالرديو ان لدى جندى قتل أثناء العملية. وبعد هذا ذهبت الى مقدمة السيارة ورميت النيران. رميت طلفتان في المنطقة المجاورة لمكان أختباء الرجلان. رأيت ومضات

7-70  
140

وسمعت صدمات طلاقاتهم. وعندما كانا يرميان كنت أفق خلف باب الركاب. وعندما كانت هناك فترة سکون كنت ارجع الى مقدمة السيارة و أرمى طلقتان. هذه الدورة تكررت عدة مرات. لقد رميت ما يقرب من 10-15 طلقة من ال م-4 التي كنت أستعملها لم اضرب الخزانة خلال طول زمن الرمي.

أتصل بي رئيس العرفاء (b)(7)(c) بالرديو (قائد السيارة رقم س- 240 ) وقال أنه يريد أن يناور سيارتي والسيارة س- 223 في تشكيل أكثر تكتيكا. فأعلمته أن أرمى سيارتي قد قتل، وأنى لا أستطيع استعمال ال 240 ب. فحرك رئيس العرفاء (b)(7)(c) سيارته و تبعته السيارة س- 223 . فأوقفت إطلاق م-4 حتى لا أصيب أى من س-240 أو س- 223 أثناء المناورة . كان الرجل الذى يرتدى البدلة البيج مازال يرمى بسلاحه.

0095 06 CID579 79 225

أتصلت بالفتيب (b)(7)(c) بالرديو وبدأت إبلاغه بموقف الاشتباك , واعطيته أيضا المعلومات اللازمة للاخلاء الطبي . سمعت رئيس العرفاء موبرلى يوجه س- 312 الى موقع الشخصان. الاشتباك أنتهى عندما صدمت س-312 الرجل ذو البدلة البيج.

فى الثانى من أكتوبر 2006 , يومان بعد الحادث المذكور سابقا , كانت وحدتى فى رحلة العودة على الطريق الرئيسى موبل. ووجدت الوحدة مفخخ . الجهاز المستعمل كان به سلك نحاسى معرى و انبوية داخلية يحتمل انها تستعمل لتغطية المفرقات الخ . هذا الجهاز كان موجودا تقريبا على بعد 2 كيلومتر من مكان الاشتباك مع السيارة "البك اب" البيضاء فى 30 من سبتمبر 2006 . توقفت القافلة ودعيت قوات الامن. وأنا كنت فى أحد السيارات التي وفرت الامن للمؤخرة. نحن نوفر طريق آمن للقافلة ووضعنا سياج حول المنطقة التي احتوت على المفخخ . و حضرت وحدة التخلص من المفرقات بعد حوالي 1.5 ساعة. وأ بطل الفنيون مفعول المفخخ واحضروا مكوناته لوحدهم لمد يد من الفحص. ولقد لاحظت ان بطارية موترسىكل وشريط كهرباء اسود مستعملان فى تركيب المفخخ. هذه المكونات تشابه المضبوطات التي وجدت فى "البك أب" الابيض فى 30 سبتمبر 2006 . أخذت عدة صور للمكونات التي أستعملت فى صنع المفخخ.

9. I, \_\_\_\_\_, WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH:

فى يوم 30 سبتمبر سنة 2006 وفى حوالى الساعة 1350 كانت سيارتنا تسير فى اتجاه الغرب على طريق يبعد كيلومتر جنوب الطريق الرئيسى موبيل . أنا كنت فى السيارة س- 240 ومعى العريف (b)(7)(c) (سانق) و الجندى (b)(7)(c) (رامى). أتصل النقيب (b)(7)(c) بالراديو من السيارة س- 06 وقال أن هناك سيارة تويوتا "بك اب" بيضاء تتجه جنوبا. وكانت السيارة متجهة شمالا من قبل و لكنها استدارت مسرعة الى الجنوب عندما شاهدت السيارة س- 06 على الطريق الرئيسى موبيل.

وصلت سيارتى س- 240 الى الموقع 37S GS 17141 50644 وعند وصولنا شاهدنا سيارة بك اب تويوتا بيضاء واقفة مواجه الجنوب. و السيارة س- 223 واقفة على بعد 150 متر تقريبا فى موقع الساعة 9 الى 10 للسيارة التويوتا والسيارة س- 232 على بعد 150-200 متر تقريبا وفى موقع الساعة 6 من نفس السيارة. اوقفنا السيارة س- 240 على بعد 200 متريسار التويوتا. استطعت أن أرى رئيس العرفاء (b)(7)(c) راقاد بلا حركة على بعد 100 الى 150 متر تقريبا من التويوتا فى موقع الساعة 9 الى 10 .

رأينا اثنين من المقاتلين (الذان فيما بعد عرفو انهما الراكبان الذان خرجا من السيارة) منظرحين على الارض على يمين تل صغير من الرمال على بعد 10-15 متر من السيارة و فى موقع الساعة 1230 من السيارة التويوتا. وبمواجهتنا للمقاتلون أصبح لنا رؤية واضحة لهم ولمواقعهم .

بدعنا نتلقى نيران من الراكبان, أحدهما عرف فيما بعد بالرقم الدولى: 3030281, و ضرب الشباك الأمامى (حاجز الريح) من جانب السائق. أعطيت التعليمات للرامى الجندى (b)(7)(c) بأن يرد النيران وفعل هذا مستخدما عيار 50. وعندما أستمروا المقاتل فى الرمي علينا, أضر الجندى (b)(7)(c) لأن ينزل الى أسفل لان الطلاقات كانت حسنة التصويب و قريبه. أجماليا تلقت سيارتنا ما يقرب من 15 الى 25 ضربة. نصح العريف شو بالرديو بأن يحتمى الرامى لان راميه الجندى (b)(7)(c) قد قتل. طلبت المساعدة بالرديو عند وصول السيارة س- 312, التى كان بها العريف (b)(7)(c) الجندى (b)(7)(c) والجندى (b)(7)(c) الى الموقع.

أتصلت بالعريف (b)(7)(c) وجهته أن يستعمل سيارته وأن يصدم المقاتل الذى مازال يطلق النيران على موقعنا حيث أن المقاتل الآخر حيد بأستعمال الرمي النارى. العريف (b)(7)(c) فعل ما قلته له وأنتهى تهديد هذا الشخص. وبعد هذا تقدمت سيارتى الى موقع الراكبان جوار التل الرملى. أحدهما الذى كان قد رمى وجرح, كان لديه أك - 47 وخزنتان بجواره مملوئتان وملصقتان معا ظهرا لظهرا بواسطة شريط لاصق. و المقاتل الآخر (الذى تقرر فى هذه الأثناء أنه قتل أثناء العملية ) الذى داهمته السيارة س- 312 كان لديه أك 47 فى يده و خزنة أسطوانية بجانبه. و أيضا كانت هناك قبلة يدويه, الى جوار رجله اليمنى, التى تقرر فيما بعد أن مسمار الامن منزوع منها, وايضا بطارية 9 فولت بين رجله.

أخذت كل الاسلحة, ال أك- 47 من المقاتلين فى منطقتى و تركت القبلة اليدويه. س- 312 أخذ السلاح من جوارا لسانق (أك- 47) الذى عرف فيما بعد بالرقم الدولى 166663 و أعطيته التعليمات ان يعطى الأسعفات الأولية للمقاتل الجريح. الأسعفات قد أعطت أيضا للمقاتل فى منطقتى الذى كان يتحرك ويتنفس بواسطة العريف (b)(7)(c) (س- 211), الذى وصل توا الى الموقع. قد عالج العريف (b)(7)(c) (ممرض) المقاتلان عند وصوله. و تم نقل المقتلان عن طريق الأخلاء الطبى بواسطة طائرة هليكوبتر.

Basis for Investigation: On 27 Jan 07, this office received a Request for Assistance (RFA) (0095-06-CID579-79225) from SA (b)(6), (b)(7)(C) Special Agent in Charge 280th MP DET CID Camp Bucca, APO AE 09375. The request required this office to obtain the Preliminary and Final Autopsy Report pertaining to Detainee Hazza Al DOULAIMEE, Internment Serial Number (ISN) (b)(6), (b)(7)(C) Camp Bucca, Iraq, who died while in US custody.

Agent's Comments: This office was unable to attend the autopsy of Detainee DOULAIMEE due to the fact that this office was not notified of the arrival of Detainee DOULAIMEE's remains to the Dover Port Mortuary, Dover Air Force Base, Dover, DE.

On 5 Feb 07, the Preliminary/Finals autopsy report, toxicology report, and certificate of death (overseas) was obtained. The same reflected that on 17 Oct 06, the autopsy of Detainee DOULAIMEE (ME # 06-0915), was conducted by Dr. (CDR) (b)(6), (b)(7)(C) Deputy Medical Examiner, OAFME, AFIP, 1413 Research Blvd, Bldg 102, Rockville, MD 20850. The Cause of death was listed as gunshot wound of the back complicated by pulmonary embolism and manner of death was listed as Homicide. Photographers from AFIP exposed digital photographs of the autopsy and prepared a compact disc (CD) containing all images exposed. A copy of the CD containing all images was obtained. (See CD, preliminary and final autopsy reports, and certificate of death for details).

STATUS: This action is closed within the files of the office as no additional investigative activity is anticipated. // LAST ENTRY //////////////////////////////////

**PRELIMINARY AUTOPSY EXAMINATION REPORT**

Name: (BTB) HAZZA AL DOULAIMEE, Ezaldin Awanad	Autopsy No.: (b)(6)
SSAN: (b)(6)	AFIP No.: Pending
Date of Birth: (BTB)(b)(6) 1982	Rank: Iraqi Civilian Detainee
Date of Death: (b)(6) 2006	Place of Death: Camp Bucca, Iraq
Date/Time of Autopsy: (b)(6) 2006 @ 1700	Place of Autopsy: BIAP Mortuary, Baghdad, Iraq
Date of Report: (b)(6) 2006	

**Circumstances of Death:** This 24-year-old Iraqi Civilian Detainee sustained a gunshot wound from U.S. Army soldiers during a firefight on 30 SEP 2006. He was resuscitated, received surgery and was stabilized prior to his transfer to Camp Bucca. He was ambulating with assistance and making progress when he was found unresponsive in his room, and could not be resuscitated.

**Authorization for Autopsy:** Office of the Armed Forces Medical Examiner, IAW 10 USC 1471.

**Identification:** Presumptive identification is established by a wrist identification band. A DNA sample is taken for profile purposes if an exemplar becomes available for positive identification.

**CAUSE OF DEATH: GUNSHOT WOUND OF THE BACK  
COMPLICATED BY PULMONARY EMBOLISM**

**MANNER OF DEATH: HOMICIDE**

FOR OFFICIAL USE ONLY and may be exempt from mandatory disclosure under FOIA. DoD 5400.7R, "DoD Freedom of Information Act Program", DoD Directive 5230.9, "Clearance of DoD Information for Public Release", and DoD Instruction 5230.29, "Security and Policy Review of DoD Information for Public Release" apply.

These findings are preliminary, and subject to modification pending further investigation and laboratory testing.

PRELIMINARY AUTOPSY DIAGNOSES

**I. Gunshot Wound of the Back**

**A. Entrance Wound**

1. Location: On the lower right back, 25-inches below the top of the head and 4-inches right of the posterior midline of the back in the anatomic position
2. Dimensions: A ovoid entrance wound measuring  $\frac{1}{4}$  x  $\frac{3}{16}$ -inch with eccentric marginal abrasion up to  $\frac{1}{4}$ -inch on the lateral border

**B. Wound Path:** Skin and subcutaneous tissue of the lower right back, muscles of the lower right back, the spinous process of the 4<sup>th</sup> lumbar vertebra(fractured), muscles of the lower left back, subcutaneous tissue and skin of the upper left buttock

**C. Exit Wound**

1. Location: On the upper left buttock, 29-inches below the top of the head, 38  $\frac{1}{2}$ -inches above the heel and 7-inches left of the posterior midline of the back in the anatomic position
2. Dimensions: A ovoid defect measuring 3  $\frac{1}{4}$  x 2  $\frac{1}{2}$ -inches, consistent with a debrided exit wound; packing material is present surrounding the exit wound

**D. Recovered:** No bullet or bullet fragments are recovered; multiple radio-opaque metallic fragments of no evidentiary value are observed radiographically

**E. Direction:** Slightly back to front, right to left and slightly upward

**F. Associated Injuries**

1. A non-obstructive embolus is located at the bifurcation of the right and left pulmonary arteries ("saddle embolus"); multiple small obstructive emboli are noted in the smaller branches of the right and left pulmonary arteries
2. Deep venous thromboses in the deep veins of the right and left legs
3. Bleeding into the wound tract

**II. Pre-Existing Conditions**

No significant natural diseases are identified, within the limitations of this examination.

**III. Evidence of Medical Therapy**

- A. A closed, 9-inch surgical incision is on the abdominal midline
- B. A medical dressing and packing are present on the lower right back
- C. A vacuum drain and a 3-inch closed surgical incision is on the lower left back
- D. Needle stick marks are on the right subclavian region

**IV. Post-Mortem Changes**

- A. Rigor is passing and equal in all extremities
- B. Livor is posterior and fixed except in areas exposed to pressure
- C. Marbling is present in areas of livor

~~FOR OFFICIAL USE ONLY~~

~~FOR OFFICIAL USE ONLY~~

EXHIBIT

13 151

**V. Identifying Body Marks**

- A. Tattoo on the web space between the first and second digit of the left hand (black heart, 3/8 x 1/4-inch)
- B. Multiple irregular scars on the right back in a 3 1/2 x 1/4-inch area and ranging in size from punctate to 1/2 x 1/4-inch

**VI. There is no evidence of physical abuse**

**VII. Toxicology is pending**

**ADDITIONAL PROCEDURES/REMARKS**

- Documentary photographs are taken by AFMES staff photographers
- Specimens retained for toxicologic testing and/or DNA identification are: heart blood, vitreous fluid, gastric contents, urine, bile, spleen, liver, lung, kidney, brain, adipose tissue, and psoas muscle
- Full body radiographs are obtained and demonstrate the skeletal trauma described above and the presence of multiple small metallic foreign bodies surrounding the exit wound
- Projectiles are not recovered
- Selected portions of organs are retained in formalin, without preparation of histological slides
- The dissected organs are forwarded with the body
- Personal effects are released to the mortuary affairs representatives
