Folks,

Just FYI, I pulled together the below and attached for the J2 today, and thought I would forward along. The detainee information is pulled from the JTF-GTMO JDIMS site. The bios should not be viewed as comprehensive.

(b)(2),(b)(6) Assessment: Deaths will cause additional and renewed calls for closure of JTF-GTMO from human rights groups and many GWOT partners. It is not assessed they will trigger any specific terrorist attacks, however they will aid in long-term al-Qaida/terrorist recruitment and fund raising, and may be cited as the inspiration of near-term attacks which were already planned. It may cause spontaneous acts of anti-U.S. violence.
