

DATE	SYMPTOMS, DIAGNOSIS, TREATMENT, TREATING ORGANIZATION (S/O on each entry)
25 Oct 03	<p>20-40 y/o ♂ refuses to eat or drink for unknown time  pt. is extremely combative</p>
P-82	
BP-130/90	
SpO <sub>2</sub> -97	<p>A- skin turgor skin  A- dehydration  P- fluid replacement via IV 1K LR</p>
21 Nov 03	<p>Pt was eating large amounts of food, then would induce vomiting.  This has been happening for ~ 2 wks. Before this time pt was on a hunger strike. When pt was removed from a cell he was combative &amp; proceeded to swing at the MPs. Pt had to be restrained for safety of soldiers &amp; his own personal safety.  Pt presents in a weakened state &amp; poor skin turgor. Pt is alert but delusional. States Saddam will return to kill all of us. Also states he will kill all of us when he figures how to rise the big gun.  Pt is dehydrated &amp; malnourished.  Fluid replacement to maintain hydration. Pt received 2L of 1K via 20ga IV started in @ Arm. Pt needs a psych eval.</p>
