 Subject: FW: DETAINEE OPERATIONS ASSESSMENT/ASSISTANCE TEAM (U)

Classification: UNCLASSIFIED
 Caveats: FOUO

Team, want to make sure you all are aware of the following message and CFLCC IG involvement. The message discusses a recurring Detainee Operations Assessment/Assistance team that is being formed and will visit detainee related operations in both Afghanistan and Iraq. A planned itinerary is listed within the message below.

The upcoming team will be HQDA led and supported by assets from CFLCC. The timelines/interval for follow-on visits is still under discussion, but will most likely be around the 120 day interval. There also appears to be further discussions on who will lead subsequent visits (HQDA or CFLCC). Accordingly, my intent is to supplement/augment the team and DAIG rep (assumed to be Mr [REDACTED]) with two of the CFLCC IGs from Atlanta (MAJ [REDACTED] and SFC [REDACTED]).

It is unknown if any IG support outside of the DA and CFLCC IG reps accompanying the team will be needed. I would ask if you can provide us a POC in your areas who can provide MAJ Thrash any history you have with respect to the subject area.

The final note of interest is that the "owner" of any associated reports that will come from this effort appears to still be a working issue. My assumption is the team will break out issues and actions based on who is in the best position to influence follow-on requirements, and those portions of the report will belong to them.

Let me know if you have questions. At present I do not have much more info than I have presented here other than C-2/G-2 involvement in still a working issues.
