9. What is the OIC/NCOICs overall role in detainee operation process? What involvement do the OIC/NCOICs have in the interrogation process of detainee operations? Do the OIC/NCOICs provide a means to validate detainee's information? Do the OIC/NCOICs provide input as to the disposition of the detainee? (1.1, 1.2, 1.6, 4.1) (FM 34-52 page 2-12 Battalion S2 Controls Interrogation employed for temporary period at battalion level receives PIR, IR, and SIR from the supported battalion S2. This will ensure interrogators are fully oriented to the battalion's collection mission. In other instances, interrogators may be placed at brigade in an "on call" status, from which they can proceed to any of the subordinate battalions as circumstances warrant. Upon completion of a low-level, immediate-type interrogation, they can return to brigade and again become available for immediate employment. Commanders and S2s below brigade level who are unable to obtain interrogation support from higher echelons should include provisions in unit and staff standing operating procedures (SOPs) for the "tactical questioning" (not interrogation) of EPWs or detainees. They should identify assigned personnel for language capability. Interrogation personnel should provide training in the area of tactical questioning to designated S2 personnel. The potential for abuse of the EPW is greatest at the initial capture and tactical questioning phase. With the excitement and stress of the battlefield, it may become easy for unskilled personnel to resort to illegal techniques to elicit critical information. Instruction must stress the importance of the proper treatment of EPWs. Emphasize that the abuse of an EPW at the initial stage of contact often renders future interrogation futile. If you are engaged in, or supervising the tactical questioning of EPWs, you are responsible for

ensuring that EPWs are treated in accordance with the requirement of international and US law. Any tactical questioning conducted must be in response to the supported commander's PIR.)

10. Where are your screening sites located (where detainees are interrogated and screened)? Are these facilities adequate for your needs? Do you have enough interrogators for your operation needs? What are your personnel shortfalls? (1.1, 1.2, 1.7, 1.8) Local SOPs (FM 34-52 Intelligence Interrogation, page 2-9 At brigade level, EPWs can be detained in open fields, courtyards, gardens, jungle clearings, or similar sites if they are hidden from enemy observation. If necessary, these areas can be enclosed with barbed wire far more efficient EPW handling. Because EPWs seldom remain at a forward collecting point for more than a few hours, EPWs are not usually kept in a building or other shelter. Interrogation facilities at battalion and brigade are kept to a minimum. 2-10 Compared to brigade facilities, division interrogator facilities are expanded. When practicable, interrogations at division should be conducted in improvised interrogation rooms in buildings adjacent to the division collecting point. If possible, separate rooms should be available to permit several interrogations at once. 2-22) The EAC interrogation facility will normally be designated as the Theater Interrogation Facility (TIF). A TIF is staffed by US Army interrogators and analysts, with support from Air Force, Navy, Marine Corps, and other US national agencies as required. In a multinational operation, a combined interrogation facility (CIF) may be established with allied interrogation augmentation.)

Are PIRs used as a basis for the identification of detainees of interest, personality lists used, etc? (1.1, 1.2, 2.1) (FM 34-52 Intelligence Interrogation, page 3-2) If time permits, screeners should question holding area personnel about the EPWs and detainees. Since these personnel are in almost constant contact with the EPWs and detainees, their descriptions of specific ones can help identify sources who might answer the supported commander's PIR and IR. Screeners should identify and note those EPWs and detainees whose appearance and behavior indicate they are willing to cooperate immediately or are unlikely to cooperate ever. Unless time is critically short, screeners should—personally observe the EPWs and detainees. Pay attention to rank and branch of service insignias, and condition of uniform and equipment. Carefully observe the behavior demonstrated by other EPWs and detainees. Look for things like attempts to talk to the guards, intentional placement in the wrong segregation group, or any overt signs of nervousness, anxiety, or fright. 31. What do you perceive as the mission of your unit? Describe the importance of your role in that mission. (Insight to the Soldier's understanding and attitude concerning unit mission and their role) AR 600-20 Command Policy 2-1. Chain of Command a. The chain of command assists commanders at all levels to achieve their primary function of accomplishing the unit's assigned mission while caring for personnel and property in their charge. A simple and direct chain of command facilitates the transmittal of orders from the highest to the lowest levels in a minimum of time and with the least chance of misinterpretation. b. Commanders delegate sufficient authority to soldiers in the chain of command to accomplish their assigned duties, and commanders may hold these soldiers responsible for their actions. 32. Describe your working environment and living conditions since being in Theater. (Identify physical and psychological impact on Soldier's attitude). (1.2, 1.3, 1.4, 1.5, 1.6, 1.7) FM 10-1, Ch. 7, para. 3, "Tactical Vision. A primary QMC focus at the tactical level will continue to be on sustainment of the soldier. Each company-sized unit will have two cooks and a small, state-of-the-art field kitchen. This provides a limited capability to prepare or heat meals and supplements. An improved containerized capability for providing responsive laundry and shower support well forward on the battlefield must be developed. Frontline soldiers require brief respites from the rigors associated with combat. A facility complex (Force Provider) will be available in which they can shower, clean their clothes, eat hot meals, and rest in an environmentally controlled shelter.

Does the Soldier feel supported? Do Soldiers feel the Command cares? Are they getting clear guidance?) 1 AR 600-20 • 13 May 2002 1-5. Command, b. Elements of command. c. The commander is responsible for establishing leadership climate of the unit and developing disciplined and cohesive units. This sets the parameters within which command will be exercised and, therefore, sets the tone for social and duty relationships within the command. (1) Commanders and other leaders committed to the professional Army ethic promote a positive environment. If leaders show loyalty to their soldiers, the Army, and the Nation, they earn the loyalty of their soldiers. If leaders consider their soldiers' needs and care for their well-being, and if they demonstrate genuine concern, these leaders build a positive command climate. (2) Duty is obedient and disciplined performance. Soldiers with a sense of duty accomplish tasks given them, seize opportunities for self-improvement, and accept responsibility from their superiors. Soldiers, leader and led alike, work together to accomplish the mission rather than feed their self-interest.
