Detense's Objection to Article 32(b) Investigating Officer's Report. dtd 27 April 2004

2. After reviewing the defenses objection, associated materials, and my findings as written on 17 April 2004, my recommendations remain unchanged. In order to be thorough, however, and thereby presenting a fair and unbiased presentation of the findings, clarification of the context of this objection is also required.

3. The text as it appears in TAB B – Elements of Article 118.

(3) Analysis the is the belief of this investigating officer that the shooting of a successfully setured (read: flex-cuffed) and unarmed "non-combatant" be an unlawful, thus one justifying the charges of marder. The burden of proof remains with the Defense to prove the shooting was justified or lawful, which could in turn, if successful, merit a charge in the charges brought forth. This proof was not sufficient.

4. Explanation and clarification.

a. While the defense is correct in noting that the concept of "burden of proof" remains solely and wholly with the government, it was an error in verbiage rather than an error in the logic used to support the recommendations.

b The intent of this analysis was to state that a preponderance of the evidence in the case supports the illegality of the killing, and that the defense presented no evidence to believe the evidence. The government, however, met its requirement for "burden of proof".

• Recommendation: The IO agrees with the Delenke in that the use of the phrase "Burden of Colf was an incorrect application of established legal standards; however, when applying the incorrect and ards to the analysis, the findings go anchanged. No confusion existed as to my role

MEMORANDUM FOR COL **Beneficial** Commander, Headquarters, 2nd Brigade Combat Team, 25th Infantry Division (Light), Kirkuk, Iraq, APO AE 09347-9998

SUBJECT: Supplemental Objection to Article 32(b) Investigating Officer's Report – PFC Edward L. Richmond, Jr., **Formula 19** Headquarters and Headquarters Company, 1st Battalion, 27th Infantry Regiment, 25th Infantry Division (Light), FOB Warrior, Kirkuk, Iraq, APO AE 09347-9998

1. This supplemental objection to the Article 32(b) Investigating Officer's Report in the abovereferenced case is submitted pursuant to Rule for Courts-Martial 405(j)(4). Based upon the following errors in the investigation and the defense objection submitted on 27 April 2004, the defense requests that a new Investigating Officer (IO) and legal advisor be appointed and a new Article 32(b) hearing be held in order to preserve the rights of PFC Richmond.

2. On 28 April 2004, defense counsel reviewed the original Criminal Investigation Division (CID) case file regarding the 28 February 2004 shooting by PFC Richmond. A CID Form 28-R maintained in the original case file notes the following: b(b) - 1, b(-1)(c) - 1 b(b) - 2, b(-2)(c) - 2

3. CPT is a second of the anticipating officer. At the time CPT is a provided legal advice to MAJ advice to MAJ Anderson on the day of the Article 32 and in the days leading up to the Article 32, he believed that the SJA was seeking to Court Martial PFC Richmond. Further, as indicated in this CID notation, CPT advice had at least one discussion about the case with the Chief of Military Justice for the 1st Infantry Division.

4. The IO is, per se, unable "to make a thorough and impartial investigation into the truth of the allegations" against PFC Richmond IAW DA Pam. 27-17, para. 1-1, when being advised by an officer that has discussed the case with the Chief of Military Justice. This belief is further bolstered when documents show that the legal advisor told CID that the SJA is seeking to court-martial PFC Richmond.

SUBJECT: Objection to Article 32(b) Investigating Officer's Report – PFC Edward L. Richmond, Jr., Headquarters and Headquarters Company, 1st Battalion, 27th Infantry Regiment, 25th Infantry Division (Light), FOB Warrior, Kirkuk, Iraq, APO AE 09347-9998 $\Im(\mathfrak{b}) - 5 - \mathfrak{b}(\mathcal{F}) - 5$

1. This objection to the Article 32(b) Investigating Officer's Report in the above-referenced case is submitted pursuant to Rule for Courts-Martial 405(j)(4). Based upon the following errors in the investigation, the defense requests that a new Investigating Officer (IO) be appointed and a new Article 32(b) hearing be held in order to preserve the rights of PFC Richmond.

2. On 5 April 2004, CPT **Construction**, preferred one charge of murder, in violation of Article 118 of the UCMJ against PFC Edward L. Richmond, Jr. The defense makes the following objections to the Article 32 investigation that was conducted on 17 April 2004 and served on defense counsel on 23 April 2004.

a. The IO applied an improper burden of proof.

DA Pam. 27-17, para. 1-1, delineates several functions of the Article 32(b) investigation. Specifically, the IO is tasked:

(i) To make a thorough and impartial investigation into the truth of the allegations;

(ii) To consider the correctness and the form of the charges; and

(iii) To make recommendations as to the disposition of the charges in the interest of justice and discipline.

In the referenced investigation, the IO misapplied a critical legal standard. In his findings and recommendations, the IO discusses the elements of the charged offense. However, the IO clearly misunderstands the law when he states at Tab B, para. 2c(3) of his findings, that the "burden of proof remains with the Defense to prove the shooting was justified or lawful." This is clearly erroneous. The burden of proof of each and every element of the charged offense belongs to the government and does not shift to the defense. The government must establish that the shooting was unlawful. PFC Richmond is entitled to present a defense to any of the elements; however, the burden of proof is not on the defense to establish that the shooting was lawful or justified. In so clearly misstating established law, the IO displays an actual bias against the

accused. Alternatively, the IO was confused as to his function and role at the Article 32 hearing and a new hearing with a new IO must be conducted to preserve the rights of the accused.

b. PFC Richmond is prejudiced by the IO's application of the erroneous legal standard.

The IO's error, as discussed in paragraph 2a of this memorandum, is prejudicial to PFC Richmond. In his findings and recommendations, the IO states at Tab B, para. 2c(3), that, "the "burden of proof remains with the Defense to prove the shooting was justified or lawful, *which could in turn, if successful, merit a change in the charges brought forth.*" (emphasis added) The IO acknowledges that essentially, a proper application of the law and a correct understanding of the burden of proof may have resulted in a different recommendation from the IO. Ultimately, this IO's recommendation will be considered by you and by the General Court-Martial Convening Authority. PFC Richmond is entitled to a new hearing with an IO that may recommend a lower disposition of the charges based on a correct understanding of the elemental burden of proof.

1. The Defense requests that the following witnesses be produced at the Article 32 investigative hearing scheduled for 16 April 2004, IAW with Rules for Courts-Martial (R.C.M.) 405(f)(9) and 405(g):

2. If the Government contends that any Defense requested witness is not reasonably available under R.C.M. 405(g), the Defense requests that you make a determination under R.C.M. 405(g)(2). Your determination should be made after the Government explains *on the record* the specific efforts made to locate and contact the witnesses and after consultation with your legal advisor as to whether or not the witness is reasonably available. If deemed reasonably unavailable, the Defense requests that a specific factual reason be stated on the record.

3. The Defense requests that the following documents and evidence be produced to the Defense at the Article 32 hearing, IAW with R.C.M. 405(f)(10) and 405(g)(1)(B):

a. All copies of CID reports (including 28s), military police reports, or any other reports made by a law enforcement agency relevant to this investigation to include the Agent Activity Reports and the Agent Activity Summaries. b. Any and all ROE/RUF in effect for 1/27 IN BN from February 2004 through the present;

c. Any and all OPORDs that pertain to the 27-28 Feb 04 mission to include a copy of the actual ROE/RUF card then in effect (Defense counsel holds an "interim TS" clearance);

f. A copy of any parallel AR 15-6 or Line of Duty Investigations concerning the charged offense (to include, any documents maintained by the AR 15-6 Officer to include his or her appointment memorandum);

i. The Defense reserves the right to ask for additional evidence, as it becomes known during the Article 32 investigation.

4. If the Government contends that any Defense requested evidence relevant to this case is not reasonably available under R.C.M. 405(g), the Defense requests that you make a determination under R.C.M 405(g)(2). This determination should be made after the Government counsel explains on the record the specific efforts made to locate and produce the evidence and consultation with your legal advisor as to whether the evidence is reasonably available.

5. Unless provided with copies of the referenced documents prior to the start of the Article 32 investigation, the Defense objects to consideration by the IO of the following evidence:

PFC Richmond's ERB CID Report of Investigation

6. The Defense expresses the following additional concerns regarding the Article 32 pretrial investigation in this case:

a. <u>Receipt of Legal Advice</u>. The defense specifically requests that the IO make all determinations on questions of law after referring to R.C.M. 405, DA Pam 27-17, and based on advice from your legal advisor. As per DA Pam 27-17, para.1-2e, PFC Richmond and defense counsel are entitled to be informed of any legal advice received by the IO and the opportunity to reply to that legal advice. The Defense proposes that both parties be present during receipt of legal advice, that you restate the legal advice on the record, and that both parties be given the opportunity to respond to that advice before you make a determination on a question of law.

b. <u>Marking Evidence</u>. For record purposes, the Defense requests that you have the reporter mark each piece of evidence received and catalog the evidence. Please do not admit the "packet" as part of the record. This will prevent the parties and you from determining which evidence has been objected to and ruled upon.

SUBJECT: Article 32 Request for Witnesses and Production of Evidence – United States v. PFC Edward L. Richmond, Jr.

c. <u>Delivery of Report to Defense Counsel</u>. The Defense requests that the convening authority direct delivery of your report to the Defense Counsel instead of PFC Richmond. See, R.C.M. 405(j)(3). To effect this delivery, I ask that you state my request in your report, and request that the report be delivered with a personal certification and date annotation so that the Defense may comment on the report within five (5) days allocated UP R.C.M. 405(j)(4). Defense counsel and PFC Richmond are located in different physical jurisdictions and service upon PFC Richmond can not be considered the same as service on Defense Counsel.

Alternatively, and IAW R.C.M. 405(h) and its applicable discussion, the Defense requests that each witness swear to the truth of his or her testimony, after it is reduced to writing.

MEMORANDUM FOR Commander, 2nd Brigade Combat Team, 25th Infantry Division (Light), Kirkuk, Iraq, APO AE 09347-9998

SUBJECT: Article 32 Record of Findings and Recommendation – United States v. PFC Edward L. Richmond, Jr.

1. After conducting a thorough investigation and examination of all the available evidence in the case of *United States v. PFC Edward L. Richmond*, I recommend that the case be tried under General Courts Martial for violation of Article 118 of the Uniform Code of Military Justice.

2. Background (TAB A - Chronology). On or about 2200 hours on 27 Feb 04, SGT received the OPORD and ROE briefings for the next day's operation. He proceeded to brief his squad on the mission and ROE for 28 Feb 04, PFC Richmond was present. By 0500 hours, the blocking positions were in place and at 0530 hours the raid commenced. At 0730 hours, SGT received orders, via FM radio, to detain all Iraqi males attempting to enter or leave the village. At 0800 hours, the farmer was spotted tending cattle in the adjacent field. At approximately 0830 hours, SGT placed the accused in his security position, conducted an initial search for large weapons, and placed the Iraqi in flex-cuffs. Upon completion, SGT patted the Iraqi on the shoulder, told the accused "he is good, let's go", turned the detainee and began to walk back. The accused then shot mathematication in the back of the head at approximately 0845.

2. Summary. The IO's recommendation is based on the following, and supported by the referenced exhibits (marked and submitted as evidence in this investigation).

a. Government Position. The Manual for Courts Martial, 2002 Edition, contains four elements in defining Article 118 - Murder, in which the actions of the accused on 28 February 2004, met all criteria for the charge of Unpremeditated Murder. The summarized elements, and their application to this case, are as follows: $b_{1}(c) - 4; \quad b_{1}(c) - 4$

(1) Death.
(2) Result of act or omission by the accused.

gunshot from PFC Richmond's weapon. The shot was admittedly fired by the accused and as a direct result of actions taken by the accused.

(3) Killing was unlawful. (3) was killed after having been searched, flex-cuffed, and while in the process of being escorted from the area (TAB.B, para 2c(1)-(3)).

016660

SUBJECT: Article 32 Record of Findings and Recommendation - United States v. PFC Edward L. Richmond, Jr.

(4) Intent to kill. By his own admission, the accused stated (sworn statement, 1 Mar 04), that he intended to kill the victim when he fired his weapon (TAB B, para 2d).

b. Defense Position. b(6) - 4; b(7)(c) - 4

(1) The defense contends that the unit's (TF 1-27 IN) recent changes to the Rules of Engagement caused confusion, and a void existed in the decision making process for the use of deadly force. The defense states that the accused was attempting to prevent harm from coming to SGT **Control**, and deadly force had been previously authorized in such cases (TAB C – Summary and Analysis of Defense). The defense recommended dismissal of Article 118 - Murder charges.

(2) While this may have been the case, it was by omission that the accused did not acknowledge the fact that the victim was in fact secured and ready to be moved, thus not acting in a hostile capacity, nor was the victim ever proven to be a combatant. Moreover, no evidence existed for the victim's consideration thereof.

(3) The accused did not have adequate situational awareness that would have prevented any reasonable soldier from acting in kind. The accused was in an adequate position to observe SGT control of the victim for the move, and subsequent turning thereof, yet failed to acknowledge these facts. This omission led to the accused mistaking the movements of the unarmed victim, as an assault. The focus of the accused was narrow and pinpointed on the sight picture through his scope.

3. Further actions taken by the IO. A verbatim testimony was requested by the Defense. The testimony on 17 April 2004 was captured via audio recording device, summarized, and subsequently reviewed/validated by the Investigating Officer. The transcript is enclosed as TAB D in the IO's investigation.

MEMORANDUM FOR RECORD

SUBJECT: TAB B – Discussion of the Elements of Murder

1. The Manual for Courts Martial, Article 118 – Murder, lists the following elements in determining the relevant nature of the charge:

a. That a certain named or described person is dead

b. That the death resulted from the act or omission of the accused

c. That the killing was unlawful

d. That, at the time of the killing, the accused had a premeditated design to kill

2. Discussion of Elements.

b(6) - 4; b(7)(0) - 4ct killed by a (GII) a. Death. It is certain that the victim, , was in fact killed by a gunshot to the back of the head. This is uncontested.

b. Result. That the death was in fact a direct result of the accused firing the fatal shot that killed **Sector and the sector a** by the accused, in that the accused failed to maintain adequate situational awareness.

(1) The accused failed to observe the flex-cuffs. All the statements by the accused confirm that he made no attempt to look beyond the sight picture in his scope. The statements of the accused lead me to believe that he was totally focused on his sight picture, and only that.

testimony, and all his statements, describes his final actions as (2) SGT "patting the male on the shoulder", looking at the accused, and telling the accused "he's good, let's go", at which point he turned the victim and began to escort him back to the vehicle. The victim, due to the rough ground, was not on stable footing, and was gaining his balance from SGT Had the accused acknowledged SGT instructions, or had he observed more than the victim's head through the scope (accused statement on 28 Feb described having only one eye open), then he would have been more aware of his surroundings, and the actions being taken by SGT and the subsequent nature of the victim's movements.

(3) The follow-up statement from the accused on 29 Mar 04, describes how all the stress, adrenaline, and pressure "probably" inhibited his ability to properly process, or perceive, all the events. While this would not justify his actions, they would lead to the conclusion that an omission had taken place. His testimony on 17 Apr 04, would lead me to believe no different.

c. Unlawful Killing. The whole case comes down to this particular element. The positions of both parties with regards to the lawfulness of this killing are as follows:

016664

ACLU-RDI 1746 p.22

(1) The Defense. It is the position of the defense that the killing, while unfortunate, was justifiable IAW RCM 916(c) in that the accused was performing his official duties in a combat zone. In that referring to the victim as an enemy combatant, the killing could be justified. The defense also contends that a similar event transpired the previous week (an incident where after an IED exploded, SGT **Conservation**) engaged and killed an unarmed Iraqi female) whereby no charges were filed. While the facts of that case were not considered in this investigation, the defense's position was that it was deemed a justifiable shooting then, just as this ought to be.

(2) The Government. The victim had been searched, and successfully flexcuffed. The victim was then turned in such a way as to reveal the detainees hands secured behind him, whether or not the cuffs were concealed by loose clothing or a long flowing scarf. SGT manual had control of the Iraqi male. The government's position was that if the detainee had been an American with all situational facts remaining constant, the shooter would have been charged with murder as well. The Iraqi was a noncombatant in a combat zone, but the fact that he was an Iraqi should not change the matter. The thoughts and actions associated with applying the ROE (in self-defense or defense of others vis a vis Use of Deadly Force) requires common sense, and must be reasonable.

(3) Analysis. It is the belief of this investigating officer, that the shooting of a successfully secured (read: flex-cuffed) and unarmed "non-combatant" be an unlawful, thus one justifying the charges of murder. The burden of proof remains with the Defense to prove the shooting was justified or lawful, which could in turn, if successful, merit a change in the charges brought forth. This proof was not sufficient.

d. Premeditated (or unpremeditated) Intent to Kill.

(1) It is the position of the government that the accused killed the victim with unpremeditated intent. By admission, the accused intended to kill the victim (sworn statement by accused, 1 Mar 04) when he fired his weapon. While the Manual for Courts Martial states (para 43.c.(2)(a)) that premeditation does not need to be entertained for any length of time, just that the intent to kill be fixed and put into execution prior to the act.

(2) The accused did make a conscious decision when he move his selector switch from safe to fire, aimed his weapon at the victims head and fired his weapon. His intent to kill was clear and stated in his sworn statements. His intent to kill was uncontested.

(3) It is not the intent of this investigation to put forth the conclusion that the accused acted out of premeditation, only that the charge of unpremeditated murder now be considered in the specification for the charge of murder.

MEMORANDUM FOR RECORD

SUBJECT: TAB C – Discussion of the Defense

1. The basis for the Defense is three-fold, in that 1) the Rules of Engagement for this operation underwent several modifications prior to the operation in question, causing uncertainty as to which to follow, thus leaving it to the individual to make the judgment call and take responsibility, 2) the killing was justified under RCM 916(c), thus not a case of murder, and 3) "looking through the eyes of the accused", given his state of mind and inexperience, how would anyone else have reacted to a perceived assault on SGT

Each of these positions will now be addressed.

2. ROE.

b(6)-4; b(7)(C)-4 (a11)

a. Discussion. The testimony of all witnesses does show that the unit's ROE was modified on at least two occasions prior to the operation in question. The first stating that all targets would be positively identified prior to engaging and use best judgment (by the 1-27 IN BN CDR), and the second from CPT (1000 COP) (on 27 Feb 04 during the ROE brief, ~2200 hours) stating that all Iraqis attempting to flee the village were to be engaged.

b. Analysis. While the confusion may have existed, each soldier in their testimony (see Verbatim Testimony for SPC (1996), PFC (1996), and SGT (1996)) understood that confirmation of the targets and permission to fire (gained by their respective Squad Leaders) was a prerequisite to engaging. However, the ROE is designed to protect non-combatants as much as it is to protect the Coalition Forces. Any reasonable person could not be expected to consider an unarmed and "cuffed" individual as an immediate threat requiring the application of deadly force, whether combatant or otherwise designated.

c. Conclusion. While confusion may have existed over the ROE guidance from the Battalion Commander and the adjusted guidance received from the Company Commander, it may have even contributed to the confusion of the soldiers on this mission, but it does not override the requirement for common sense in the reasonable application of deadly force.

3. Manual for Courts Martial, RCM 916(c).

a. Discussion. RCM 916(c) defines Justification (under Defenses) as: "A death, injury, or other act caused or done in the proper performance of a legal duty is justified and not unlawful." The defense portends that this shooting, while unfortunate and the responsibility of the accused, was acting within the stated limits of proper performance of a legal duty described in referenced RCM. It states that "the killing of an enemy combatant in battle is justified." Thus the defense attempts to make the case that the shooting was not unlawful.

b. Analysis. While the operation was in fact a legal duty, the detention of the Iraqi male during a tactical operation in no way immediately classifies him as an enemy combatant. Further analysis would call into question the definition of "proper performance". It appears that the actions of the accused does not support that definition,

016666

ACLU-RDI 1746 p.24

in that he was not cognizant of the actions taking place within his immediate view. If he had been properly performing his duties, then he would have observed the "cuffing" of the detainee, and subsequent moving of said individual under the direct and positive control of SGT

c. Conclusion. In this case, RCM 916(c) does not seem to apply to the killing of in that 1) he was not an enemy combatant, and 2) he was under the direct and positive control of SGT manual, unarmed, and "cuffed" thus posing no immediate threat that would merit the application of deadly force; therefore the proper (and most reasonable) performance of this legal duty would not be to shoot and kill of said individual, but rather to subdue him had he in fact been attempting to escape or assault SGT In testimony by the accused, SGT and SPC , the accused was no more than 6 feet from the victim at all times; thus making available alternate non-lethal means of interdicting any perceived threat. The United States Army does not advocate, or by action, direct or indirect, condone the killing of prisoners, be they combatant or otherwise. The investigation further determines that the victim made no attempt to escape or assault SGT **Control**, nor provide just cause for actors in this incident to believe that this may have been the case. b/6)-4; b/7)44 (a''

4. "Through the eyes of PFC Richmond".

a. Discussion. The defense makes the plea that the accused, being inexperienced and young, acted as any soldier may have if in his place under the same circumstances. Taking the position of Self-Defense IAW DA Pam 27-9 para 5-2-6, the Defense argued that the accused acted, in his state of mind, in a way that would justify his actions during a fast moving situation, where he may have paused only at his own peril.

b. Analysis. The accused has only been in the Army for less than 2 years. Has only been on a total of 10 combat patrols, and executed the duties of security during an EPW search on only two occasions prior to this incident. This would be the only time he had worked directly under SGT

c. Conclusion. This investigation, while concerned with "what others may do in the same situation", cannot base its recommendation solely on the speculative nature of this argument and given the evidence put forth in this investigation. However, to address it briefly, it would be more correct to expect a soldier to seek more guidance and additional affirmation on his actions during the events leading up to the shooting. As a result, they may have paid closer attention to the directions and actions of their NCO. This argument remains wholly subjective, and was its due consideration.

Unfortunately, I think G3 Air can only get be back out on Saturday afternoon. As indicated I need to turn around here in Tikrit on Sunday to head to Baghdad; there are no direct flights from Kirkuk to Baghdad. Sir,

Thanks for your e-mail. As of 0930 today (Thursday) the G3 Air still thinks there will be a flight tomorrow but they don't have a time locked down. I was notified by e-mail on Monday, 12 Apr 04, of the date of the 32. The government e-mailed the sworn statements to me earlier this week so I have had a chance to review them.

Assuming I arrive tomorrow, I'd prefer to start the 32 early on Saturday morning instead of sometime Friday afternoon. Delaying just one day should give me a significant amount of time (hopefully) to meet with PFC Richmond on Friday afternoon and evening. The soldier is facing a potential court-martial for an extremely serious offense and it's my responsibility to spend the time with him that he needs. His unit does not have a private phone where he can talk to me one-on-one. Based on the packet, I believe I can still submit the witness request to you today; however, once I meet with PFC Richmond, he may request additional evidence and witnesses.

If the 32 can not be delayed until Saturday, can it at least be delayed until tomorrow evening with a flexible start time based on when I arrive in Kirkuk.

Thank you for your consideration of this matter.

CPT (and MAJ (and MAJ)), my concern is on the defense's ability (or lack thereof) to spend adequate time with the defendant prior to the hearing. Travel here is certainly a matter for serious consideration.

While you should have made a better effort to confer with PFC Richmond on his case, I must ask for a better assessment of your ability to 1) appear prepared for the hearing during the evening of 16 Apr (as stated by the Government's response), and 2) if a delay was granted, of which I can delay no longer than 23 Apr, would that give you adequate time for travel and preparation, thus is that date even feasible given your schedule?

Otherwise, given the uncertain nature of your court and travel schedule, your initial request would force me to deny your request, and execute as planned on 16 Apr.

I will await reply and rebuttal before I make my decision.

Sir,

Good evening. I am a defense attorney located at FOB Danger in Tikrit. I represent PFC Edward Richmond.

I have been coordinating with G3 Air to get to Kirkuk in a timely manner for Friday's Article 32 hearing. There were no flights today (Wednesday) and there are none scheduled for tomorrow.

016671

At the earliest, there is a flight leaving here on Friday morning at as yet an unscheduled time. My intent was to get to Kirkuk as soon as possible to meet with PFC Richmond. We have not yet met and have only spoken once by DNVT phone.

Previously, on behalf of another client, a delay was requested in her Article 32 hearing which is now scheduled for Tuesday (20 Apr 04) in Baghdad. I anticipate being in Baghdad from approximately 18-22 April.

Sir, based on logistical concerns alone, the defense requests a delay until approximately 24-25 April. I can fly to Kirkuk on Friday but my concern is that even given a one-day delay in the hearing, I may not make it to Baghdad with enough time to meet with that client prior to her 32 hearing. I will return to Tikrit from Baghdad as early as possible next week and immediately will again coordinate with G3 Air to get to Kirkuk without limitations or restrictions.

I apologize for the lateness of this request and look forward to your response.

I.O.: State your full name, grade, organization, and branch of service.

WITNESS: (Complete response).

I.O.: Do you know the accused in this case?

WITNESS: (Yes/no).

Note. If the identification of the accused is not an essential part of the expected testimony of the witness, this question may be omitted. If the witness identifies the accused, the witness should normally be asked to state the accused's name and organization if known. If the identity of the accused is particularly relevant in a case, and the identity of the accused as the perpetrator of the offense depends upon the ability of the witness to identify the accused, the accused's counsel may request that the witness be required to identify the accused from a nonsuggestive lineup of persons similar in appearance to the accused. This request should be granted whenever possible. Otherwise the ability of the witness to identify the accused as the offender may be based on the fact that the accused is the only person whose conduct is being investigated. In any event in this situation, you should inquire into the basis for the witness's identification of the accused.

Government Witness

You determine the order of questioning of all wtnesses and you may conduct the first questioning.

Note: If Government counsel is present, he or she may first examine Government witnesses, followed by cross-examination by the accused or defense counsel, then followed by questioning by you if further clarification is necessary.

I.O. (To accused-counsel): You may now cross-examine this witness concerning any of his/her testimony, any knowledge possessed of the offense(s), or concerning the witness's worthiness of belief. Do you wish to cross-examine this witness?

I.O. (to accused-counsel): I have now called all witnesses I contemplate calling and have revealed to you all evidence I intend to consider in the preliminary portions of this investigation. As I have previously advised you, you may now present any evidence you desire. Do you have any witnesses to testify in your defense or in extenuation and mitigation? If so, I will call them at this time.

(Counsel) (Accused): (No/yes, with name(s) and address(es)).

Note. If witnesses are to be called to testify on the accused's behalf, you should advise the accused substantially as follows:

I.O. (to accused-counsel): You may question each of the witnesses who are to testify for you.

Note. If the accused is represented by counsel, you should assume that counsel will conduct the examination of the witness and present evidence in a planned procedure. The procedure for administering the oath (fig 3-3) and for introductory questioning of the witness set forth above should be followed for defense witnesses. After the accused or counsel has completed examination of the defense witness, or you have done so, you may cross-examine the witness.

Calling Additional Witnesses

Note. When all witnesses who were initially called have testified, you should determine whether other witnesses should be called in the interests of justice, fairness, and a complete investigation. In addition, inquire of the accused substantially as follows:

I.O. (to accused-counsel): (I do not intend to call any additional witnesses.) (I intend to call (name(s)) as additional witnesses.) (I am going to recall (name(s)) for further questioning.) Are there any witnesses you want me to recall or are there any new witnesses?

QUESTIONS BY THE GOVERNMENT

I got to FOB Mchenry, too support HHC 1-27th, about 9 February 2004. I am a fire direction control chief I suppress calls for fire for battalion Mortars. I know PFC Richmond and he is in this room today. He is the gentleman to my left. I recall 28 February 2004. The night before the 28th I was told by my platoon leader CPT that I'll be going out on a mission that morning at 0400. I got the OPORDER from CPT Alpha Companies Commander. Alpha Company was going to be doing a mission on a city to obtain some adult males that we had on our black list, who were known to be in the city and have weapons. Our part of the mission was that my squad would maintain a TCP on the north side of the city. In the OPORDER, I was given the order to conduct searches and if there were any males fleeing the village to shoot them, or put them down as CPT states and said. We were told if we found anything suspicious, weapons, or vehicles coming in and out the city, that we were to detain them. We got out there about 0530 in the morning. It was still dark at that time. Let me backup a little after I came out the OPORDER I gathered up the guys in my squad that I was supposed to be going on the mission with. I explained the mission from the notes I took at the OPORDER. I told them CPT exact words on ROE, that if you saw any one running across the field you were supposed to shoot them. That didn't follow the ROE that my platoon usually gets, that my platoon leader Captain puts out, and I let my squad know that. And I said if anyone was to be shooting anyone today, if possible to let me know first before you shoot, especially if somebody was just trying to flee the field. And then I went on to let them know what the rest of the mission was. So the next morning about 0530 it was still dark outside and there's gun shots going off in the back ground. It was mainly shotguns going off on locked doors. You couldn't really see anything even with NODS. There was a wall around the village too. So you couldn't see well. Everything started to calm

016687

down. Then I got on the phone with Black 6, which is CPT call sign. At that time Black 6 said over the net to everybody."Detain all males in the area". I wasn't sure if I was part of that because we were outside the city. I called in on the radio for clarification. Then he replied over the net rather firmly to "detain all males in the area". I saw the closest Iraqi male to me and turned to PFC Richmond's truck and said lets go. PFC asked if he could come and I said no. Richmond grabbed some flexi cuff and started walking with me. I told Richmond that I would be flexi cuffing and he would be pulling security. We walked out to the individual about 200 hundred meters away from the truck. The individual began to get upset that we were coming to detain him. He knew we were going to detain him by the flexi cuffs in my hands. Richmond was at the low ready. With his muzzle pointed to the ground and I had mine slung. I raised my hand up when the guy noticed that we were coming for him to show him what I wanted him to do. The Iraqi put his hands up, but when I put my hands down he put his hands down like he didn't understand. I did a quick search of his arms and upper torso just to ensure there were no weapons. My intent was to detain him first then do a regular search on him. He was still upset not yelling but talking loudly. I told him to turn around by signaling with my hands. I started checking for weapons. I tried to take his left hand with my left hand to pull it down. He didn't want to, so he resisted with his hand. So I applied more pressured and he loosened his hand and I pulled it down. I had no problem with the right hand. He started to move hands and body back and forth so I couldn't put the flexi cuffs on. At that time I told Richmond to put his weapon up. I told Richmond to do that as a show of force. I wanted the guy to take it seriously. I wasn't sure if the Iraqi man had any other weapons on him. The man was still talking loudly and I didn't want the situation to escalate any more than it already had. So PFC Richmond put his weapon up. PFC Richmond was standing off to the right of the Iraqi man and to my right. He put his weapon up to the high ready. With the barrel of his weapon up and around the shoulder chest area.

I finally got the Iraqi man in flexi cuffs, I zipped it real fast and he relaxed. He stopped resisting. I looked at him over his left shoulder, gave him a pat on the back and looked at Richmond and the Iraqi and said "he's good let's go". I grabbed his left arm and pulled him and turned him and started walking towards our TCP.

We walked about two steps.

Then I heard a gun shot. It was real loud and painful. I never heard a M4 that loud. And I turned around and look at Richmond, his weapon was in one hand, pointed to the ground. He said something around the lines of "he came at you, he jumped at you". Then the Iraqi man fell to his knees and on to the ground. My first thought when I heard the shot was, we are being shot at.

Then I looked at Richmond and he told me that he thought he was jumping at me.

I notice that Richmond had a look on his face that I never saw Richmond have before, a look of shock, his face looked really pale and white. I was trying to think as fast as I could how I was going to handle this. At that time I notice everyone was looking at us and I waved over at the TCP and asked for one guy to come over. I knew I had to go over to the radio, but I didn't want to leave Richmond in the field by himself or the Iraqi man just laying there. At

 016688_{3}

66-4; 6(7)(0)-4

that time PFC the second came over to Richmond. I turned to Richmond and said "your okay stay calm". I told the second to stay with him and pull security. I called Black 6, CPT and told him that we had a civilian Killed in Action.

The gun shot struck the Iraqi, and it's safe to say the bullet caused the death of the Iraqi.

At no time did anyone in the group check the Iraqi, but if they did I didn't see them.

I didn't check the Iraqis body because even without me being a doctor, from my eyes I could see he was obviously dead.

The TCP was about 200 meter from the village.

When I was putting the flex cuffs on the Iraqi man PFC Richmond's weapon was at the high ready the butt stock was in his right shoulder, his left hand was on the grip in front and he was looking over the sight I could see Richmond's eyes. It was a M4 weapon with a 68 scope.

When I said "lets go" I saw Richmond lower his weapon and start to walk with us.

I didn't see PFC Richmond looking through his scope of his M4 at any time.

When the shot went off he was about 3 meters away and his weapon was about arms length away from me.

The Iraqi man's head was about 12 inches from mine when the shoot went off.

I turned to walk with the Iraqi about my second step he lost his balance and leaned into me. His ankle rolled. He didn't fall down but I supported his weight and pushed him back up.

QUESTIONS BY THE INVESTIGATING OFFICER

The man was fully turn and walking with me when he stumbles.

QUESTIONS BY THE GOVERNMENT

I was behind the Iraqi maybe off to the left a little and Richmond was to the side of both of us to the right.

Richmond had a view of the flexi cuffs and in my opinion he saw the flexi cuff being put on.

QUESTIONS BY THE DEFENSE

(Same)

The Iraq man was wearing a flannel shirt I think it was black and red and he had dark pants. I don't recall any kind of scarf or field equipment. When I was putting the flexi cuffs on, his arm was behind him. I don't recall a scarf. I was looking at Mr.

016689

ACLU-RDI 1746 p.47

6(6)-4: 6(7)(c)-4 (all)

Richmond was facing both of us. He could see both my hands and the flexi cuffs being from where he was standing. My reason for believing this is he was placed on Mr standing to the right side of both of us with a clear view. When the Iraqi man was talking loudly it sounded like this (SGT makes example by raising his voice different levels). I spoke at a normal tone of voice. Mr. **We was not being cooperative**. I had my weapon where Mr. wanted see. Mr. and did not put his hands where I wanted him to. and I struggled to put the flex cuffs on him. I did not speak to Mr. while I was cuffing him. The altercation from the time Mr put his hands up to the moment he was shot was about three to five minutes. Mr. struggled with his left arm and right hand, so I put my hand on Mr. shoulder and my other hand on his wrist and forced his left arm behind his back. At that point he gave me his right hand. Up to this time PFC Richmond had done everything I asked of him. I told PFC Richmond to put his weapon up and go to the "high ready" position, which is where you have your weapon at the highest point of readiness, and you have your eye on the target without looking through the scope. When the individual who is holding the weapon feels he is in danger they can elevate their position from high ready. We don't go by a color coded weapon status. As soon as we leave our FOB we are locked and loaded. PFC Richmond, who is 20 or 21 years old, does not speak Arabic. I have worked with him in the unit for 1 year. I don't know how his performance has been. I've never been on a detail with PFC Richmond. My job is not really to interact with the soldiers. The week before I went on a mission with PFC Richmond but he wasn't in my squad. What stands out in my mind the most about those missions is that we received a few pot-shots on one, and we encountered an IED on another. There was one KIA that week. I killed an Iraqi woman on the same mission we encountered an IED. Our battalion commander tightened the ROE. We had to positively identify our target before we could engage. After the KIA that week the ROE changed so that we were not to engage anyone without them engaging us. During that week we were also trained to take an aimed shot and not spray our weapon randomly. I have been trained in ROE. A hostile act is an act of violence or intended violence against me, my soldiers or any military personnel. A hostile intent is the intent to perform a hostile act. Pointing a weapon would be a hostile intent. But throwing a rock would not be a hostile intent. The soldier decides what a hostile intent and hostile act is. I grabbed Mr. upper left bicep with my right hand and I turned away from PFC Richmond and so did Mr. and neither of us had a view of PFC Richmond. After the shot was fired PFC Richmond told me that Mr. jumped at me, and I did not have a response. I just told PFC Richmond to stay calm. I had a reason to doubt PFC Richmond because Mr. did not jump at me. When Mr. Was resisting I told him to put his weapon up.

No I didn't say "shoot him if he fucking moves." And if other soldiers tell you that I said that yes their lying.

CPT **CPT CPT C**

016690

b(b)-4; b(7)(c)-4 (all)

that if an Iraqi is not aiming a weapon at me but at one of my teammates that's hostile intent. I could see Mr. (Setting the same time while having a hold of him. I never gave statements that I could not see Mr. (SGT (SGT) draws two diagrams of Mr. (SGT) and himself before and during the shooting). There was never a point I could not see Mr. (SGT) I pulled Mr. (SGT) to my side, but I did not turn my back on Mr. (SGT) However I did not have a clear view of PFC Richmond at the time.

I was never told ROE didn't apply. ROE always applies in IRAQ. There never a game off when in IRAQ regarding the ROE.

Article 32 Investigation Officer explains the difference between the CFLCC and CJTF7 while the Defense shows SGT a picture of MR and lying on the floor.

Mr. is lying on the Floor.

QUESTIONS BY THE INVESTIGATING OFFICER

I had seven soldiers present for my brief and all soldiers confirm that they understood the brief I gave.

CPT and the "flee" part to our old ROE. I told my soldiers to contact me first before you go forth with that part of the OPORDER

I've been on no mission previously with PFC Richmond in my squad. But I've done ten missions with him in the element that was conducting the mission, but he was not in my charge until this mission. I don't know him personally, I just know him because he was in my platoon.

He was put in my Charge that night for the first time by CPT instructions. We were down a man so we needed PFC Richmond to stand in.

He did not seem nervous about the mission. He had the normal level of attention. PFC Richmond was willing to go out to detain the individual when I asked. No problem and wasn't over anxious. I pointed to where I wanted Richmond to stand. We go over detaining individuals all the time in my platoon.

When he was pulling security he looked the same.

Richmond was observing while I was conducting the initial search the whole time. I probably made eye contact with Richmond a few times while conducting the search. I asked him to raise the weapon he raised it. While the Iraq was struggling PFC Richmond didn't become anymore agitated during me flexi cuffing Mr

016691

ACLU-RDI 1746 p.49

I looked at PFC Richmond when I said "he's good let's go". He showed signs that he acknowledged and understood what I said by putting his weapon down and beginning to walk with us. He didn't say anything to confirm, but I saw him start to move forward.

I maintained physical control of the Iraqi by holding his left arm with my right hand. He was requiring my body for balance.

After the shot PFC Richmond had a pale look on his face.

The Iraqi didn't show any signs of fleeing

The scarf did not get in the way of me applying the flexi cuff. I didn't even notice it.

QUESTION BY THE DEFENSE

We left FOB Mchenry at 0400. We met at 0345. The convoy took a half hour to get to the village. Briefing was at 2200 the night before.

Nothing Further.

Neither side nor the Investigating Officer having any further questions, the witness was duly warned and temporally excused.

SPC Richard D. Headquarters and Headquarters Company, 1st Battalion, 27th Infantry, 2nd Brigade Combat Team, 25th Infantry Division (Light), Kirkuk, Iraq APO AE 09347-9998. Was called as a witness for the defense, was sworn, and testified as follows: **OUESTIONS BY THE DEFENSE**

I know PFC Richmond from my platoon and my squad members before I came to Iraq.

I've been through ROE training with Richmond and I received two ROE cards one here and one back at Schofield. When I got here to Iraq my squad leader SPG gave me one.

I received the ROE briefing from SGT on 27 February 2004. The thing I remember most about it was that SGT told us that we were authorized by CPT to

shoot anyone fleeing the village. The other ROE told me don't shoot anyone unless they are a direct threat. And that you are supposed to use commonsense in the ROE. I decided what is commonsense.

I didn't hear SGT say shoot anything that moves.

b(b)-4, b(t)(c)-4 (a1)

He told us the ROE that was given for our mission. And I did not doubt the ROE for that mission because I didn't know what higher knew about that mission.

I received a briefing about the incident the day we got back that we were not to talk about the events that happen with anybody. Then we also had a briefing with the chaplain, SGM and the Battalion commander and he said that we screwed up as a team, but we are okay in his book. PFC Richmond was present for all our briefings. We also got spoken to by the platoon SGT's.

I was manning a traffic control point. And I didn't see PFC Richmond shoot Mittee I heard the shot. I saw the two soldiers standing at that point. I remember once the guy was flexi cuffed one of them which was SGT

(SPC and proceed to draw a visual depiction of the distance between PFC Richmond, * MR. and SGT

PFC Richmond looked like he was a couple feet behind SGT and Mr.

It appeared that SGT was looking toward the direction he was walking.

The Iraqi was probably wearing a head dress but I really don't remember if I saw anything on his head.

Me and the other soldiers talked about the changes in the ROE before the mission. SPC said that he didn't want to go because this completely contradicted the previous ROE that we've been taught. SPC said that if something like an Iraqi flees the field and he shoots them really happened he could get in trouble.

PFC Richmond I believe was in that conversation.

We met at the vehicle I think about 0230. And the brief was about 1030 the other night. I went to bed that night right after the OPORDER brief.

QUESTIONS BY THE GOVERNMENT

Base on everything around me that morning the shot that killed Mr. **General** didn't know where it came from. I was confused about the whole situation especially when I saw the Iraqi drop.

No, I didn't see a weapon in Mr.

QUESTION BY THE INVESTIGATING OFFICER

I've know Richmond since November 2002. We mostly known each other through work, we went out a couple of time had a few laughs.

Before we deployed Richmond said a couple of times that he wanted a bayonet kill. But we all kind of had that type of mind frame but Richmond was the most out spoken about it. I wasn't taken count but there was a joke said that day of the incident. There was a little kid walking by with some sheep. And PFC Richmond said "There's a kid walking by, he's got sheep, can I shoot him." It was a joke that I thought was funny so I laughed.

There was a matter of seconds between the time I saw them walking and I turned my head to stop a vehicle approaching then I heard a shot.

QUESTIONS BY THE DEFENSE

PFC Richmond is outspoken and has a lot of friend and he's kind of a jokester kind of loud. We did PT together.

I've been to SGT and the living quarters and I've never heard of him keeping track of how many people he killed. I heard that SGT and the was having a hard time dealing with the incident the week before when he shot that lady.

I've never seen a piece of 5 50 cord filled with knots around his bed. We all have a curiosity, what it would be like to kill an Iraqi. I use to joke about shooting someone back at Schofield. I used too say I bet I get the first confirmed kill, because I'm the SAW gunner, I lay out the suppressive fire, I spray everywhere. We stopped joking about that because we always get attacked so we don't joke about it anymore because its very hostile and very realistic everyday stuff.

QUESTIONS BY THE DEFENSE

b(Q-4, b(7)(0)-4 (00)

Battalion commander gave a brief at about 1100 at night. The same day of the incident, the briefing was given in a tent right next to our connex on FOB Mchenry. The Battalion Commander is LTC **Commander** and yes he does live at FOB Mchenry. I was trying to get some sleep when I was informed of the briefing. Our squad leaders told us that at some point the LTC would want to talk to us.

We got attacked and about 5 minutes or so later the Iraqi was killed I think.

Another CPT I didn't know his name, but he said over the radio to detain all males in the village.

I wrote a sworn statement that day of the incident my squad leaders told me to write it but my squad leaders never collected it.

It was not odd that the Battalion Commander decided to brief us on that night. We were released after the briefing.

QUESTIONS BY THE GOVERNMENT

Yes, this was after the IED incident.

Nothing Further.

Neither side nor the Investigating Officer having any further questions, the witness was duly warned and temporally excused.

SPC Best Sectors and Headquarters and Headquarters Company, 1st Battalion, 27th Infantry, 2nd Brigade Combat Team, 25th Infantry Division (Light), Kirkuk, Iraq APO AE 09347-9998. Was called as a witness for the defense, was sworn, and testified as follows:

QUESTIONS BY THE DEFENSE

I don't know PFC Richmond. I never had previous contact with him before that day. I was given a ROE briefing that day. I remember the ROE briefing that day and one thing that was added is that it's a high priority target containing the people on the black list so shoot people fleeing the area. I knew we would be facing danger from Iraqi's turning on us and that thought process between the troops.

This mission was different from other mission. SGT the state to define the before I engage a target to get the okay from him. If SGT the being shot at I can fire on them it would be a natural response. The only rules I know is if you're being fired on fire back. If a vehicle is

speeding up from behind, you can disable the vehicle. Myself and SGT communicate through CVC radios all the time.

Nothing Further.

b(0-4; b(7)(0)-4 (all)

Neither side nor the Investigating Officer having any further questions, the witness was duly warned and temporally excused.

Investigating Officer ask Private Richmond if he would answer some questions from him.

The defense agrees under the condition that subject to objection on a question to question basis PFC Richmond will respond.

The government request that if the Investigating Officer ask question, can the government cross.

The Defense states that PFC Richmond will only answer questions from the Investigating Officer not the government.

The Investigating Officer recess the proceedings to consult with his Legal Advisor at 1400 hours, 17 April 2004 and reconvened at 1410 hours, 17 April 2004.

PFC Edward L. Richmond Jr., Headquarters and Headquarters Company, 1st Battalion, 27th Infantry, 2nd Brigade Combat Team, 25th Infantry Division (Light), Kirkuk, Iraq APO AE 09347-9998. Was called by the Investigating Officer to make an unsworn statement, and testified as follows:

QUESTION BY THE INVESTIGATING OFFICER

I've been in Iraq for 2 months. I've been with the Wolfhounds the whole time. I've been on ten TCP missions with the Wolfhound since I've been in Iraq.

I've detained 2 individuals previously before 28 February 2004.

On my sworn statement dated 29 March 2004, I clarified my testimony from my previous sworn statements. Originally I said that the Iraqi had lunged at SGT and the latest sworn statement I state that SGT and the was turning the victim. That was derived from my further understanding of the facts, reading statements, hearing testimonies and hearing everything. That was not what I thought or knew at the time. During the incident, the adrenalin and the stress was affecting my perception. I wouldn't say that was everything in the situation the way I saw it. The reason I shot him was because this guy was jumping at SGT and that's why I shot him.

Looking back on the statement now I think it appears somewhat misleading. I quote "I had to know he had on flexi cuffs before I shot him but it just didn't register in my mind at the time", that can be misinterpreted. The way I meant that to sound. I had to know

this information to be able to deal with the situation to address the situation properly. In order for me to deal with a detainee tripping and falling I would have to know that he was detained and flexi cuffed. By me saying I did not know, I could not take everything into consideration, being that I did not know these facts at this time it was like a split second decision. The Iraqi's back was facing me but I didn't see his arms or his hands.

The reason for that was the way I was facing him, I was facing the front right of the person and SGT and the persons hands were out of my sight pictures because I could see the guys chest. Once SGT for told me to raise my weapon to the guys head if he moves fucking shoot him. That's were I was looking at, his head. I was very close to him about 3 feet and all I could see was his head. And when he turned around swiftly I just didn't see it. I didn't hear SGT for the say "he's good to go" or anything of that nature. I made eye contact with SGT for the was putting on the flexi cuffs.

When SGT more noticed the guy was resisting. He basically looked at me and said "put your fucking weapon on his head, if he fucking moves shoot him". SGT was screaming at me so that's what I did.

Nothing Further.

<u>b(b)-4</u> b(7)(c)-4 [all) t; Edward L. RICHMOND, want to make the following statement under oath: I provided a sworn statement on 1 Mar 04 concerning the incident in which I shot and killed an Iraqi farmer during a raid. Looking back on the entire situation, I would like to make some corrections to that statement at this time. Prior to the raid, the rules of engagement were put out that if anyone tried to flee the villiage, we were to shoot them. After arriving to the villiage and setting up, I could hear some shotgun blasts going off in the villiage where the raid was taking place. I then noticed an Iraqi male walking his cattle away from the villiage. Since the rules of engagement were put out that we were to shoot anyone fleeing the villiage, I asked if I should shoot the farmer because he was leaving the village. I was told by SGT to not shoot him. About an hour later, someone, maybe CPT put out over the radio to apprehend all males leaving the villiage. At that time, we decided to apprehend the farmer. Myself and each had a set of flexicuffs and began walking into the field where the farmer was still with his cattle. My adrenaline was already pumping because of the raid and then even more so as we approached the farmer to apprehend him. Myself and decided that would place the flexicuffs on the farmer, while I stood guard. The farmer seemed to be directing our attention to something else as we approached him, and then as SGT began placing the flexicuffs on him, he started resisting. Already at that point I had a lot of adrenaline going through my system and shouted at me to point my rifle at the Iraqi's head. I then pointed my rifle at his head and he stopped resisting. In my previous statement I put in that I did not realize the Iraqi was wearing flexicuffs when I shot him. Looking back now, I think it would be more accurate to say that I did not register in my mind that he was wearing flexicuffs. The adrenaline was affecting my perception of the situation. I remember seeing putting flexicuffs on him and I saw him with his arms behind his back as I pointed my rifle at his head. I had to know he had on flexicuffs before I shot him, but it just did not register in my mind at the time. Also in my previous statement, I said that the Iraqi lunged at Again, looking back on it now, I don't think the Iraqi actually lunged. What happened is turned him to walk away; however, because of the moved the Iraqi out of my sight picture, I just reacted by shooting him. adrenaline, when I would have never shot that man had I been thinking clearly. I would never shoot someone who was wearing flexicuffs if I registered in my mind that they were wearing them. It is everything combined between the pressure of the raid, the new rules of engagement, the Iraq resisting his detention, and the whole situation in general that caused me to not be react like I normally would. f R

Pric kterneond was pulling security on, adout 200 meters away. I told Pfc Richmond that we were going to go detain him. Spc sked to go, and I said no. Pfc. Richmond had flex cuffs in his hand when we started to head towards the male. I then told Pfc Richmond that I would be detaining him, and he would pull security. He said OK and handed me the cuffs. At this time I had my weapon slung at my side, and Pfc richmond had his weapon at the walking, low ready. As we approached the male his back was facing away from us. As we got about 50 to 30 meters away the male noticed we were comming, and turned towards us. He started to speak in aribic to us, he seemed to be angry that we were comming towards him, I think he knew he was giong to be detained, and was mad. As we were walking to him I put both my hands in the air to signal him to do the same, he did so but only for a few seconds. He then put his hands down. I signaled again, and he put his arms up halfway, and out to the sides. when we got over to him I told Richmond to pull security and pionted where I wanted him to stand, It was about 3 feet away from the male, on the males leftside. At this time Richmonds weapon was still at the low ready. I quickly ran my hands over the males arms and upper torso checking for large weapons. The male still seemed very upset with us. I then signaled for him to turn around, he did so. I then grabed his left arm and pulled down, signaling him to put his hands behind his back. He then started to struggle lightly with me not giving me his hand. He still seemed upset and angry, about centermass of the male. The male then stopped resisting and gave me his hands. When I tried to put the cuffs on him he started to resist again. He would not let me put his hands in the cuffs. After a brief struggle I got his hands in the cuffs. He then relaxed. I patted him on the right shoulder to try and assure him he was ok, I turned to Richmond and said "he's good, let's go" I saw Richmond begin to bring down his weapon to start walking. Please relate as much detail of the shooting as possible. I heard over the net to detain all modes, I called Black 6 and explained my situation on the road. I said we have traffic and fields with formers, am I to detain all males in my area"? He said, "yes, detain all males". PFC Richmond was pulling security on the side of the field where the person was, so I took him with me to detain the porson. On. the way to the person I took the Flex cuff from Richmond and told him I would detain him, you pull security". Richmond said, "ok" and gave me the cuth. as we approached, the person turned and and saw us. We were both carring our weapons at the low ready. The person started to speak in arbic It seemed that he was upset we were comming over to him. As we slowly approached him I signaled him to raise his hands, by raising my win up. The person did so , but breitly. He then put them back down, I signaled to him again to raise them and he hattuny did. I walked up directly infront of him and richmond was off to my night with his weapon at the low ready. The person had his arm out, he soemed to know he was going to be determed and was talking in aribic with anger in his voice. I had one hand on my weapon, at the low ready, and I partled his arms and upper torso, anickly. I signaled him to turn around, he did so with his honds still out to the side. I get show stepped off on an angle to my left to grab his left hand first the would not give it to me at first, we lightly struggled for a moment and then he gave me his hands. when I started + Durring this time I told and nond to pick his weapon up to the high ready in case this porson tried to fight me. My intent was to protect myself and to show him we were Serious and to stop struggling, I still struggled with him because he wouldn't stop pulling his hands around so I could tighten the cuffs. I got his hands in the Flex cuff and tightened it fast, he then stopped struggling. I patted him on the night shoulder and looked at Richmond end said "He's good, let's go". grabbed the persons left upper arm and pulled him to signal to come with me, he did so, we walked about 2 steps and I heard a very lond and painful gunshot. I thought at first we were taking fire so I ducked down and turned to my night towards the porson. I saw he was hit in the head 6(7)(c)-4 66 INITIALS OF PERSON MAKING STATEMEN 016778

<u>b(6)-4; b(7)(0)-4(011)</u> A; Edward L. RICHMOND, want to make the following statement under oath: I provided a sworn statement on 1 Mar 04 concerning the incident in which I shot and killed an Iraqi farmer during a raid. Looking back on the entire situation, I would like to make some corrections to that statement at this time. Prior to the raid, the rules of engagement were put out that if anyone tried to flee the villiage, we were to shoot them. After arriving to the villiage and setting up, I could hear some shotgun blasts going off in the villiage where the raid was taking place. I then noticed an Iraqi male walking his cattle away from the villiage. Since the rules of engagement were put out that we were to shoot anyone fleeing the villiage, I asked if I should shoot the farmer because he was leaving the village. I was told by SGT **sector to not shoot him.** About an hour later, someone, maybe CPT put out over the radio to apprehend all males leaving the villiage. At that time, we decided to apprehend the farmer. Myself and the set of flexicuffs and began walking into the field where the farmer was still with his cattle. My adrenaline was already pumping because of the raid and then even more so as we approached the farmer to apprehend him. Myself and decided that would place the flexicuffs on the farmer, while I stood guard. The farmer seemed to be directing our attention to something else as we approached him, and then as SGT began placing the flexicuffs on him, he started resisting. Already at that point I had a lot of adrenaline going through my system and shouted at me to point my rifle at the Iraqi's head. I then pointed my rifle at his head and he stopped resisting. In my previous statement I put in that I did not realize the Iraqi was wearing flexicuffs when I shot him. Looking back now, I think it would be more accurate to say that I did not register in my mind that he was wearing flexicuffs. The adrenaline was affecting my perception of the situation. I remember seeing putting flexicuffs on him and I saw him with his arms behind his back as I pointed my rifle at his head. I had to know he had on flexicuffs before I shot him, but it just did not register in my mind at the time. Also in my previous statement, I said that the Iraqi lunged at Again, looking back on it now, I don't think the Iraqi actually lunged. What happened is a superconductor of the towalk away; however, because of the moved the Iraqi out of my sight picture, I just reacted by shooting him. adrenaline, when I would have never shot that man had I been thinking clearly. I would never shoot someone who was wearing flexicuffs if I registered in my mind that they were wearing them. It is everything combined between the pressure of the raid, the new rules of engagement, the Iraq resisting his detention, and the whole situation in general that caused me to not be react like I normally would.

MEMORANDUM FOR Record

SUBJECT: United States v. Richmond

1. I recall briefly speaking with a CID special agent about the Richmond case. The special agent asked if MAJ with the 1ID Chief of Military Justice, was around. He was not, so I asked if there was anything I could do to be of assistance. I was asked it I knew if the Richmond case was going to be a court-martial, or if it would be handled at a different level, such as an Article 15. I indicated it was going to be a court-martial. I believe MAJ had indicated that it was his intention for this case to go to an Article 32(b) investigation. As the Chief of Administrative Law, I would be responsible for advising the investigation. I don't believe that the investigating officer had been appointed at that time.

I spoke with the Article 32(b) investigating officer on the telephone after he was appointed. It was a brief discussion on the procedures for an Article 32(b) investigation.
 I do not recall discussing the facts of the case nor the appropriate level of disposition with the investigating officer.

3. POC is the undersigned at DNVT 553-3362.

DEFENSE RESPONSE TO GOVERNMENT MOTION IN LIMINE II

19 July 2004

COMES NOW the accused, PFC Edward L. Richmond, Jr., by and through counsel, to respond to the Government's Motion in Limine to preclude the defense from referencing an alleged order by CPT

))

)

A. RELIEF SOUGHT

The defense respectfully requests that the government's Motion in Limine be denied. The evidence at issue meets the requirement of Military Rule of Evidence (M.R.E.) 401. The government fails to establish why introduction of such evidence is improper under M.R.E. 403.

B. BURDEN OF PROOF & STANDARD OF PROOF

As the proponent of the motion, the government bears the burden of proof by a preponderance of the evidence. Rule for Courts-Martial (R.C.M.) 905(c). On appeal, the standard of review is for an abuse of discretion. <u>See United States v. Jenkins</u>, 27 M.J. 209, 211 (C.M.A. 1988).

C. FACTS

On 27 February 2004, Headquarters and Headquarters Company, 1-27 Infantry, tasked SGT Mathematical Montans Platoon, to join a mission lead by A Company, 1-27 Infantry. Late in the evening of 27 February 2004, SGT Mathematical a pre-mission briefing. At the briefing, the A Company Commander, CPT Mathematical told the soldiers words to the effect of, "if there are any males fleeing the village, shoot them," or "put them down."

After the briefing, SGT **and the solution** returned to his platoon area to brief the 4 or 5 soldiers that would be joining him on the mission. These soldiers did not attend the briefing by CPT Carpenter. SGT and the price of these soldiers that CPT and the briefing by CPT was fleeing the village or running across the field that the soldiers were to shoot that person. PFC the soldiers, including SPC and the briefing and heard SGT instructions. Other soldiers, including SPC and the soldier and heard SGT instructions.

D. LAW

The defense relies on the following authorities in support of this responsive motion:

R.C.M. 905 M.R.E. 401 M.R.E. 402 M.R.E. 403 <u>United States v. Lanier</u>, 50 M.J. 772 (A.C.C.A. 1999) <u>United States v. Schap</u>, 49 M.J. 317 (C.A.A.F. 1998) <u>United States v. E. WITNESSES & EVIDENCE

The defense requests the opportunity to cross-examine any government witnesses called in support of this motion.

F. ARGUMENT

66)-4 The government asserts that the statements by CPT are not relevant. Alternatively, if relevant, the government states that the probative value would be substantially outweighed by the danger of unfair prejudice and confusion of the issues. The government believes that presentation of such evidence would mislead the members and would be a waste of time. The government fails to offer any specific argument as to why the statements should be

For evidence to be admitted, it must be both logically and legally relevant at trial. <u>See</u> <u>United States v. Simmons</u>, 48 M.J. 193, 196 (C.A.A.F. 1998). Relevance is evaluated as any "evidence having any tendency to make the existence of any fact that is of consequence to the determination of the action more probable or less probable than it would be without the evidence." M.R.E. 401. Generally, all relevant evidence is admissible. M.R.E. 402.

Once the threshold determination of relevancy is met, evidence may be evaluated for admissibility under M.R.E. 403. Evidence may be excluded if its prejudicial effect is "substantially outweighed" by the probative value of the evidence. The military judge is the gatekeeper for such evidence and should apply a balancing test to determine the admissibility of evidence under M.R.E. 403. See United States v. Staley, 36 M.J. 896 (A.F.C.M.R. 1993); United States v. Cole, 29 M.J. 873, 876 (A.F.C.M.R. 1989), aff'd, 31 M.J. 270 (C.M.A. 1990).

016824

excluded under M.R.E. 401 - 403.

In the present case, the statements made by CPT are relevant as required by M.R.E. 401 because they are logically related to the charged offenses. Evidence that CPT briefed soldiers to "shoot all males fleeing the village," and to "put them down" is relevant to the charge of murder. A recognized defense to the charge of homicide is that the accused acted in defense of another or in self-defense. When evaluating such a defense, a military judge may instruct the panel: "To determine the accused's actual belief as to the amount of force necessary, you must view the situation through the eyes of the accused." Department of the Army Pamphlet 27-9, para. 5-3-1, dated 1 April 2001 [hereinafter "DA Pam."]; see also United States v. Lanier, 50 M.J. 772, 776 (A.C.C.A. 1999)(noting the military judge gave the proper defense of another instruction that "correctly oriented the members to view the situation through appellant's eyes"). In viewing the situation through the eyes of the accused, the trier-offact may consider any unlimited number of factors, to include: age, intelligence and emotional control. DA Pam. 27-9, para. 5-3-1. In the present case, the accused's knowledge of the mission objective and Rules of Engagement (ROE) for the mission are all relevant to evaluating the situation from the eyes of the accused.

Additionally, CPT **Constitutions** statements are legally relevant as required by M.R.E. 403, as their probative value greatly outweighs any prejudicial effect. The government fails to state the prejudicial effect of the admissibility of the statement and fails to name who would be prejudiced by their admissibility. Further, the government has failed to allege how the members would be mislead or confused by the presentation of testimony regarding CPT **Constitution** statement. Ultimately, any such minor confusion can be clarified, delimited or expounded upon by the military judge at the instructions phase of the cases. <u>See United States v. Schap</u>, 49 M.J. 317, 324 (C.A.A.F. 1998) (upholding the military judge's explanation in instructions to the panel).

G. CONCLUSION

The government has failed to meet its burden to show why CPT dependent of the statements are inadmissible. The statements are both relevant under M.R.E. 401 and admissible under M.R.E. 402 and 403. The defense respectfully request that the government Motion in Limine be denied.

COMES NOW the accused, PFC Edward L. Richmond, Jr., by and through counsel, to 5/6)-4 move for the production of Mr. pursuant to Rule for Courts-Martial (R.C.M.) 703, R.C.M. 906(b)(7), and R.C.M. 1001(e).

A. RELIEF SOUGHT

The defense respectfully requests that the defense Motion to Compel Production of Overseas Witness be granted and that 66-4 be permitted to come to Iraq to testify at his General Court-Martial.

B. BURDEN OF PROOF & STANDARD OF PROOF

As the proponent of the motion, the defense bears the burden of proof by a preponderance of the evidence. R.C.M. 905(c). The standard of appellate review for denials of requests for the production of witnesses is abuse of discretion. See United States v. Reveles, 41 M.J. 388, 393-94 (C.A.A.F. 1995).

C. FACTS

On or about 15 June 2004, the government, the defense, and a representative of the trial judiciary informally agreed upon 1-3 August 2004 as the trial dates for the above-captioned case.

On 17 June 2004, the defense submitted to government counsel a request for the production of PFC Richmond's , to testify at his General Court-Martial.

On 2 July 2004, fifteen days after the submission of the defense request, government counsel indicated that the government would not produce On that same day, the defense submitted a request for production to the Commanding General of the 1st Infantry Division, the General Court-Martial Convening Authority [hereinafter 'convening authority'].

<u>United States v. PFC Edward L. Richmond, Jr.</u> Motion to Compel Production of Overseas Witness

On 4 July 2004, government counsel notified the defense of the witnesses it intends to call at trial. Two of the listed witnesses are active duty service members stationed at Ft. Hood, Texas. The government will produce those witnesses for trial.

On 16 July 2004, two weeks after the submission of the 2 July defense request, the convening authority denied the defense request for production of 1

Mr. **Mr. Methods** is willing to come to Iraq for his **Mathematical**. He is willing to do so at his own expense. He will reimburse the government, if necessary, for any transportation, meals and/or lodging arranged at government expense. He is willing to sign a government-drafted "hold harmless" agreement in order to travel to Iraq.

The defense requests judicial notice of the fact that the government does not have federal subpoena power to compel production of witnesses at a General Court-Martial in Iraq.

Mr. Mr. Bis the only overseas witness of whom PFC Richmond requested government production.

If PFC Richmond is convicted of the charge for which he stands trial, he is facing a maximum confinement of life in prison.

D. LAW

The defense relies on the following authorities in support of its motion: R.C.M. 703 R.C.M. 905 R.C.M. 906 R.C.M. 1001 Weiss v. United States, 510 U.S. 163 (1994) United States v. E. EVIDENCE

The defense requests consideration of the following documentary evidence, attached to this motion:

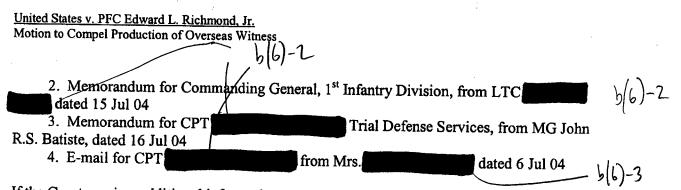

1. Memorandum for Commander, 1st Infantry Division, from CPT determined by $\beta(b) - 2$ dated 2 Jul 04 (with Enclosures A & B)

2

If the Court requires additional information, the defense respectfully requests the opportunity to file a Supplemental Brief to present additional evidence or affidavits to the Court.

F. ARGUMENT

At trial, a criminal accused is entitled to present witness testimony in defense, extenuation or mitigation. See United States v. Harmon, 40 M.J. 107, 108 (C.M.A. 1994) (recognizing the constitutional right of the defense to call witnesses and to determine which witnesses they want to call). Further established is a criminal accused's right to due process of law as guaranteed by the Fifth Amendment. See Weiss v. United States, 510 U.S. 163 (1994). A criminal accused is entitled to the production of witnesses at trial to the same extent as the government. R.C.M. 703(a); see also United States v. Breeding, 44 M.J. 345, 353 (C.A.A.F. 1996)(Sullivan, J., concurring)(finding that "[a] servicemember has the right to 'compulsory process for obtaining witnesses in his favor' under the Sixth Amendment").

1. <u>Costs of producing the witness</u>. In his 16 July 2004 denial of the defense request for production, the convening authority does not allege cost as a prohibitive factor in the production of Mr. The government has conceded in verbal discussions that the cost of producing Mr. The government has conceded in verbal discussions that the cost of producing solution is not a factor. Indeed, if necessary, Mr. The government will pay for all costs associated with travel, food and lodging in Iraq.

2. <u>Timing of the request for production of the witness</u>. The defense submitted its initial request for the production of Mr. **Second Production** over six weeks prior to the scheduled start of the court-martial. All significant delays are attributable to the government and should not be held

016829

h16)-4

against PFC Richmond. Further, Mr. already has a reserved seat on a flight into Kuwait with ample time to then travel to Iraq.

3. Potential delay in the presentencing proceeding that may be caused by the production of the witness. The defense asserts that timely action on the pending request will cause no delay in the presentencing proceedings.

4. Likelihood of significant interference with military operational deployment, mission accomplishment or essential training. The defense asserts that the production of Mr. causes little interference with such unspecified missions.

The logistics cited by the convening authority as a reason to deny production do not outweigh the presence of Mr. at trial. Logistical coordination is minimal. Mr. already holds a reserved seat on a flight from Louisiana to Kuwait City. Once in Kuwait City, Mr. will be met by a paralegal from Camp Doha who will escort him onto the military base and make arrangements for him to take a military C-130 flight into Balad or Baghdad. If Mr. flies into Balad, he will be met by the assistant defense counsel who will arrange for them to fly together by military Black Hawk to Tikrit. If Mr. flies into Baghdad, he will be met by a paralegal from the Camp Victory Trial Defense Services Office who will arrange for him to fly to Tikrit with the regional defense counsel. In Tikrit, Mr. vill be met by defense counsel and PFC Richmond in an uparmored military vehicle. Upon his initial arrival in Iraq, Mr. will borrow an extra Kevlar and OTV with SAPI plates that will be returned to the government upon Mr. departure from the Central Command (CENTCOM) area of operations (AO).

Worth noting is that the "logistics," which are of such concern to prohibit Mr. Richmond's attendance at trial, will not prevent the government from bringing two of their own witnesses into the 1st Infantry Division AO to testify against PFC Richmond.

If the venue for this case was the continental United States or PFC Richmond's regular duty location at Schofield Barracks, Hawaii, Mr. could travel to the site of the trial and testify without the permission of the government. Mr. could travel at his own expense and stay in a hotel of his choosing. He could arrange for his own meals and other amenities.

The venue of this case is Tikrit, Iraq. The government selected this venue. By trying this case in Iraq, the government has not simply limited the voluntary participation by civilian overseas witnesses, but rather has strictly prohibited it. Mr. wants to testify for his but as a U.S. citizen he can not simply book a commercial flight into Iraq, lease a rental car, drive to Tikrit, and check into a local hotel. In order to enter into the CENTCOM AO, he must have the permission of the U.S. government. It is this permission that the government refuses to give. The government need only issue Invitational Travel Orders (ITO) for Mr. to testify at trial at his own expense.

016830

Military personnel and civilian dignitaries enter the 1st Infantry Division (11D) AO on a regular basis for, arguably, far less important missions. Civilian musicians and rock bands, with no connection to the military, are invited by the convening authority into the AO for the morale of the troops. Civilian representatives of the former Coalition Provisional Authority have flown into the 11D AO for simple 'meet-and-greet' sessions with soldiers at the dining facility. These invitations are at the discretion of the convening authority. Yet, the government is choosing to prevent Mr. These from testifying in person at his facility trial, in which PFC Richmond is facing life in prison, if convicted.

R.C.M. 1001(e)(2)(C) acknowledges that alternate forms of testimony may be appropriate in certain cases. However, the Rule also recognizes that there may exist "an extraordinary case when such a stipulation of fact would be an insufficient substitute for the testimony." The pending case is such an extraordinary case. PFC Richmond just turned 21-years-old. He is extremely close to his family. If PFC Richmond is convicted, Mr. will be the defense's key sentencing witness. Mr. is the only witness that can and will talk about PFC Richmond's upbringing; his relationship with his family; his grades in high school; his development to becoming a young adult. Mr. will testify about why his in joined the Army and his progression as a young soldier. Mr. will testify as to PFC Richmond's significant rehabilitative potential in society. This testimony is all unique to Mr. when the court considers that the accused is only 21-years-old with limited world experience. The only other defense sentencing witnesses will be military witnesses who have known PFC Richmond for no more than approximately 2 years.

Alternate forms of testimony are not appropriate before the enlisted panel in front of which PFC Richmond has elected to be tried. A stipulation of fact or stipulation of expected testimony can not convey a excitement in his pride only only the military, his pride in hi deployment to Iraq, his confidence that his son can be rehabilitated, and his certainty that his can recover in society from the stigma of a murder conviction. Neither telephonic nor videoteleconferencing (VTC) technology provides an adequate substitute. Both audio connections are marginal at best. The audio has a delay in transmission from the speaker to the listener. With the question and answer format of trial examination, this form of testimony will inevitably contain unavoidable talking over one another and repetition of questions and answers. Such testimony begs of judicial inefficiency. Further, the video feed is not guaranteed to match the audio feed, resulting in the audio and video being projected out of sync. The electricity in the courtroom is not reliable to ensure such testimony as an adequate substitute. If the electricity shuts off for even one second, the audio and video feeds will be terminated. A new telephone/VTC call must then be initiated. Understandably, power outages have no set schedule, however, to force PFC Richmond to proceed to trial under such circumstances invites prejudice to the soldier and judicial inefficiency.

66)-4

6)-4

66)-4

G. CONCLUSION

The significance of the personal appearance of the witness to the determination of an appropriate sentence, when balanced against the practical difficulties of producing the witness, favors production of the witness. R.C.M. 1001(e)(2)(E). The defense Motion to Compel Production of Overseas Witness should be granted and the government should authorize Mr. to travel to Iraq to testify at his General Court-Martial.

MOTION FOR APPROPRIATE RELIEF

16 July 2004

COMES NOW the accused, PFC Edward L. Richmond, Jr., by and through counsel, to move for credit for violations of Article 13, Uniform Code of Military Justice (U.C.M.J.), restriction tantamount to confinement, and Rule for Courts-Martial (R.C.M.) 305.

A. RELIEF SOUGHT

The defense respectfully requests that the defense Motion for Appropriate Relief be granted and that PFC Richmond be awarded credit toward any approved sentence of confinement.

B. BURDEN OF PROOF & STANDARD OF PROOF

Unlawful pretrial punishment and circumstances tantamount to confinement are evaluated according to the totality of the circumstances. See United States v. Herrin, 32 M.J. 983, 985 (A.C.M.R. 1991). As the proponent of the motion, the defense bears the burden of proof by a preponderance of the evidence. The standard of appellate review is for abuse of discretion. See United States v. McCarthy, 47 M.J. 162, 166 (C.A.A.F. 1997).

C. FACTS

On 28 February 2004, Mr. **Sector and Sector and Sector**, an Iraqi national, was killed near the village of Taal Al Jal. Since 28 February 2004, PFC Richmond has been the only person suspected of killing Mr. **Sector**. He is the only subject of the Criminal Investigative Command investigation.

Upon arriving at the scene of Mr. The base death, 1SG and the C Company, took all of PFC Richmond's weapons and supervised the transportation of the soldier from Taal Al Jal to Forward Operating Base (FOB) McHenry. PFC Richmond's platoon is stationed at FOB McHenry. Upon arriving at FOB McHenry in mid-morning, CSM and the chapel of the chapel. That evening PFC Richmond was allowed to return to his platoon but was told to sleep on the floor of

66)-4

his squad leader's room. The squad leader became PFC Richmond's guard until he was transported to FOB Warrior on 29 February 2004. From 29 February 2004 through the present day, PFC Richmond has been physically separated from his platoon and forced to live on a different FOB.

During the month of March, PFC Richmond lived at FOB Warrior. His unit housed him in transient billeting in Building 645. Other soldiers passed through the transient billeting, however, PFC Richmond was one of the only full-time non-transient soldiers that was forced to live in this room. The room had no electricity, no heat, and no door to the room. Other E3s of Headquarters and Headquarters Company were not required to live under these circumstances. PFC Richmond was required to check in with SGT for of Headquarters and Headquarters Company during the duty day. PFC Richmond continually asked his supervisors at FOB Warrior "what was going on" and questioned why he was being held at FOB Warrior instead of working with his platoon at FOB McHenry. He was told words to the effect of "don't worry about it" and "everything will work out."

PFC Richmond is an 11C. He has not performed as an 11C, or performed any duties commiserate with his mos since 28 February 2004. During March and continuing through April, PFC Richmond worked "extra-duty-type" details. He filled sand bags for days in a row and hours on end. He used the filled sandbags to make walkways and parking stalls. He moved the filled sandbags to different designated blocking positions. He often performed these sandbags details on his own. PFC Richmond cut the grass surrounding the company area. When the equipment was broken he was required to cut the grass with his e-tool. When he was joined in these tasks, it was by soldiers who were performing extra duty or soldiers who were pending UCMJ action. PFC Richmond picked up trash and unsightly pieces of concrete and large trees and brush. PFC Richmond filled in holes in the driving areas with bags of gravel.

PFC Richmond's company commander preferred one charge of murder against the soldier on 5 April 2004.

In mid-April 2004, 1LT and the C Company Executive Officer, announced to approximately 15 soldiers that PFC Richmond was a "murderer" and that he "executed" someone. The incident with 1LT and occurred when he and PFC Richmond passed each other as one was exiting the ALOC and one was entering. 1LT asked PFC Richmond if he was the soldier from mortars. When PFC Richmond responded affirmatively, 1LT and said words to the effect of, "Oh hell no. This is him. You're a fucking murderer." He continued with "I can't believe you just executed that guy! Why would you do something like that?" At least ten NCOs and junior enlisted soldiers were present in the entryway when 1LT and was making these comments in a loud accusatory voice. His comments were directed at PFC Richmond who was standing only a few feet from 1LT and and who was in clear view of the other soldiers.

After seeing PFC Richmond, 1LT entered the ALOC. Once inside the ALOC, 1LT began to show soldiers and officers in the ALOC the crime scene photos from the day of Mr. And death. On the day of the killing, 1LT was the officer on the scene with a

b(6)-y (a11)

digital camera who photographed Mr. **Sector** body. 1LT **Sector** retained these graphic photos on his digital camera and passed his camera around to other soldiers for them to view the photos. He made comments to the soldiers that PFC Richmond was guilty of murder. For some arbitrary reason, PFC Richmond has since been banned from the ALOC. The S4, CPT **Sector**, will not allow PFC Richmond to perform duty in the ALOC despite requests by the company commander to permit him to do so.

Further, the Headquarters and Headquarters Company First Sergeant, 1SG methods humiliated PFC Richmond on several different occasions in front of junior enlisted soldiers and NCOs. Specifically, on one occasion, the 1SG called PFC Richmond a criminal while a line of approximately 40 soldiers waited to receive their anthrax shots. All of the 1st Battalion, 27th Infantry soldiers housed on FOB Warrior lined up to receive their anthrax shots. For accountability purposes, the 1SG verbally checked off each of the sections. For example, he would announce, "HCS," "Supply," "S1," "Commo," to ensure that each section was present. When he concluded reviewing the sections, 1SG moved at PFC Richmond and another soldier pending UCMJ action and said "Criminals?" The soldiers who heard this remark ranged in rank from O3 to E1. The soldiers laughed and the 1SG moved away to carry on with other company business.

By the end of April, the command directed PFC Richmond to live with SGT and There was no other PFC in the company that was forced to live with an NCO. Other housing was available but the command chose to house PFC Richmond with SGT and so that SGT could escort PFC Richmond. PFC Richmond was not allowed to go anywhere without SGT the could not go to the DFAC alone. He could not go to the PX alone. He could not go to the phone or computer lab alone. He was not allowed to go to the laundry point alone. SGT and the phone or computer lab alone. He was not allowed to go to the laundry point alone. SGT

During approximately the second week in May, PFC Richmond's command allowed him to convoy from FOB Warrior to FOB Speicher in order to meet with a psychiatrist. PFC Richmond, having had his weapon confiscated on 28 February 2004, asked his chain-ofcommand for his weapon during the convoy. The command denied his request. PFC Richmond was forced to endure a several-hour convoy from Kirkuk to Tikrit with no weapon and no way to protect himself or his comrades if attacked. Further, the command directed PFC Richmond to ride in an unarmored truck with just one unarmed local Iraqi driver.

By the end of May, PFC Richmond's command altered his living situation. No longer required to be under the 24/7 watchful eye of SGT and the command housed PFC Richmond with two other junior enlisted soldiers: PVT and PFC and PFC PVT after a fler several instances of misconduct and an attempted suicide, was being chaptered out of the Army for patterns of misconduct. PFC after returned to his unit after a period of being absent without leave. These soldiers were the only ones required to live three-people to a room; other soldiers lived by themselves with an empty bunk in their room and space for an additional soldier.

E. WITNESSES & EVIDENCE

The defense requests argument on this Motion for Appropriate Relief. The defense intends to present the testimony of PFC Edward L. Richmond, Jr., for consideration of the motion only.

F. ARGUMENT

PFC Richmond suffered hostile and degrading treatment from the leadership of his company and is entitled to credit for unlawful pretrial punishment under Article 13, U.C.M.J.

Pretrial punishment is forbidden in accordance with Article 13, U.M.C.J., 10 U.S.C. § 813, which states that:

No person, while being held for trial, may be subjected to punishment or penalty other than arrest or confinement upon the charges pending against him, nor shall the arrest or confinement imposed upon him be any more rigorous than the circumstances required to insure his presence . . .

The Court of Military Appeals in United States v. James, 28 M.J. 214 (C.M.A. 1989), adopting the standard in Bell v. Wolfish, 441 U.S. 520 (1979), set out a two-prong test to determine if a violation of Article 13 has occurred. The Court should first decide whether the particular conditions were imposed with the intent to punish. See id. at 216. If the answer is yes, then the conditions are punishment and the Court should consider a sentence credit. See id. If the answer is no, the Court should inquire as to whether the purposes purportedly served by the

conditions are reasonably related to a legitimate governmental objective. See id. "[I]f a restriction or condition is not reasonably related to a legitimate goal -- if it is arbitrary or purposeless -- a court permissibly may infer that the purpose of the governmental action is punishment." Bell, 441 U.S. at 539.

Military appeals courts have routinely and "unequivocally" condemned conduct by those in positions of authority which result in needless military degradation, or public denunciation or humiliation of an accused." United States v. Latta, 34 M.J. 596, 597 (A.C.M.R. 1992), citing United States v. Cruz, 25 M.J. 326 (C.M.A. 1987). Specifically, "public denunciation by the commander and subsequent military degradation before the troops prior to courts-martial constitute unlawful pretrial punishment prohibited by Article 13." Cruz, 25 M.J. at 330. The court further denounced the unnecessary public identification of an apprehended person as a criminal suspect. See id. at 331 n.3.

Accused soldiers may be entitled to credit toward an approved sentence if they are repeatedly subject to disparaging remarks by the command. See United States. v. Stamper, 39 M.J. 1097, 1100 (A.C.M.R. 1994) (awarding credit based on disparaging remarks by a company commander regarding a larceny the accused allegedly committed). In such instances, "these remarks chipped away at the accused's presumption of innocence." *Id.* Further, Article 13 credit can be granted for actions of the command toward the accused soldier when "some of the [restraints] bore no relation to the purposes of his restriction and were unnecessary to his presence." *United States v. Carmel*, 4 M.J. 744, 748 (N.C.M.R. 1977).

Both 1LT method and 1SG method legraded and humiliated PFC Richmond in front of his fellow soldiers. Their comments clearly eroded the basic presumption of innocent until proven guilty. This "moral restriction" should be given significant weight by the court in a totality of the circumstances analysis. See United States v. Russell, 30 M.J. 977, 979 (A.C.M.R. 1990); United States v. Carmel, 4 M.J. 744, 748 (N.C.M.R. 1977).

Furthermore, PFC Richmond was singled out by NCOs and leaders and treated in a derogatory manner in front of other soldiers. The degrading behavior was unwarranted and prejudicial to PFC Richmond. For certain periods, PFC Richmond was under constant NCO supervision. He was not permitted to go anywhere without this NCO escort while other soldiers were free to come and go as they pleased. By placing PFC Richmond in a living and work environment with others undergoing UCMJ action, the command unjustly stigmatized PFC Richmond. See Carmel, 4 M.J. at 748 (considering "constant, enforced association with ... persons undergoing nonjudicial punishment," as a factor to be considered when assessing unlawful pretrial punishment).

PFC Richmond is entitled to additional credit under Article 13, UCMJ, for unlawful pretrial punishment for the actions by his chain-of-command and for the unnecessary comments made by the unit leadership. See Latta, 34 M.J. at 597, United States v. Villamil-Perez, 32 M.J. 341, 343 (CMA 1991); Cruz, 25 M.J. at 330. The hostile treatment was demeaning to PFC Richmond and chipped away at his presumption of innocence. See Stamper, 39 M.J. at 1100.

5

6161-4

There is no set formula for calculating credit for pretrial punishment. If the military judge finds that illegal pretrial punishment occurred, he or she determines the sentence credit to which the accused is entitled. The military judge may order more than day-for-day credit for illegal pretrial punishment. *See United States v. Suzuki*, 14 M.J. 491 (C.M.A. 1983).

Additionally, under United States v. Mason, 19 M.J. 274 (C.M.A. 1985), the Court should adjudge day-for-day confinement credit for time PFC Richmond was held in conditions tantamount to confinement. Whether conditions are tantamount to confinement depends on the totality of the circumstances. Factors to consider include the limits of the restriction, access to facilities, whether the soldier is singled out by the command, and whether the soldier is permitted to continue his normal assigned duties. See United States v. Sassman, 32 M.J. 687, 690 (A.F.C.M.R. 1991); United States v. Russell, 30 M.J. 977, 979 (A.C.M.R. 1990).

The actions of the command as early as 29 February 2004 are restriction tantamount to confinement. By moving PFC Richmond to a different FOB, under the circumstances of deployment, the command effectively restricted the soldier. PFC Richmond was singled-out by being forced to move to FOB Warrior. When, in a deployed environment, a soldier is reliant on his battle-buddies and his squad, PFC Richmond was moved from that secure environment. He no longer lived, worked or socialized with his squad or platoon. He had little to no contact with his platoon during the time he was at FOB Warrior. He was moved to an unfamiliar post where he knew no one. This was done as punishment to the soldier.

Several other factors contribute to the reasonable conclusion that PFC Richmond suffered restriction tantamount to confinement. The command took PFC Richmond's weapon from him on 28 February 2004. Despite repeated requests by the soldier, the command never returned any weapon to the soldier. In the Iraq Theater of Operations a weapon is a part of each soldier's assigned uniform. The obvious absence of a weapon signals to others that the particular soldier is different. Assuming arguendo, that PFC Richmond shot Mr. The shot was a well-placed shot at a specified individual for a specified reason. PFC Richmond was not a threat to those around him. He never threatened to shoot any fellow soldiers or himself. To prohibit PFC Richmond from carrying a weapon on FOB Warrior for force protection was a decision made by the command designed to punish the soldier.

Additionally, since 29 February 2004, PFC Richmond was not permitted to continue his normally assigned duties. Instead, PFC Richmond was singled out and ordered to work extra duty type details. The factor on which the court should focus is not whether the tasks performed by PFC Richmond were those normally assigned to a PFC, but rather that the tasks were assigned to PFC Richmond because he was facing UCMJ action. Absent the pending UCMJ action, PFC Richmond would have performed the duties of an 11C and other combat arms duties. He was denied the opportunity to contribute meaningfully to his platoon and was forced to do menial tasks while pending court-martial.

G. CONCLUSION

Under the totality of the circumstances, PFC Richmond's chain of command unlawfully punished him prior to trial. The defense Motion for Appropriate Relief should be granted and PFC Richmond should be awarded an appropriate amount of credit toward any approved sentence of confinement for violations of Article 13, U.C.M.J. Additionally, PFC Richmond is entitled to 154 days credit for restriction tantamount to confinement and 154 days credit for a violation of R.C.M. 305(i), for the time period of 29 February through 31 July 2004.

A. RELIEF SOUGHT

COMES NOW the accused, PFC Edward L. Richmond, Jr., by and through counsel, to request suppression of PFC Richmond's statement to the Criminal Investigation Command (CID), dated 29 March 2004.

B. BURDEN OF PROOF & STANDARD OF PROOF

Once raised by the defense, the burden of proof belongs to the government to prove by a preponderance of the evidence that the statement to be suppressed was not obtained in violation of the rights of the accused and is voluntary and admissible. Rule for Courts-Martial (R.C.M.) 905(c); Military Rule of Evidence (Mil. R. Evid.) 304(c).

C. FACTS

On Sunday, 28 March 2004, SSG **and the** of the S1 section, told PFC Richmond "you need to go to legal," or "you know you need to be at legal tomorrow." A second noncommissioned officer, SGT confirmed that PFC Richmond had to be at legal at 1000. PFC Richmond did not know why he was being ordered to the legal office.

PFC Richmond walked from the ALOC, unescorted, to the legal office as instructed. Upon his arrival at approximately 1000 he was met by two CID Agents whom he had never met before, SA and the second second second to the officers identified themselves as CID Special Agents. They were not wearing any rank, branch insignia or unit patches on their Desert Camouflage Uniforms (DCUs).

The agents spoke with PFC Richmond on the first floor of the building for approximately five minutes. SA state backed PFC Richmond words to the effect of, "Do you know why we're here?" PFC Richmond told them that he did not know. One of the agents then told PFC Richmond that his command ordered a polygraph exam. The agents then escorted PFC Richmond to a back corner office on the second floor of the building.

The back corner office had no overhead lighting. One long fluorescent light was mounted on the far left wall of the room and provided little light in the room. The room walls were dingy with a layer of fifth and dust over faded mint green paint. The room measured approximately 12' 5" wide and 14' 2" in depth toward the back wall. The back wall contained a door to a terrace b(6)-4

that was blocked by a curtain and unable to be opened. The wall had several windows that were positioned about mid-waist height to the ceiling. These windows were not open and were blocked by dark curtains to preclude visibility. The room did not have air conditioning.

Centered in the room was a conference table measuring approximately 4' wide by 6' long. Six metal folding chairs were unfolded, sitting around the table. A worn, battered couch sat against one wall. An arm chair also was placed around the table. The room also housed several floor-to-ceiling metal storage cabinets measuring several feet wide but just a few feet deep. Several large boxes of supplies and miscellaneous "junk" were piled about the room. On 29 March 2004, the room was not being used for any permanent purpose and effectively was a "junk room" for the building's tenants.

When the CID Agents escorted PFC Richmond to the room, the polygraph equipment already was set up. The set-up contained several pieces of equipment including a laptop computer with wires running every which way and a polygraph "box" that had wires running to the arm chair.

SAmonic advised PFC Richmond of his rights on a DA Form 3881, completed at 1005. On approximately 28 February 2004 or 1 March 2004, PFC Richmond told CID investigators that he would take a polygraph but he was never contacted until his command ordered him to "see legal" on 29 March 2004.

Several CID Forms 28-R, maintained in the original CID case file, relay the following entries:

On 4 Mar 04 at 1015, SA **Sector Control** noted, "I see no need for Poly. Facts of case speak for themselves."

On 4 Mar 04 at 1700, SA noted, "Poly is a possibility, but really not needed."

On 7 Mar 04, SA **Sector Control** noted, "Agreed poly on Richmond immaterial at this point."

After not hearing anything about the investigation for several weeks, on 29 March 2004, PFC Richmond did not understand why a polygraph was now needed. When he asked the CID agents, they simply told him words to the effect of, "your chain of command needs a polygraph done."

During CID's pre-polygraph explanation of the test, SA and the discussed different topics with PFC Richmond. There were certain questions that PFC Richmond did not feel comfortable discussing. For example, CID asked him "Have you ever lied to a person in a position of authority?" and "Have you ever lied?" SA and total PFC Richmond that his answers to these preliminary questions would determine if he fit the profile of a murderer. PFC Richmond expressed his discomfort to SA and total and said words to the effect of, "shouldn't I check with a lawyer or something." SA and the agence and simply began questioning PFC Richmond about a different subject matter. As the questioning continued, SA and the same subject matter. PFC Richmond stated unequivocally, "I can't talk about that. I want to see a lawyer if you want to talk about that."

2

6/6-1

SA conducted the polygraph examination. Upon completion of the question and answer part of the exam, SA pulled out a chart of graph paper and made some markings and numbers on the paper, presumably the polygraph printout. After a cursory look at the summarily told PFC Richmond that he failed the polygraph. printout, SA

then told PFC Richmond that the military judge would know that he failed the SA polygraph and that the fact that he failed the polygraph examination would be used against him at his trial. SA told PFC Richmond that he should explain why his answers came up negative on the exam. PFC Richmond asked SA which questions he failed but SA again told PFC Richmond that the results could be used would not tell him. SA against him at trial. SA told PFC Richmond that he had traveled all the way to Kirkuk from Tikrit and that he was there to "help out" PFC Richmond. SA the inferred that once he left Kirkuk, he would not be able to "help out" PFC Richmond anymore. PFC Richmond believed, "I came out of that room thinking [the polygraph result] was admissible in court."

continued to interrogate PFC Richmond during this four-hour time period. SA SA badgered PFC Richmond with "hypothetical" scenarios and "what-if" situations. Among rrogation questions by SA the interrogation questions by SA groups were "Let's say out there you knew you shot was an accident," and "Or what if you tripped and started to fall and had an accidental discharge?" He continued, "Let's say you knew the Iraqi was cuffed " and "....didn't you think anyone would see?"

PFC Richmond answered the SA state hypothetical scenarios as just that, hypothetical scenarios. It was his answers to these "what-if" type questions that were typed by SA state onto a DA Form 2823-E, "Sworn Statement." SA state of printed the sworn statement. PFC Richmond was given the opportunity to read through the statement, however he barely read it PFC Richmond answered the SA because after 4 hours of questioning, PFC Richmond knew that as soon as he signed the statement he could leave. He signed the statement at 1419.

The Polygraph Examination Report, dated 30 Mar 04, pertaining to the polygraph of PFC Richmond reveals the following in the Examiner's Conclusions:

An analysis of the polygrams collected determined insufficient criteria was present to make a conclusive decision regarding the truthfulness of RICHMOND.

F. ARGUMENT

The Fifth Amendment to the United States Constitution requires that confessions be excluded from evidence in criminal trials unless they were made voluntarily. See Arizona v. Fulminante, 499 U.S. 279, 281 (1991). Military Rule of Evidence 304(a) states that:

[A]n involuntary statement or any derivative evidence therefrom may not be received in evidence against an accused who made the statement if the accused makes a timely motion to suppress or an objection to the evidence under this rule.

The Military Rules of Evidence define an involuntary statement as one that is:

- (1) obtained in violation of the self-incrimination privilege or due process clause of the Fifth Amendment to the Constitution of the United States,
- (2) obtained in violation of Article 31 of the Uniform Code of Military Justice, or
- (3) obtained through the use of coercion, unlawful influence, or unlawful inducement.

Mil. R. Evid. 304(c)(3). Once an appropriate motion has been made by the defense to suppress a statement under this rule, the burden is on the government to establish the admissibility of the statement. Mil. R. Evid. 304(e).

To determine whether a confession is voluntary, the United States Supreme Court has held that the necessary inquiry is:

Is the confession the product of an essentially free and unconstrained choice by its maker? If it is, if he has willed to confess, it may be used against him. If it is not, if his will has been overborne and his capacity for self-determination critically impaired, the use of his confession offends due process.

See Culombe v. Connecticut, 367 U.S. 568, 602 (1961), citing Rogers v. Richmond, 365 U.S. 534 (1961). In determining whether an individual's will was overborne in particular case, the Supreme Court has held that the Court must assess: "the totality of all the surrounding

United States v. PFC Edward L. Richmond, Jr. Motion to Suppress

circumstances -- both the characteristics of the accused and the details of the interrogation." Schneckloth v. Bustamonte, 412 U.S. 218, 226 (1973). The Court goes on to note a nonexclusive list of factors that the Court has considered in assessing the totality of the circumstances:

- (1) the accused's age and education,
- (2) whether the accused was properly advised of his rights,
- (3) the length of the detention,(4) the repeated and prolonged nature of the questioning, and
- (5) deprivation of food or sleep.

See id. The Court notes, however, that none of these criteria are controlling, they are simply part of the assessing the totality of the circumstances of the interrogation. See id.

The Court of Appeals for the Armed Forces applied the standard set forth in Schneckloth for assessing the totality of the circumstances of an interrogation. See United States v. Bubonics, 45 M.J. 93, 95 (1996). The Court considered an additional factor of the accused's lack of prior involvement with the military justice system. See id. at 96.

Under the totality of the circumstances test, assessing both the characteristics of PFC Richmond and the details of the interrogation, the statement by PFC Richmond was involuntary and the product of unlawful inducement, coercion and unlawful influence and should be suppressed.

1. The Characteristics of PFC Richmond at the time of the Interrogation were such as to Render the Statement Involuntary

PFC Richmond joined the United States Army on 22 May 2002. He was 20-years-old at the time CID questioned him. PFC Richmond dropped out of high school and obtained a GED in order to join the Army. Throughout his military career, PFC Richmond has been conditioned to respond with discipline to figures in authority. In early March 2004, PFC Richmond's unit transferred him from forward operating base (FOB) McHenry to FOB Warrior. His entire military support system and chain-of-command remained at FOB McHenry. Despite the premise that a suspected accused is innocent until proven guilty, PFC Richmond's chain-of-command moved him away from his unit and to a different FOB specifically because of the incident for which he now stands trial. No one from his unit accompanied PFC Richmond to his CID Interrogation on 29 March 2004. Two NCOs ordered him to go to the legal office without telling him why. PFC Richmond was alone against the government.

In Bubonics, the Court of Appeals for the Armed Forces found the accused's conditioned response to those in a position of authority to be a significant factor in a totality of the circumstances analysis. The accused had only 2 ½ years of military experience and was "conditioned throughout that time to respond with discipline to figures of authority." Bubonics, 45 M.J. at 96.

Further, as the United States Court of Military Appeals in United States v. Planter, 18 U.S.C.M.A. 469 (C.M.A. 1969) noted, due to the rank structure in the military, coercive tactics employed by investigators are especially overpowering. The Court stated:

Further, military personnel to whom confessions are made are, in many instances, of higher rank than the one confessing, and certainly, if only by reason of their duties, tend to have great influence under the circumstances.

Id. at 473, citing United States v. Smith, 32 C.M.R. 105, 120 (1962).

PFC Richmond was a soldier with less than 2 years of military experience at the time of questioning by CID. He was ordered by two noncommissioned officers to report to the legal office. When PFC Richmond arrived at the legal office, he was greeted by two CID agents who were clearly expecting his arrival. They met him at the entrance of the building in order to escort him to the interrogation room. The agents were older than PFC Richmond and were the ones that initiated the questioning. They introduced themselves with the authority of law enforcement personnel and when PFC Richmond asked why he was there, he was told that his command had ordered a polygraph examination. Each of these factors must be considered under a totality of the circumstances test when evaluating the voluntariness of PFC Richmond's post-polygraph statement.

CID questioned PFC Richmond over and over again about the killing of the Iraqi farmer. Any time he would claim that he did not know the Iraqi was flex-cuffed, he would be told that he was lying and that he did know the man was cuffed. For a soldier with no prior involvement in the military justice system, these events were overwhelming and overbore his will.

2. The Characteristics of the Interrogation were such as to Render PFC Richmond's Statement Involuntary

CID subjected PFC Richmond to repeated and prolonged questioning for over four hours which overbore his will. The United States Supreme Court has noted:

In the police station a prisoner is surrounded by known hostile forces. He is disoriented from the world he knows and in which he finds support. He is subject to coercing impingements, undermining even if not obvious pressures of every variety. In such an atmosphere, questioning that is long continued -- even if it is only repeated at intervals, never protracted to the point of physical exhaustion -- inevitably suggests that the questioner has a right to, and expects, an answer.

Colombe v. Connecticut, 367 U.S. 568, 575 (1972).

While the questioning of PFC Richmond did not take place in a police station, the physical surroundings were analogous. The NCOs ordered PFC Richmond to go to the legal office, a location clearly linked to law enforcement activity. He was met at the entrance to the building by two CID agents. The two agents controlled the setting and the dynamics of the situation; they led PFC Richmond to a room they pre-selected for the interrogation in which the polygraph equipment already was set up.

Another factor to be considered is the issue of admonishing a person to tell the truth during the course of an interrogation. The military recognizes that, "Admonishing a person to tell the truth is not coercion, unlawful inducement or improper influence," however, "if an exhortation or adjuration to speak the truth is connected with suggestions of a threat or benefit, the confession is inadmissible." United States v. Hansome, 45 C.M.R. 104, 107 (C.M.A. 1972).

Whenever PFC Richmond would deny that he knew the Iraqi was flex-cuffed, SA would tell him that he was lying or that he was not being honest with him. SA would be provided that he was there to help him and that once he left the interrogation he would not be able to help him anymore. SA would gave an answer that SA would over and over on the same point. Any time that PFC Richmond gave an answer that SA would did not like, he was told that he was not telling the truth. SA would be provided PFC Richmond that once he left Kirkuk that he

United States v. PFC Edward L. Richmond, Jr. Motion to Suppress

would not be able to "help" him. He led him to believe that at that day and time of questioning, it was PFC Richmond's last opportunity to be "helped" by CID. This repeatedly and prolonged questioning combined with the other factors overbore SGT will.

3. The 29 March 2004 Statement was the Product of an Overzealous CID Office

An important factor to consider when assessing the totality of the circumstances is the overzealousness of CID that set the stage for the coercive environment. The only reason CID went forward with the polygraph on 29 March 2004 was because they previously had arranged for SA statement to travel from Balad, Iraq, to Tikrit to conduct the polygraph. The case file is replete with references that a polygraph was not needed in this case. However, ultimately, rather than reveal to SA statement that his trip to Tikrit was for naught, the government continued to transport him to Kirkuk. This position is bolstered by SA statement own representations to PFC Richmond that he had traveled all the way to Kirkuk just to see PFC Richmond. CID did not contact PFC Richmond to confirm a date and time for the polygraph. Rather, representing the government, CID office seized upon an opportunity to order PFC Richmond to meet with them and to subject PFC Richmond to over 4-hours of interrogation.

The facts of the present case are analogous to those of United States v. Martinez, 38 M.J. 82 (C.M.A. 1993). SFC for the consented to a polygraph exam and upon its conclusion, the CID agent told him that the test indicated deception. The CID agent conducted post-polygraph questioning of SFC for the threatened to leave the interrogation unless SFC for the threatened to leave the interrogation unless SFC for the total to the truth. After several hours of questioning, SFC for the made inculpatory statements. See id. at 83.

In the present case, SA and told PFC Richmond that he had failed the 29 March 2004 polygraph. SA and told so knowing that the test did not indicate deception but rather, that the test was inconclusive. That SA and told lied to PFC Richmond is evidence of the level of coercion that CID was willing to go to get the statement that they wanted to get rather than the statement that PFC Richmond was willing to give. SA and to be to be the statement that they are stop to be the statement that they wanted to get rather than the statement that PFC Richmond was willing to give. SA and to be the statement that they are stop to be the statement that they are stop to be the statement that they wanted to get rather than the statement that PFC Richmond was willing to give. SA and they are stop to be the statement that they are stop to be the statement they are stop to be the statement that they are stop to be the stop to be the stop to be the stop to be they are stop to be the stop to be they are stop to be the stop to be

Though not equaling the threat to leave the interview room, as concluded in *Martinez*, the totality of the circumstances shows that SA and the coerced PFC Richmond in continuing to speak to him by telling him that he had traveled from Tikrit to Kirkuk just to meet with PFC Richmond. Important to note is that PFC Richmond knew that military personnel should not travel unnecessarily in combat-heavy Iraq. PFC Richmond knew that the special agents, like all soldiers in Iraq, put themselves in increased danger every time they leave a secured installation. This type of guilt-inducement, under the circumstances contributed to the coercive statement obtained by SA

Additionally, the suggestive interrogation techniques of CID mirror those considered by the court in *Martinez*. In *Martinez*, "CID told him he had lied and gave him another scenario which it offered as the truth." *Id.* at 85. In the present situation, SA for a state of the truth of the t

A critical fact to be considered under the totality of the circumstances is that PFC Richmond commented to SA about checking with a lawyer on two occasions during the

66-3

66)-1

interrogation. Rather than address the soldier's concerns about seeking counsel, SA would simply change the topic of questioning. PFC Richmond's mentioning of a lawyer, while perhaps not rising to the level of invoking his right to counsel, is a significant contributing factor to determining if PFC Richmond's statement was the product of an overzealous CID agent who, after risking his life by traveling in Iraq, was going to get the statement he wanted regardless of what he was told by the soldier.

G. CONCLUSION

Under the totality of the circumstances, assessing both the characteristics of PFC Richmond and the details of the CID interrogation, the 29 March 2004 statement by PFC Richmond was involuntary and the product of unlawful inducement, influence, and coercion and should be suppressed.

RESPECTFULLY SUBMITTED:

SWORN STATEMENT

(Y-I; Edward L. RICHMOND, want to make the following statement under oath:

I provided a sworn statement on 1 Mar 04 concerning the incident in which I shot and killed an Iraqi farmer during a raid. Looking back on the entire situation, I would like to make some corrections to that statement at this time. Prior to the raid, the rules of engagement were put out that if anyone tried to flee the villiage, we were to shoot them. After arriving to the villiage and setting up, I could hear some shotgun blasts going off in the villiage where the raid was taking place. I then noticed an Iraqi male walking his cattle away from the villiage. Since the rules of engagement were put out that we were to shoot anyone fleeing the villiage, I asked if I should shoot the farmer because he was leaving the village. I was told by SGT to not shoot him. About an hour later, someone, maybe CPT put out over the radio to apprehend all males leaving the villiage. At that time, we decided to apprehend the farmer. Myself and each had a set of flexicuffs and began walking into the field where the farmer was still with his cattle. My adrenaline was already pumping because of the raid and then even more so as we approached the farmer to apprehend him. Myself and ecided that would place the flexicuffs on the farmer, while I stood guard. The farmer seemed to be directing our attention to something else as we approached him, and then as SGT began placing the flexicuffs on him, he started resisting. Already at that point I had a lot of adrenaline going through my system and shouted at me to point my rifle at the Iraqi's head. I then pointed my rifle at his head and he stopped resisting. In my previous statement I put in that I did not realize the Iraqi was wearing flexicuffs when I shot him. Looking back now, I think it would be more accurate to say that I did not register in my mind that he was wearing flexicuffs. The adrenaline was affecting my perception of the situation. I remember seeing outting flexicuffs on him and I saw him with his arms behind his back as I pointed my rifle at his head. I had to know he had on flexicuffs before I shot him, but it just did not register in my mind at the time. Also in my previous statement, I said that the Iraqi lunged at Again, looking back on it now, I don't think the Iraqi actually lunged. What happened is turned him to walk away; however, because of the adrenaline, when noved the Iraqi out of my sight picture, I just reacted by shooting him. I would have never shot that man had I been thinking clearly. I would never shoot someone who was wearing flexicuffs if I registered in my mind that they were wearing them. It is everything combined between the pressure of the raid, the new rules of engagement, the Iraq resisting his detention, and the whole situation in general that caused me to not be react like I normally would.

v.

PFC Edward L. Richmond, Jr. U.S. Army Headquarters and Headquarters Co., 1st Battalion, 27th Infantry Regiment 25th Infantry Division (Light) APO AE 09347

MOTION FOR PRODUCTION OF A VERBATIM ARTICLE 32(b) HEARING TRANSCRIPT

66-4

9 July 2004

A. RELIEF SOUGHT

)

COMES NOW the accused, PFC Edward L. Richmond, Jr., by and through counsel, to request production of a verbatim transcript of the Article 32(b) hearing in this case. Alternatively, the defense requests a verbatim transcript of the testimony of certain witnesses.

B. BURDEN OF PROOF & STANDARD OF PROOF

The defense bears the burden of establishing by a preponderance of the evidence that evidence to be produced is relevant and necessary under Rule for Courts-Martial (R.C.M.) 703(f)(1) and 703(f)(4).

PFC Richmond is charged with the unpremeditated murder of Mr. on 28 February 2004. On 17 April 2004, a hearing was held pursuant to Article 32(b) of the UCMJ to investigate the charges against PFC Richmond.

C. FACTS

Prior to that hearing, on 15 April 2004, the defense submitted a request to the Article 32(b) Investigating Officer for a verbatim transcript to be made of the testimony in that hearing in order to preserve each witness' testimony under oath. The hearing was held 49 days after the date of the alleged offense. At the time of trial on 1 August 2004, an additional 105 days will have elapsed since the date of the Article 32(b) hearing. In total, 154 days will have elapsed from the day of the alleged offense until the day the witnesses testify at trial. Several Article 32(b) witnesses are anticipated to testify at trial. A verbatim transcript of their sworn Article 32(b) testimony is necessary for purposes of cross-examination and/or impeachment by prior inconsistent statement. The only practical method for such purposes is a verbatim transcript of each witness' testimony.

The entire Article 32(b) hearing lasted only three hours. Only three witnesses testified under oath at the Article 32(b) hearing. To transcribe the sworn testimony of these three witnesses would take minimal effort on behalf of the government. The government has adequate

resources to provide a verbatim transcript. The defense does not have the logistical resources or personnel to produce such a transcript.

On 22 April 2004, the Article 32(b) Investigating Officer indicated his intent to include a verbatim transcript with his final report. In block 21 of the DD Form 457, the Investigating Officer indicated, "Record of Verbatim Testimony is attached," however, only a summarized transcript was attached.

On 14 May 2004, the defense requested production of all statements by government witnesses in its Request for Discovery, paragraph 1m.

D. LAW

The defense relies on the following authorities in support of its motion:

- a. R.C.M. 405 (j)(2)(B)
- b. R.C.M. 703(f)
- c. R.C.M. 914
 d. The Jencks Act, 18 U.S.C. § 3500, et seq.
- e. United States v. Scott, 6 M.J. 547 (A.F.C.M.R. 1978)

E. ARGUMENT

A verbatim transcript of the Article 32 hearing is relevant and necessary to the preparation of the defense in this case. The defense acknowledges that R.C.M. 405 (j)(2)(B) only mandates that the Article 32 report of investigation include the "substance of the testimony taken." However, the defense has requested, and is presently renewing that request, that outside the requirements of R.C.M. 405 a verbatim transcript be prepared to assist the defense in preparation for trial.

A verbatim transcript is necessary for several reasons. First, the defense believes that such a transcript will assist the accused in preparing a defense in his case. Soldiers testified at the Article 32(b) hearing at a date much closer in time than their testimony will be at trial. The defense must be prepared to refresh any witness' recollection with a copy of their verbatim Article 32(b) testimony. Second, during the course of the trial and motions sessions, if necessary, it will not be possible for counsel to go back and review testimony on audiotape without asking for a recess of the court. Third, the defense anticipates that during trial that it may become necessary to impeach government witnesses with their testimony at the Article 32(b) hearing. Trying to do this with tape recordings would be burdensome and potentially cause undue delay in the proceedings.

Pursuant to R.C.M. 914(a)(2) and the Jencks Act, 18 U.S.C. § 3500, the defense is entitled to production of all statements made by government witnesses that relate to the subject matter of their testimony. See United States v. Scott, 6 M.J. 547, 548 (A.F.C.M.R. 1978) (finding that the military judge erred by not requiring production of verbatim witness testimony to the defense).

United States v. PFC Edward L. Richmond, Jr.

Motion for Production of a Verbatim Article 32(b) Hearing Transcript

Recognizing that such an entitlement does not accrue until after a witness has testified, the defense requests the verbatim transcripts prior to trial in order to preserve judicial economy, to reduce inconvenience to the panel, and to obviate the need for a delay in the trial proceedings.

PFC Richmond does not have the resources to pay for creation of a verbatim transcript that would cost thousands of dollars if done through a private contractor. The government has at its disposal a court reporter in Iraq who would be able to type a verbatim transcript within a matter of days. TDS does not have paralegal specialists to prepare such a transcript. Further, the parttime paralegal specialist in the FOB Danger TDS Branch Office is PCSing.

If the government is unwilling to produce a full verbatim transcript of the entire hearing, or the court does not order such a verbatim transcript, the defense requests a verbatim transcription of the following specific witness testimony: SGT

F. CONCLUSION

The defense respectfully requests that the court compel the government to provide the defense with a verbatim transcript of the Article 32(b) hearing in this case. Alternatively, the defense requests verbatim transcribed testimony of the witnesses referenced above.

MEMORANDUM FOR Commander, 1st Infantry Division, FOB Danger, Tikrit, Iraq, APO AE 09392 $\sqrt{(c)}$ -5

SUBJECT: Request for Sanity Board – PFC Edward L. Richmond, Jr., Headquarters and Headquarters Company, 1st Battalion, 27th Infantry Regiment, 25th Infantry Division (Light), FOB Warrior, Kirkuk, Iraq, APO AE 09347-9998

1. Pursuant to R.C.M. 706(b), Manual for Courts-Martial, the accused requests the convening authority appoint a sanity board to determine whether he is competent to stand trial and whether he was mentally responsible for the alleged offense.

2. In support of this request and in compliance with R.C.M. 706(a), the defense proffers the following:

a. PFC Richmond has absolutely no history of UCMJ action or any history of acts of violence. The charged offense is completely contradictory to previous acts by PFC Richmond that it is possible the accused was suffering from some mental disease or defect.

b. Eyewitness reports and the Criminal Investigative Division's observations that the soldier showed no remorse for the alleged acts calls into question the soldier's mental stability. The potential combat stress from his unit's previous missions may have affected the soldier's mental well-being during the time of the alleged offense.

c. The nature of the circumstances surrounding the charged offense of murder calls into question the mental condition of the alleged perpetrator, PFC Richmond.

3. The defense requests that a board of at least three psychiatrists be appointed to examine the accused. Furthermore, the defense requests that these board members be the most experienced and qualified psychiatrists in the Army and that at least one member be board certified in forensic psychiatry.

4. In conjunction with the sanity board, I request that the accused also receive the following examinations:

a. A complete physical examination to include body fluid laboratory evaluations and electroencephalogram.

b. A complete neurological exam to include a Cat Scan.

c. A thorough battery of psychological tests, to include, at a minimum, an intelligence indicator (such as the Shipley or Wechsler Adult Intelligence Scale); a personality inventory (such as the Minnesota Multiphasic Personality Inventory); and a series of other tests to indicate bizarre thought processes (such as the Rorschach Ink-Blot Test, Thematic Apperception Test, and Bender Gestalt Test). These tests should be administered and interpreted by a board-certified clinical psychologist. All tests should be documented and retained for defense use.

5. In the report, the sanity board should answer the questions listed in R.C.M. 706(c)(2)(A)-(D).

a. At the time of the alleged criminal conduct, did the accused have a severe mental disease or defect?

b. What is the clinical psychiatric diagnosis?

c. Was the accused, at the time of the alleged criminal conduct and as a result of such severe mental disease or defect, unable to appreciate the nature and quality or wrongfulness of his or her conduct?

d. Is the accused presently suffering from a mental disease or defect rendering the accused unable to understand the nature of the proceedings against the accused or to conduct or cooperate intelligently in the defense?

6. In addition to the questions required by R.C.M. 706(c)(2)(A)-(D), the defense requests, IAW R.C.M. 706(c)(2), that the sanity board answer the following additional questions concerning PFC Richmond's *current* mental condition.

a. Does PFC Richmond currently have a severe mental disease or defect?

If the answer to "a" is yes, please answer the following questions:

(1) What is the clinical psychiatric diagnosis, using the American Psychiatric Association's Diagnostic and Statistical Manual TR (DSM TR)?

(2) Is this severe mental disease or defect service-disqualifying?

(3) What is the accused's prognosis for recovery?

(4) Can this severe mental disease or defect be successfully controlled by treatment with drugs?

b. What is the accused's intelligence level?

(4) Is this severe mental disease or defect merely a defect of character or personality caused by inadequate training and development, lack of moral restraint, or a personal, social, or cultural standard of conduct which differs from that of society as a whole?

b. Was PFC Richmond, at the time of the offense, as a result of such severe mental disease or defect, unable to appreciate the nature and quality or wrongfulness of his conduct?

(1) Was this complete impairment?

(2) Did PFC Richmond posses a "lack of capacity" to appreciate the wrongfulness of his conduct?
