WANT TO MAKE THE FOLLOWING STATEMENT UNDER OATH

My name is [redacted] I'm assigned to 2/3 FA as a combat medic and I was assigned to 2/3 FA as a combat medic in Iraq. I had duties in Iraq that put me in contact with the 2/3 FA detention cell at [redacted]. I did limited guard duty and provided some medical coverage there to make sure detainees were well taken of. I was at the detention facility two to four times a week. If we knew a detainee who came in with a medical condition, we made it a point to go to the detention facility every so often to monitor vitals. We did not have a regular routine for checking the detainees at the detention facility.

I was working at the detention cell in December and I have a vague recollection of the [redacted] family. I remember when the [redacted] came in, we had to check on one of the brothers as soon as he got there because he was erratic and clearly agitated more than normal. I believe he had some small head injuries like bruises or contusions, which could have been caused by a fall. He didn't seem all there mentally to me. He didn't appear to have been beat up. His injuries did not appear to get worse during his detention. I understand he passed away at [redacted]. From what I saw, his physical injuries did not lend themselves to death or severe injury. I did not see him sustain any additional injuries during his detention. The two times that I checked on him for vitals, he did not appear to get any better or worse. When I would check his vitals, he was just coherent enough to know what was going on. Once when I went to check on him they were pulling his trousers back up. He smelled real bad and I don't know if that was due to him defecating on himself or not showering. It did not appear to me that he or his brothers were physically [redacted].

I've never heard of any allegation by a detainee of being sodomized.

I'm not aware of what detainees got interrogated. I did not see detainees return from an interrogation in worse shape than before they went to the interrogation. Other than interpreters, no other Iraqi nationals were allowed in or near the detainee cell. Other than the interpreters I have not seen other Iraqi nationals near the detainee cell. I can't remember any of the names of the interpreters.

I have heard the name [redacted] but I couldn't place a face to it and to my knowledge he was never at the detainee cell when I was there. From my understanding [redacted] was a good guy. I remember one guy that worked there a lot that they named [redacted] went out on a lot of raids and supplied intel. [redacted] might have had supervised access to detainees. I've never seen him without an escort.

As far as I can tell you there was no abuse going on at the detention facility. Detainees were properly fed, given blankets and heater during the winter, shade during the summer, access to latrines, and medical coverage superior to what they're used to. If a detainee were being severely abused or sodomized I believe a medic would know about it.
