SUMMARIZED WITNESS STATEMENT OF [REDACTED] who was interviewed on 21 January 2005 at a conference room at a Federal Bureau of Investigations (FBI) facility, Tyson's Corner, Virginia. Mr. [REDACTED] was also present for the interview. His statement was substantially as follows: b6-1 b7C-1

I was stationed at Guantanamo Bay, Cuba (GTMO) from February 2002 to February 2003. I left the island periodically during the year to conduct other FBI business. At the time I was working as a Special Agent for the FBI.

During the course of the interview I was asked about what I know about detainee abuse at Guantanamo. I was specifically asked about the following acts: inappropriate use of military working dogs, inappropriate use of duct tape, impersonation of or interference with FBI agents, inappropriate use of loud music and/or yelling, sleep deprivation, short-shackling, inappropriate use of extreme temperatures during interrogation, and inappropriate use of sexual tension as an interrogation technique, to include use of lap dances and simulated menstrual fluids.

I have personal knowledge of the following:

I heard about military interrogators impersonating FBI agents but the allegation didn't alarm me. Interrogators are in the business of lying to individuals that we are interviewing in an attempt to accumulate information and intelligence.

I can confirm that short shackling did occur. I witnessed a detainee placed in a "catcher's stance" during an interrogation. I confronted the two military interrogators. The detainee may have also been on his knees. I reported this to Capt. [REDACTED] the CJTF JAG, and we reported the incident to LTC [REDACTED] the SJA for JTF-70. b6

There were times that the air conditioner would be turned down to make the detainee uncomfortable. The Commander later said "knock it off" and I believe the practice was stopped.

I did see "SGT [REDACTED]" touching and holding a detainee's hand during an interrogation session. She was invading his space. It was clearly upsetting the detainee. b6

I declare under penalty that the foregoing is a true and correct summary of the statement given by the witness [REDACTED]. Executed at Davis-Monthan Air Force Base, Arizona, on 29 March 2005. b6
