

SUMMARIZED WITNESS STATEMENT OF Supervisory Special Agent In-Charge [REDACTED] **B6**
 [REDACTED] who was interviewed on 11 January 2005 at a conference room in the **B6**
 Commissions Building, Guantanamo Bay, Cuba (GTMO). Mr. [REDACTED], an attorney for the
 Federal Bureau of Investigations (FBI), was also present for the interview. His statement was
 substantially as follows:

I was originally assigned to GTMO from 25 June 2002 to August 2002. I was then re-deployed
 to GTMO for a two-year tour from August 2003 to May 2005. During my first deployment I was
 working as a Special Agent for the FBI and I am currently the Supervisory Special Agent in
 Charge for FBI operations at GTMO.

During the course of the interview I was asked about what I know about detainee abuse at
 Guantanamo. I was specifically asked about the following acts: inappropriate use of military
 working dogs, inappropriate use of duct tape, impersonation of or interference with FBI agents,
 inappropriate use of loud music and/or yelling, sleep deprivation, short-shackling, inappropriate
 use of extreme temperatures during interrogation, and inappropriate use of sexual tension as an
 interrogation technique, to include use of lap dances and simulated menstrual fluids.

I have personal knowledge of the following:

The FBI conducts separate interviews from the Joint Interrogation Element (JIE) interrogators at
 GTMO. There are times when we will conduct interviews with the Criminal Investigation Task
 Force since we have similar law enforcement missions.

I know that [REDACTED] a member of the Special Projects Team, posed as an FBI agent during an **B6**
 interrogation. Other agents mentioned that interrogators from other agencies also posed as FBI **B6**
 agents. I discussed the "impersonation issue" with [REDACTED] and he said it wouldn't
 happen again without FBI approval. It was not an aggravated event and it was handled on the
 ground level. You could ask 500 agents and 400 would tell you that they posed as other people
 during interviews. It just requires prior coordination. The handling of this situation was an
 example of proper inter-agency coordination and cooperation.

It is my understanding that short shackling was authorized. I have never personally seen it done. **B6**
 [REDACTED] told me that he witnessed this. **B6**

I declare under penalty that the foregoing is a true and correct summary of the statement given by
 the witness, Agent [REDACTED] Executed at Davis-Monthan Air Force Base, **B6**
 Arizona, on 29 March 2005. **B6**

SUMMARIZED WITNESS STATEMENT OF Agent [REDACTED] He was interviewed on or about 0930 hours, 20 January 2005, at Conference Room, NACAVC. [REDACTED] was also present during Agent [REDACTED]'s interview. His statement was substantially as follow:

I was stationed at Guantanamo Bay, Cuba (GTMO) from 13 Sept 02 to 29 Oct 02. I was deployed to GTMO as part of the Federal Bureau of Investigation Behavioral Science Division. During my time at GTMO I was partnered with Agent [REDACTED]

During the course of the interview I was asked about what I knew about detainee abuse at Guantanamo. I was specifically asked about the following acts: Inappropriate use of military working dogs, inappropriate use of duct tape, impersonation of or interference with FBI agents, inappropriate use of loud music and/or yelling, sleep deprivation, short-shackling, inappropriate use of extreme temperatures during interrogation, and inappropriate use of sexual tension as an interrogation technique, to include use of lap dances and simulated menstrual fluids.

I have personal knowledge of the following:

On or about 05 Oct 02, Agent [REDACTED] and I witnessed a military working dog being used during an interrogation of ISN 063 at Camp X-Ray. The dog was brought into the interrogation room. After witnessing this unorthodox interrogation technique, Agent [REDACTED] and I left the observation room. When we discussed the event with [REDACTED], he just stated the technique was approved and he didn't see anything inappropriate about the use of a dog in an interrogation.

I remember the interrogation vividly for two reasons. First, I had never seen a dog used in an interrogation and I believed it was inappropriate. Second, earlier in the evening, I had a conversation with two military dog handlers (one of the handlers was an Army soldier and the other was a Navy sailor) about the best methods for training a German Shepard. I was interested because I had just recently acquired a German Shepard puppy and thought the handlers could provide valuable information. We talked to him (Mr. [REDACTED]) several different times to let him know that we objected to the use of dogs and that we did not do business that way. It was an inappropriate measure. He told us that we [REDACTED] and I) were guests and we should act accordingly.

There was one occasion when [REDACTED] approached [REDACTED] and me. [REDACTED] was laughing and asked us to follow him to another interrogation booth to "see something funny." I didn't go, but [REDACTED] did. [REDACTED] returned and told me that he had observed a detainee's head and face completely wrapped in duct tape.

I declare under penalty that the foregoing is a true and correct summary of the statement given by the witness, Agent [REDACTED]. Executed at Davis-Monthan Air Force Base, Arizona, on 29 March 2005.
