Subject: RE: RFA 186-04-CID259-80231 (CAT 1)

This e-mail is in response to the below e-mail you sent to [REDACTED] 7C1b01. This is my RFA. It seems most of your questions relate to bleeding at the time of exam, however that is not what my AIR says.

1. The medical records indicate that the patient's complaint was bleeding from the anus, but what was noted in the exam was "anus exterior hemorrhoid", "oval fistula" and later "anal fistula". Upon interview COL [REDACTED] 7C1b01 described this as an "anal fissure".

2. See above description. I believe SSG [REDACTED] 7C3b03 statement is referring to the initial screening that all detainees receive when they arrive at Camp Bucca. However, upon receipt of your RFA I coordinated with COL [REDACTED] 7C3b03, and requested "a medical examination specifically for trauma due to sodomy".

3. MR [REDACTED] 7C1b01 was not bleeding at the time of the examination.

4. When I requested the examination of MR [REDACTED] 7C1b04, I briefed COL [REDACTED] 7C3b03 as to the allegations so he would be able to conduct an appropriate exam. When I interviewed COL [REDACTED] 7C1b04 he related an examination of MR [REDACTED] 7C1b04 anus had been performed and reported the results. However, I did not ask him how invasive the examination had been.

5. MR [REDACTED] 7C1b01 was not bleeding at the time of examination. COL [REDACTED] 7C3b03 stated that due to the scarring, the age of the injury was older then 2-3 weeks from the time of examination, but a beginning time could not be established.

Hopefully this clears things up. If you have any more questions shoot me an e-mail with whatever you need.

This is in reference to a CAT 1 RFA sent to your office under the above case number, your office number 0093-04-CID519. I need the following questions answered:

1. SA [REDACTED] 701619 reported interviewing COL [REDACTED] 701619 wherein COL [REDACTED] 701619 stated Mr. [REDACTED] 701619 (tribal name: [REDACTED] 701619) was bleeding from his anus during the time of examination, yet no documentation or sworn statement shows this.
2. The examination reported no signs of exterior anal tearing, and is consistent with the investigators statement by SSG [REDACTED] 701619 who stated COL [REDACTED] 701619 stated he didn't examine the anus.
3. What I need to know, is if COL [REDACTED] 701619 examined Mr. [REDACTED] 701619 anus and found it bleeding, did he document the bleeding or just remember it?
4. Did COL [REDACTED] 701619 examine the inside of Mr. [REDACTED] 701619 anus for tearing? (no documentation shows an exam)
4. Is the bleeding consistent with the injury occurring a month prior to the examination. Basically, is it normal to still be bleeding from Sodomy when it occurred a month prior to the examination date.

I don't know who's actually working the RFA, if it's not you could you please forward to the proper Agent and have them send me an acknowledgment of receipt. Thank you.

Sir,

Attached is the memo regarding the alleged abuse we discussed. I have removed my conclusions, opinions and recommendations. You read those portions and know my position and the position of the command. This is a very easy case. If there is no medical evidence one or two days later when he was transferred to 39th BDE THF or a week later when he went to Abu then you should close this investigation. If there isn't medical evidence then this terrorist lied and you should find a way to charge him with perjury, filing a false statement and anything else available. That is the only way that these people will learn the value of their word and that there are consequences for a lack of integrity. If you need to interview members of the command let me know and I will coordinate those meetings.

I have found out why SA [REDACTED] 7C1661 was looking for me. Tell him to contact me regarding the statement from the source. Any additional contact of the ODAs should come through me for facilitation, especially right now due to TOS and the operational environment.
