Control Number 0122-2004-CID452-63629

TIME, DATE, AND AGENT

SUMMARY OF INVESTIGATIVE ACTIVITY

Leader, Squad Operations, patrol and security during his deployment. Basically health and welfare of sodleirs. SSG and the was never permanently assigned to Doh Rah Wod (DRW); he only conducted a few supply runs, approximately two times. He only filled in to deliver mail, supplies, food, equipment etc. SSG and the stated he did not witness any abuse of detainees and was unable to identify the individual brandishing the weapon to the detainee's head. SSG

humanely. They had bags over their faces and Flexi cuffed, but that was about the extent. During the end of the deployment they were instructed too not place bags over their head and only use blindfolds.

SSG detection described the photographs 4 through 6, as being "PUC", Persons Under Control (PUC). This was a very close platoon, and we would tie up a fellow soldier and horseplay around to celebrate a promotion, award or birthday. It was done to be on my birthday, voluntarily, as the other soldiers also participated in the events. The deceased Afghanistan Male (photograph 20 and 21), I do not know who he is. The only one I can think of it being is the guy killed when he shot the Rocket Propelled Grenade (RPG) at the tower on DRW. SSG was not present during the attacks, and was not aware if a Commanders 15-6 was conducted or a SPOT Report was done. SSG

(ROE) and numerous times (NFI) in Kandahar. SSG (Represented to clarify any questions sodleirs had. SSG (Represented to clarify any questions sodleirs had. SSG (Represented to clarify any questions believes had. SSG (Represented to clarify any questions

At 1105, 7 Jul 04, SA **Harden and residence for evidence pertaining to** this investigation and to examine his computer for electronic forensic purposes. (See consent to search for details)

Agent's Note: A Search of SSG Additional Testidence revealed on his hard drive photographs of a soldier identified as Additional Pholding a M-4 Rifle to the back of a detainee (NFI) and Additional Pholding a M-4 Rifle to the head of a detainee.

At 1230, 7 Jul 04, SA Mathematical Collected as evidence from SSG (CPU) as evidence. Evidence was collected on a DA Form 4137, Evidence/Property Custody Document (EPCD), voucher number #046-04. (See EPCD for details.

Briefed SAC Briefed SAC Bragg RA on CAT 1 RFA and he accepted, ending acknowledge of receiptb3c-1, 66-1Coordinated with SA SAC, Fort Hamilton, who agreed to complete interview of SSG Branch b3c-4, 66-4

| 07/20/2004 13:00<br>1:07 INV 67C-1,66-1 | office to gain access. <u>L7C4,66-(</u><br>At 1107, 20 Jul 04, SA <b>Control</b> interviewed SPC <b>Control</b> B Co, 2/22 Infantry Battalion, FDNY who related he was new to the unit<br>only a couple of weeks and was deployed to Afghanistan. His platoon<br>arrived around August 2003 time frame and was based out of Kandahar<br>International Airport. His position was automatic rifleman. He related he<br>went to Bagram Air Base about half way through his nine month<br>deployment for only two weeks and returned to Kandahar for the<br>remainder of the mission. While in Bagram for the two weeks he did<br>guard PUC's (detainees) at the facility named Orgun-e for a couple of<br>hours at a time and switched with fellow soldiers. He related he did not                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 7/20/2004 13:20                         | witness or participate in any detainee abuse. SPC was not<br>aware of the pictures shown regarding DRW and was only aware of the<br>RPG attack involving the wounding of three Us soldiers from word of<br>mouth from fellow first platoon soldiers.<br>Advised                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
