I believe we need to know about the changes that people want to make. I have given the schedule to the Admin Agent [Redacted] so he can pass onto his replacement. Any changes we make should obviously include notification of GTMO.

Busy day yesterday with the new batch...everyone is saying that their quality level is the best GTMO has received...Observed several good interviews and some not so good..we actually effected a change in the format after they got started with the first 4 detainees that was followed for the rest. [Redacted] will arrive on this side of the island shortly after noon.

b6 -1
b7C -1

Talk with ya later.

The schedule is completed. We should have it typed by the end of the day and I'll get you a cc. I thought we would distribute it via e-mail and let everyone know that if they negotiate a change it needs to be approved by the UC's of the individuals effected by the change. Do you concur and/or have other ideas or issues you want covered?

Thanks for the update...looks like it is more dangerous at home than here...later today we have the 33 detainees coming in so it should be interesting...looking forward to [Redacted] and [Redacted] coming down..I am making flight arrangements today to fly back next Monday via Lynx. I'll probably take Tuesday as a family leave day to give [Redacted] a break with [Redacted] and be in the office on Wednesday. Talk to you later..

Thanks. They obviously have been keeping you very busy and involved in meaningful work [Redacted] and [Redacted] met on Friday and worked through much of the GTMO schedule. Some of the less senior SSA's have not been able to get any of

b6 -1

~~SECRET~~

their first five choices. We will meet again today and should finish the schedule and distribute it and get feedback. I'll let you know how it goes and get a cc of the schedule to you ASAP.

[redacted] and [redacted] went to Ft. Belvoir last week and received a brief of the operations there [redacted] will give you the details when she arrives GTMO tomorrow (Tues - assuming the Buplane flies on schedule).

Other news: [redacted] transported [redacted] to the ER on Friday am from her home. She had some leg pain and chest discomfort. She was examined and released. A message from her indicates she is doing fine and should be back to work Tues. 8/5/02. Also on Friday [redacted] was attacked in his driveway by a probable rabid fox. It tore his pants and he shot and killed it. It's being tested for rabies and he was examined by a Dr. and appears to be OK.

Good luck, I'll stay in touch. Call if you have a chance.

[redacted] and [redacted] are scheduled to be in digs that will give them their own rooms in the same townhouse. It is not possible to set up a P.O. Box - the best way to receive mail is through the Miami Office attn SA [redacted] (PH). The Bureau plane delivers mail twice a week for agents and others at GTMO.

Another significant development is the elimination of the Tiger Teams. Beginning 8/10/02, each component will be assigned detainees by a formula that is still being finalized. The FBI is establishing a top 20 and an additional 100 detainees is planned to be assigned to the FBI. I will get a hard copy of the approved plan next week and will get it faxed to you. With this approach they believe that they can interview more detainees and eliminate the "panel interview approach."

The new batch of detainees will arrive 12:30PM on Monday (8/5/02) and will be worked exclusively by the Tiger Teams until Thursday. Things won't get back to

~~SECRET~~

"normal" until Saturday apparently. I am looking forward to observing this process.

Talk to ya next week!

[redacted] 08/02 8:36 AM >>>

Have we received approval (GTMO/HQ) for [redacted] and [redacted] to participate. We didn't count them when we listed the TDY blocks on the calendar. Before we make any adjustments we wanted to confirm that they are good to go. Thanks.
