Subject: FW Corrected Version of Abu Ghurayb Prison Interviews

**SENSITIVE BUT UNCLASSIFIED
NON-RECORD**

FYI - During [redacted]'s interview, UC [redacted] advised him of concerns previously documented regarding the DOD interrogation techniques at GITMO. Since the current inquiry is limited in scope to AGP, I advised [redacted] he did not need to expand the interview of UC [redacted] to GITMO interrogation techniques, but that he should ask UC [redacted] for a copy or the file/serial # of the EC which previously documented the issues/concerns at GITMO so we would have it for reference if needed. The file/serial # of the EC which documented concerns over DOD interrogation techniques at GITMO 265A-MM-C99102, Serial 1209

[redacted]

After I spoke with you yesterday afternoon, both interviewees [redacted] and [redacted] contacted me and made slight changes to their answers. The bottom line remains the same, neither SA [redacted] nor UC [redacted] observed any mistreatment or abuse of detainees at Abu Ghurayb Prison. I have attached the revised interviews.

When we spoke yesterday afternoon, you requested a copy of the EC UC [redacted] mentioned regarding DOD interrogation techniques at Guantanamo Bay, Cuba. UC [redacted] was reluctant to provide me a copy of this classified document, however, he provided me the file number and serial number, which I have provided below.
