Mr. [redacted].. I am trying to err on the side of caution here, so these incidents may or may not fall within the parameters you are using. I have been repeatedly assured that, although some of the techniques utilized by some of the non-FBI interrogators here are well outside what would generally be considered standard procedure for a CONUS FBI interview, all of the techniques used have been approved by the SecDef. However I personally feel about these techniques, I have been assured that DOD had permission. I further do not believe anything akin to the activities at Abu Ghareb in Iraq have taken place here.

1) [redacted]
Situation: I was told on or about Thursday, 22 April 2004 by a member of DOD's North Africa-Europe (NAE) team that [redacted] whom he debriefs, had provided the following: Sometime in the second or third week of February of 2004, [redacted] was taken to reservation. [redacted] was on both FBI and NAE hold.) He did not recognize the interviewers and when he told them he didn't want to speak to anyone unless they were introduced by his regular interrogators, he was yelled at for 25 minutes. [redacted] was short-shackled, the room temperature was significantly lowered, strobe lights were used, and possibly loud music. There were two male interrogators; one stood behind him and the other in front. They yelled at him and told him he was never leaving here. The interrogator tried to get [redacted] to identify photos. After the initial 25 minutes of yelling, [redacted] was left alone in the room in this condition for approximately 12 hours. At one point, the interrogator came back in the afternoon to make sure he was still there. During the 12 hours, [redacted] was not permitted to eat, pray, or use the bathroom. One of the interrogators was described as old/late 50's, grey and black hair, mustache with no beard, short, skinny, and wore a blue shirt.

My actions: I verbally informed my GTMO SSA when I received the information. I later informed the GTMO On-Scene Commander via e-mail on 05/05/2004.

Note: It is my understanding all of these techniques were, at that time, permitted per DOD. We believe the interviewers may have been with CTC based upon the physical description and the fact that [redacted] was taken to an interview room without appearing on the schedule... I believe they are the only entity here that can do that.

hours (approximately 15 hours) by NAE. Throughout the session, [redacted] periodically threw up in a trash can. At the time, I was told he had an ulcer and that the stress was irritating it. I was later advised he had a stomach virus. I was told he had been given a shot of Motrin (or something like that) by the medical staff.

My actions: Due in part to the fact that LTC [redacted] was present and did not object to the situation, and that I never heard [redacted] ask to be returned to his cell or request medical assistance, I took no action. I subsequently reported this to the GTMO On-Scene Commander via e-mail on 05/05/2004.

Situation: I briefly observed the following in early April of 2004: Attempts were being made by NAE to debrief [redacted] [redacted] refused to speak or interact with the interrogators in any way. I believe [redacted] was kept in an interrogation room for approximately 15 hours, short-shackled, with strobe lights and possibly music.

My actions: Because it was my understanding that, at that time, all of these techniques were permitted per DOD, I did not report this.
