Db C -1 To [(NSD) (FBI) Subject: RE: GTMO Choose morning my partner from OSI went into the observation room accross the hall from our interogation room to get a chair. While in there he called me in. In one of the other interogation rooms was a detained sitting in a chair alone in the room. The glass/2 way mirror was very warm to the touch, as if the room temp, was high in the interrogation room. The detained appeared to be sleeping in the chair. The next day while getting a chair in the observation room 1 observed what appeared to be the same detained in the same room. The window felt very cool that morning, as if the room temp, was low. Again the detained was alone and appeared to be sleeping in the room. I do not know what ISN number the detainee was nor who had the detained in the room. I did not go into the interogation room and don't know how the room felt. After making these observations we left the observations. I would appreciate any input you have regarding these observations. Thanks. Do the interogation is the room of the interogation is subject: RE: GTMO MOL (LASSIELED NON-RECORD) D6 -1 Proc -1 Prod -1 <th></th> <th>н 1</th>		н 1
