I don't know enough about the positions we've taken re: Abu Ghraib to comment on this. Is anything in this OSCE statement problematic?

Folks:

Friday was so rushed and this statement is so sensitive that I wanted to give everybody a final chance to review this statement.

Need your comments by noon Monday; I will assume clearance if I have not heard from you by that time. Please send all comments to me at my personal e-mail (on the cc line).

Thanks,

Heather Troutman
