Subject: FW: Afghanistan report -

To the CHR crowd,

Human Rights Watch in the past few days issued a highly critical report of US actions in Afghanistan. As an example, the summary of the report states:

"Yet today, on Afghan soil, the United States is maintaining a system of arrests and detention as part of its ongoing military and intelligence operations that violates international human rights law and international humanitarian law (the laws of war). In doing so, the United States is endangering the lives of Afghan civilians, undermining efforts to restore the rule of law in Afghanistan, and calling into question its commitment to upholding basic rights."
