Subject: Detainee Issue heads-up

[REDACTED] from detainee policy working group at OSD just called to give us the heads up that sensitive and potentially inflammatory photos of detainees being moved by aircraft in theater are now circulating widely in unclassified email traffic, and possibly already are posted on the Web. The images appear to have been taken by a service member, and an investigation is underway. OSD will email the images to me shortly. They advise that we should expect unfavorable press reaction. As I don't usually cover this issue, please forward to anyone else whom you think should be advised.
