Just to confirm our conversation and establish for the record: the FBI Agents involved have not been named as subjects in this investigation, nor has there been any allegations against them directly. They are merely listed as witnesses, as they had some sort of contact with the prisoner making the allegations of abuse, at some point during his custody.

As such, we indicated to Army previously that they would be available for interviews, if deemed appropriate by Army CID, and there should be no problem with turning over whatever documentation exists to include their 302s.

Thanks,

Steve,
Per you instructions this morning, [ ] will coordinate the requested interviews of FBI personnel. We will not open an Internal Investigation matter case on them unless we receive some evidence that they were involved in misconduct. We will stay on top of this, and if they situation changes, you will be advised immediately.
We have contacted at least one person in WFO who is more than willing to be interviewed and has already forwarded us some documents concerning interviews conducted in Iraq.
