I would be interested in the analysis, because this topic is loaded with potential issues which may not readily surface (i.e. surface in a timely fashion) regarding employee rights and liabilities. M

You should be aware of this. When Don Thompson was A/AD he tried to have all of this consolidated and/or coordinated through the DD and/or CTD rather than piecemeal through INSD. I'll try to locate his email and forward it to all of you for historical understanding. T>

All--

I received a written request for a roster of FBI personnel in Iraq (october to December 2003) from Army CID, which is investigating allegations of abuse at Abu Ghraib. The request was delivered by CID's poc who is co-located with our NJTTF group at LX-1. In addition, Army CID states that the information is necessary to facilitate any possible future interviews which may be requested during official hearings. I have requested more information as to the nature of any purported allegations (either of abuse or failure to report same) against FBI personnel, as well as any proposed interviews. I just spoke with CID's poc by phone and am waiting to hear back from her on these questions.

sure if you were made aware of this request since the poc also mentioned that you were acting as legal counsel.

I would appreciate any information either of you may have about this matter. Thanks.
