NON-RECORD

Steve: The only thing I was able to confirm was that SA [redacted] and SA [redacted] are the possible subjects of the above allegation. The Army has no additional details other than that which was provided to them in the report they faxed to us. I've made the requested changes to the Director's Note. Thanks, Tim.

June 29, 2004

Director Mueller,

The Inspection Division, Internal Investigations Section received a complaint today from the U.S. Army, Criminal Investigation Command (CIC), advising that they are conducting an investigation into allegations that two FBI Agents were involved in an assault of a civilian detained at the Baghdad International Airport (BIAP) sometime between March 4th and 11th, 2004.

The alleged victim, [redacted] is currently being held at the Baghdad Central Confinement Facility, Abu Ghraib, Iraq. The Army's investigation was initiated based upon allegations made by [redacted] that he had been abused while detained at BIAP. According to [redacted] he was captured and detained at a detention facility at BIAP where he was interrogated by FBI SAs. [redacted] reported he was tortured for approximately 24 hours and fell on barbed wire. Further, [redacted] reported the individuals dragged him by his feet and punched him in the abdomen."

While the above information has yet to be corroborated, the Army reported that "documents extracted from [redacted] detainee file revealed [redacted] was in the FBI's custody," but the complaint does not specify for what purpose and for how long he remained in their custody/control. Likewise, the CIC has not positively identified subjects of this investigation but it is believed that FBI SA [redacted] and FBI SA [redacted] [redacted] are possible subjects. No additional information is known at this time, but the Army indicated that they are trying to locate, fully identify and interview SAs [redacted] and [redacted]
