GTMO - INTEL
GUANTANAMO BAY, CUBA
MAJOR CASE 188

Pursuant to a request from Federal Bureau of Investigation Headquarters (FBIHQ) to coordinate all FBI behavioral-related support to the detainee interview process at the United States Naval Base, Guantanamo Bay, Cuba (GTMO), an assessment team from the Behavioral Analysis Unit (BAU), National Center for the Analysis of Violent Crime (NCAVC), Critical Incident Response Group (CIRG), traveled to GTMO and conducted an on-site review. This report documents the findings of that team.

The opinions and recommendations contained herein are based solely upon personal observation, information, and documentation obtained by the BAU during the on-site review process at GTMO. These recommendations are also based upon the prediction that the operations at GTMO regarding the processing, interviewing, and securing of the Taliban/Al Qaeda detainees represents a long-term, if not permanent, project of the U.S. Government. If additional information from other sources regarding operations at GTMO is received at a later date, or should it be determined that the GTMO operations are simply a short-term solution, then certain aspects of this report may be subject to modification or change.

This document is the property of the FBI. It contains information of a confidential and sensitive nature, and is provided exclusively for your information. It should not be disseminated except to other U. S. Government agencies with a legitimate investigative or prosecutorial interest in this matter. Any other dissemination is governed by federal law (28 CFR 16.21 *et seq.*, pursuant to 5 USC 301), and must be coordinated with the CIRG Chief Division Counsel.
