As you know, #1 was brought to General Hood's attention by NAE.

I consider #2, as you have reported it, unfounded and arguably not credible, based on the source.

#3 was observed/supervised by competent JTF medical authority, and as you weren't moved at the time to label it abuse, I'm reluctant to do so now.

Subject: reported incidents

Per our meeting earlier today, the following information has been brought to my attention:

1) 757

Situation: I was told on or about Thursday, 22 April 2004 by [REDACTED] (NAE) that 757, whom he debriefs, had provided the following: Sometime in the second or third week of February 2004, 757 was taken to reservation. (757 was on both FBI and NAE hold.) He did not recognize the interviewers and when he told them he didn't want to speak to anyone unless they were introduced by his regular interrogators, he was yelled at for 25 minutes. 757 was short-shackled, the room temperature was significantly lowered, strobe lights were used, and possibly loud music. There were two male interrogators; one stood behind him and the other in front. They yelled at him and told him he was never leaving here. The interrogator tried to get 757 to identify photos. After the initial 25 minutes of yelling, 757 was left alone in the room in this condition for approximately 12 hours. At one point, the interrogator came back in the afternoon to make sure he was still there. During the 12 hours, 757 was not permitted to eat, pray or use the bathroom. One of the interrogators was described as old/late 50's, grey and black hair, mustache with no beard, short, skinny, and wore a blue shirt.

2) 110

Situation: The following information was provided to me by detainee 110 in approximately January or February 2004: 110 was being taken to reservation or medical (something inside Camp Delta; I don't recall what). While outside near the Brown building, he saw a young Filipino/Asian female with long dark hair, short tight pants, and a revealing top. When the female noticed him, she jumped, laughed, and ran around the building out of his sight. 110 believed that this was a prostitute.

My actions: verbally informed [REDACTED] advised this female fit the description of a prostitute who had previously been working out of the base beauty shop.

3) 661

Situation: I observed the following in early April 2004: 661 was being debriefed for several hours (approximately 15 hours) by NAE. Throughout the session, 661 periodically threw up in a trash can. At the time, I was told he had an ulcer and that the stress was irritating it. I was later advised he had a stomach virus. I was told he had been given a shot of Motrin (or something like that) by the medical staff.

My actions: Due in part to the fact that LTC [redacted] was present and did not object to the situation, and I never heard 661 asked to be returned to his cell or request medical assistance, I took no action. b6 b7C

Thanks, LL
