I'm going to let you clarify this point since you are more intimately involved in this. Thanks

George -

Document your interviews as follows: Use a 302 to document the time, place and attendees,  
Then summarize your interview on an official FBI Insert w/ case number etc. This 302 should be classified if the info in the Insert is classified, The Insert should go in a 1A envelope, and if classified, The 302 with above info should be classified with the caveat that "while classified this 302 is unclassified when the 1A is not attached."

I hope this makes sense, this is consistant with the guidance from EAD Pistole's EC, the only change being that the word "transcript" should be replaced with "summary" This interpretation was approved by [redacted]
