 NON-RECORD

BAU at the request of the then (GTMO Task Force, ITOS1) wrote an EC (quite long) explaining the Bureau way of interrogation vs. DoDs methodology. Our formal guidance has always been that all personnel conduct themselves in interviews in the manner that they would in the field. [REDACTED] Clinical Psychologist for CITE, along with FBI advised that the LEA (Law Enforcement Agencies) at GTMO were not in the practice of the using SERE techniques and were of the opinion results obtained from these interrogations were suspect at best. BAU explained to DoD, FBI has been successful for many years obtaining confessions via non-confrontational interviewing techniques.

We spoke to FBI OGC with our concerns. I also brought these matters to the attention of DOJ during detainee meetings with [REDACTED] and [REDACTED] DOJ express their concerns to DoD OGC.

[REDACTED] has a copy of all the information regarding the BAU LHM. I believe she has provided that to [REDACTED]

I may have more specific information in my desk at HQ. I will search what I have when I return (5/17).

I think I've heard this several times, but let me ask one more time:

FBI023567CBT

(S) Has there been any written guidance given to FBI agents in either GTMO or Iraq about when they should "stand clear" b/c of the interrogation techniques being used by DOD or DHS [REDACTED]

b1

(S) Has there been any written guidance given to FBI agents along the lines of: DOD/DHS ☐ is authorized to use a, b and c techniques when interrogating detainees. To the extent you become aware (either personally or through subsequent interrogation of a detainee) of anyone using techniques other than a, b and c, you should notify Mr. X?
