Subject: Re: Intelligence Oversight Board

Chase,

As I am sure you are aware, I have serious questions of the legality of the Interrogation plans being developed and implemented by the DHS for detainees at GTMO. I have previously sent you and HQ an analysis of these issues but have not yet heard of any official response.

Thanks for asking,

[redacted]

The FBI is required to report on a quarterly basis to the IOB regarding any ongoing or planned activities within the counterintelligence field that raise serious questions of legality or propriety. If you have any such information, please reply to this e-mail as soon as possible. Thanks.
