"As you are all aware, INSD is responsible for the coordination of all GAO and
OIG audits of FBI activities and programs. These audits often involve the
production of documents as well as interviews of FBI employees. The Deputy
Director has determined that it is imperative that the FBI maintain an
accurate accounting of all documents provided to the auditing entities, and
has tasked INSD with that responsibility. The OIG often makes document
requests directly to the various divisions who may have documents relevant to
an ongoing audit. To ensure that an accurate accounting of documents provided
to the OIG and GAO is maintained by INSD, it is imperative that either copies
or a detailed description of any documents provided directly to the OIG or GAO
be provided to INSD. Each division has designated a POC for GAO and OIG
audits; these POCs work with the INSD Major Project Management Oversight Unit
(MPMOU) to facilitate OIG and GAO audits. The designated POCs have been
advised of INSD's role and the requirement to ensure we have an accounting of
all documents provided in response to audits.

Currently, the DOJ OIG is conducting a broad review of FBI knowledge,
involvement, or activities in any way related to the abuse of detainees at
Guantanamo Bay, Cuba; at Abu Ghraib prison in Iraq; and at any other venues
under the control of the U.S. Military. The DOD is conducting parallel
investigations of the activities of Military personnel and has requested
access to FBI information. Additionally, similar documents have been
requested and are being produced pursuant to ongoing FOIA litigation. It is
imperative that all documents provided in response to any of these ongoing
inquiries/litigation are accounted for by INSD. Please ensure that
appropriate personnel are made aware of this requirement.
