ALL INFORMATION CONTAINED HEREIN IS UNCLASSIFIED Division in the summer of 2004 and the resultant Harrington letter to Gen Ryder. We also described the document review process for the CSRT that resulted in the "discovery" of several other allegations.

The staffers asked <u>several</u> questions about whom and how these allegations were being investigated. ______ and I mentioned we had recently met with both Gen. b6 Furlow and Gen Schmidt. They asked about DOJ OIG and we replied we were aware b70 of an investigation but had not yet been interviewed. They asked if any of the investigators had interviewed detainees. Gen Hood responded -no.

Based on my observations of this part of the meeting it seemed to me the staffers representing the minority, and were doing groundwork and laying the foundation for some sort of Congressional inquiry into the FBI abuse allegations.

The questions then turned to the FBI role in the CSRT process. Our role was explained to them, review of 302s etc. The crux of the questioning was focused on the fairness of the process and the use of information to which the <u>detainee did</u> not have access. Along this same line a number of questions from were leveled at the OARDEC representative in the large meeting preceding the private FBI meeting. ________ appeared to be reading from Judge Green's playbook relating to the "fairness" of the CSRTs.

formerly of NSLB, handles FBI matters for the majority, handles FBI matters for the minority. a majority b staffer is a former DIA interrogator that worked at GTMO in 2002 and also worked on the Padilla case in Charleston for the DIA.

I am standing by for your questions.
